HUMAN RACE MAY BECOME EXTINCT

end of the century to stem the inevitable tide," says evolutionist John T. Robinson of the University of Wisconsin. Unlike other animals which are dependent on gentic change to adapt to their surroundings, man can to a considerable extent manipulate his environment and adapt directly

MOST AMERICANS pay little or no attention to most international issues. according to a survey published by the University of Michigan. It reports that in the area of foreign affairs. Americans have had little awareness of the nature and purpose of the reciprocal trade program, the Marshall Plan, or various later for-eign air programs. Majorities, often 6 large majorities, of American citizens have been unable to identify such leading international figures as Marshal Tito and the U.S. secretary of state. Likewise, citizens were found to ask information on such domestic issues as tax programs, farm policy, and even race relations. Social researchers have found that people who are knowledgable about any one major issue or policy, whether foreign or domestic, usually are reasonably informed about most others. A SPECIFIC PORTION of a mole-

cule that can incite an animal disease called experimental allergic encephaiomyelitis (EAE) has been isolated 0 and identified by a team of researchers at The Salk Institute. The researchers are now studying EAE and the molecular fragment for a better understanding of multiple sclerosis.

You can't beat ORTHO UNIPEL ANS (Ammonium Nitrate Sulfate) for topdressing your wheat crop. A new, higher analysis gives you 30% nitrogen. You get both the fast-acting performance of nitrate nitrogen and the slower release of ammonic nitrogen. Enough sulfur (6%) to correct deficiencies of that essential nutrient.

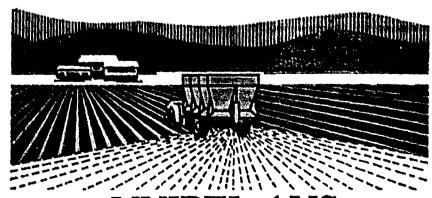

Besides all this Ans is made by the exclusive UniPEL process, so that all nutrients are chemically combined, not mechanically mixed. That means there can't be any segregation during handling and spreading operations. And pellets are uniform in size, too, so that you get excellent physical distribution.

Pound for pound, there's never been anything like the new 30% Ans for grains. Higher analysis means less tonnage to handle. That means more economical application -and more profit.

Unipel Ans is tops for topdressing. Your ORTHO dealer will be glad to tell you all about it.

REP. GEO. F. BROCKE REPORTS ON THE LEGISLATIVE DOINGS

(Delayed From Last Week)

With the seventh week of the 40th ture coming to a close, and with ten days left many major problems remain to be solved. So far no major general fund appropriations have been introduced. Only one importsession of the Idaho State Legislaant tax bill has made its appearance iton, and hatry and kenny; Mr. Charpentier's sister, Florence Hamand this is the bill that would raise iton, and Phil Eller, all of Lewiston iton, and Phil Eller, all of Lewiston.

Mrs. Ray Charpentier went to Oroper cent. To adjust for the loss fine, Monday, to vist her brother-inthe utilities would pay a gross revelate and painting that on their gross receipts and painting that the Clearwater Valley Hossing that the control of t

over the present appropriaton, which would give the public schools some \$78,250,000. The amount of money each district will get will be determined by the formula. In order to make the distribution fair some changes will have to take place in the formula. This will be done this coming week.

Ion. At this writing he is reported as reported as improving.

Mr. and Mrs. Adolph and Ernest Dennier homes.

Mr. and Mrs. Adolph and Mr. and Mrs. Adolph and accompanied for the hospital; slao accompanied for the Farm Institute program at the Teakean Grange Hall, Wednesday in the Adolph and Mrs. Adolph Dennier, Mr. and Mrs. Bert Nye and Mrs. and Mrs. and Mrs. Bert Nye and Mrs. and Mrs. Selway rivers Sunday, sight seeing and fishing.

Legislators' Wives Busy
Recent events for the wives of the legislators during their stay in the capital city included a luncheon with Mrs. Don Samuelson and Mrs. Robt.

E. Smylie as special guests.

The Legislators and their wives attended the Governor's eighth annual Prayer Breakfast, which had a capacity attendance in the College Student Union ball room over 1,000 persons. The breakfast is patterened after the Presidential Prayer Breakfast, held annually in Washington, D. C. The purpose is to bring the of the state together in a spirit of prayer, re-affirming this nation's heritage and recognizing that the ultimate of hope and trust

is in God. A coffee hour was hosted by the Ada County Legisladies, and a Val-entine Tea was held at the home of the president of Boise College.

Sunday afternoon Legislators and their wives toured the Children's Home and the Booth Memorial Hospital. Both receive some support from the state general fund.

One of the most interesting final affairs of the Legisladies was the luncheon last Thursday when former women members of the Idaho Legislature and former Legisladies were guests. The theme of the party was Hawaiian, which was carried out in decorations and food. Mrs. Geo. F. Brocke, Kendrick, was a member of the committee in charge of the luncheon. Also attending were Mrs. Harold Snow and Mrs. John Mix, Phone 289-5941 Kendrick whose husbands represent District 5 in this Legislature.

HOW TO TAKE THE GUESSWORK OUT OF TOP-DRESSING WHEAT

IF SO, HOW MUCH SHOULD I PUT ON? AND WHEN?

If you have been asking yourself these questions, perhaps we can help.

You can't tell how much nitrogen to put on without first getting a soil test to find out how much is already available in the soil. This is the first step: get the soil tested. Then you will want to consider these other factors, too, before deciding how much nitrogen to put on:

Amount of soil moisture

- **■** Variety
- Time of fall seading
- Rate of seeding
- Condition of the stand after the winter

Here's one time it doesn't pay to "do what the

neighbor does". We have seen where one field of wheat tested out needing 120 pounds per acre of nitrogen top-dressing, while the field across the fence needed only 50 pounds of nitrogen. So we say-You just can't tell by looking at the soil or the wheat stand, just how much nitrogen should be put on. We can't either.

It's a lot better to TEST than to GUESS. And a soil test or two costs very little.

If you want your soil tested, just say the word. Whether it's taking soil samples, filling out forms, sending them in or interpreting the results-we are here to give all the help you want.

Stop in and let's talk it over.

Music Festival

I heard a good story a few days ago about a pessimist and an optimist. Seems like this couple had twin boys and as they grew they seemed to have such different personalities that the parents became worried. When they were about 7 years old they took them to a psychiatrist for study. After talking with the boys, the psychiatrist told the parents that he felt one boy Mrs. Margaret Craig and Mrs. Ida Newman were in the Stanley Hepler home one day last week, working on ents permission he would like to try an experiment to verify his diagnosis. iann and Joan were Monday evening visitors in the home of Mr. and Mrs. Virgil Felton and family in Lewiston.

The parents agreed. In one room the psychiatrist placed the boy with pessimistic tendencies among a fine All celebrated Virgil's birthday an- collection of toys and the other boy niversary.

Cindy Fey, Leland, was an overnight guest of Terry Allen, Sunday.

Mrs. Thelma Meyer, Dorothy Meyer and Otto Schmidt visited in the Doug Chirstensen home, Monday of the process of the policy of the po Mrs. Stanley Hepler demonstrated the toys never moving or making any the toys never moving or making any event to enjoy himself. The other boy when left alone grabbed the showman and Mrs. Cecil Brammer and el and started shovelling the horse manure. After the boy shovelled for awhile, the psychiatrist opened the door and asked what he was doing. The boy replied excitedly, If I dig far enough, I think I will find a horse.
