Potlatch plays its part

CONTINUITY

At Potlatch Forests, Inc., we are adding new dimensions to the knowhow of modern forestry. Today's methods build tomorrow's forests. The next generation of fishermen will thrill to the suddenly taut line, the brave fight. Hunters will still know the pulsing excitement of the search and stalk. And children will look up in awe at the majesty of a tree!

Each step in modern logging yields products for today, knowledge for tomorrow. And when the mature crop of trees is harvested it is soon replaced by a young, fast-growing forest through man's cooperation with nature. It's all a part of a wonderful pattern . . . from a tiny seed to a healthy tree to a forest product to dollars for research for a better way... and Potlatch proudly plays its part!

HIGHWAY BADLY NEEDS SEAL COATING

State Highway 3 from Spalding Junction to at least as far as Deary is badly in need of seal coating, say those who travel it frequently.
At the Deary end there are ruts which cause a car or light vehicle to "weave," where heavily laded vehicles have left their mark in the

Between Juliaetta and Kendrick NEW PCA MANAGER it is described as "not too bad," but a seal coat would help greatly.

Between Juliaetta and Spalding the road is full of "waves", ruts and some "dishes" or shallow pot-holes. Here a real leveling and oiling job is needed.

No one blames our local highway crew, they have certainly put in the hours and done their best, but real

Boise — The 1967 state highway
maps featuring historic points of
interest and scenic attractions have
been distributed by the Idaho Demers and three different years on partment of commerce and Development, through the courtesy of the Department of Highways, to 50,000 more people than in 1966.

As part of the state's travel promotion program 900 maps are mailed daily by the Department of Commerce and Development. Requests conducted the state and Development. Requests conducted the state and three different years on a cattle ranch in Montana. His education and actual experience make him well qualified for the position he has accepted.

Mr. Bowen will jundergo a training period at the Lewisting office to acquaint him with the accual promoters and Development. Requests conducted the same and fundamental states of the as-

Canada, and foreign countries. The bulk of inquiries are written by educational institutions, tourists intend- will find every wanted item at Blewing to vacation in Idaho, and others ett's Market. Kendrick.

responding to the state nation-wide advertising program. In addition bulk shipments are sent to sports and travel shows.

The maps, together with packets of Idaho brochures, supply state agencies, conventions, libraries, U. S. auto clubs, chambers of commerce, travel agencies and other miscel-

laneous groups.
In 1966 the Department of Commerce and Development distributed 155,000 highway maps.

Lewiston - The Lewis-Clark Production Credit Association announces the employment of Robert Bowen as field office manager of the new branch office recently opened at

Mr. Bowen, who is single, was born in Bozeman, Mont., and moved with his family to Spokane in 1952, where heavy seal coating is needed in many he has resided since that time. SPEAKING OF MILK

Any discussion of nutrition re- | Skim milk is milk from which quires frequent reference to fat has been removed by centrifmany basic foods such as meats, ugation. In skim milk ordinarily vegetables and milk.

Have you ever stopped to consider the numerous kinds of milk per cent milk fat. It may be enavailable-or is milk to you, just riched by added solids not fat and milk? Take a quick look:

Quality milk comes from clean, to customer or store. All this is and homogenized; it is available done speedily to assure fresh- in various flavors. ness. Milk may be supplied in the following ways:

Whole fresh fluid milk contains not less than 3 to 3.8 per cent and sugar ... milk fat and not less than 8 to 8.5 per cent milk solids-not-fat, according to varying state laws. Certified milk, produced under

high standards of cleanliness set forth by the National Association of Medical Milk Commissions. Soft-curd milk is prescribed for below -10 degrees Fahrenheit

baby-feeding formulas . . . Vitamin D milk contains added vitamin D . . .

Multiple fortified milk can contain vitamins A and D, and other additives as well, such as non-fat dry milk, multiple vitamins, minerals and milk sugar ...

Concentrated milks may be fresh, frozen, evaporated, con- A (also vitamin D usually is densed, or dried; those with sugar added), and other nutrients in added are usually called con- lesser amounts. densed milk ...

Non-fat dry milk, in powdered form, has had the fat and water

the water removed . . .

Consultant, National Dairy Council

fish, eggs, cheese, fruits, cereals, available the fat content is 0.1 per cent . . . Two per cent milk contains two

various vitamins and minerals . . . Cultured milks include butterhealthy cows, milked under sani- milk, acidophilus milk, and yotary precautions; it is cooled, gurt made from partially skimpasteurized, homogenized and med milk fermented by various bottled; then iced and delivered organisms, and then pasteurized

> Chocolate milk (or other flavored milk) is made from whole milk with desired flavoring, syrup

> Chocolate or flavored milk drink is made with partially or wholly skimmed milk or other chosen flavors ...

Canned whole milk can be stored until opened, then it must be refrigerated . . Frozen whole milk can be kept

for six weeks; it must be used soon after defrosting . . . An eight-ounce glass of fluid whole milk supplies 159 calories; skim milk 89 calories. The nutrients of whole milk include: protein, calcium, phosphorus, sodium, potassium, magnesium, thiamine, riboflavin, niacin, vitamin

No other foodstuff offers such variety in so many usable forms. Milk enters into every diet in a multitude of ways. No wonder Whole dry milk has had only the cow has been called the foster-mother of the human race.
