Congratulations To Fair Winners

We salute the 4-H youth of our community in their achievements at the Nez Perce County Fair; also to the Extension Homemakers Club for its second place win in the Educational booth division. Many of our people attended the Fairs held in Lewiston and Orofino during the latter part of the week.

Wins Four Blue Ribbons

Sarah King, Southwick, won blue ribbons in four 4-H projects at the Clearwater County Fair — in Jr. Leadership, Canning, Wearable Woolens and Knitting. She won the top award for her knitting project and was given a \$10.00 gift certificate for yarn.

Juliaetta Youth Named Grand Champion Showman

BARNEY SMITH

JULIAETTA—Barney Smith, 16, son of Mr. and Mrs. Wm. H. Smith, Juliaetta, was named Grand Champion 4-H Showman, Friday, Sept. 19 at the Nez Perce County Fair. An all-around showman, Barney was also Champion Beef Showman and Steer Showman, and entered a steer judged 4th in the Live beef steer division. He is a member of the Stampeters 4-H club. Barney's competition this year included showing beef and dairy animals, sheep and hogs.

Janet Schmidt Bride Of David Wilson Following Cameron Church Rites

Mr. and Mrs. David C. Wilson are now at home in East Kendrick, following a wedding trip into western Montana. On Saturday evening, Sept. 6, Miss Janet Schmidt, daughter of Mr. and Mrs. Gerald Schmidt of Leland, became the bride of David C. Wilson, son of Mrs. Vern Choate of Kendrick. The double-ring ceremony took place at 8:00 p. m. at the Cameron Emmanuel Lutheran Church. Rev. Sherwin Schmidt, an uncle of the bride, and pastor of the Good Hope Lutheran Church of Gifford, officiated before an altar flanked by lighted tapers in tall candelabra and large baskets of yellow and white gladioli and yellow chrysanthemums. The bride, given in marriage by her father, wore a floor-length gown of chantilly lace and organza. It was fashioned with empire waist, accented by pearls and sequins. The sleeves and neckline were scalloped. Her silk illusion veil was attached to a headpiece of satin bows and pearl centered flowers. Her bouquet was of stephanotis and white orchids. Mrs. Wesley Andrews of Lewiston, a sister of the bride, was matron of honor, and the bridesmaids were Miss Janice Galloway and Miss Linda Newman. All wore identical floor-length gowns of yellow satin and yellow ribbon headpieces. They carried bouquets of miniature yellow chrysanthemums. Shelley Andrews and Brian Lee Thornton, niece and nephew of the bride, served as flower girl and ring bearer. The groom chose his brother, Richard Wilson of Sandpoint, as best man. Ushers were Stanley Wilson and Dan Fey. Mrs. Oscar Slind played the wedding music and accompanied Ann Meske who sang "Whither Thou Goest" and "The Lord's Prayer." The wedding reception was held in the church social room. Yellow candles and cake decorations carried out the bride's colors at the refreshment table. Mrs. Homer Parks and Mrs. Thelma Meyer cut and served the five-tiered cake, and Mrs. Raymond Steen poured. All are aunts of the bride. Mrs. Richard Wilson, her sister-in-law, served punch. Mrs. Bill Thornton, Jr., a sister of the bride, assisted by Judy Steen, were at the gift table. Mrs. Bill Fey was in charge of the guest book. The young people are both graduates of K. H. S., and attended North Idaho Junior College at Coeur d'Alene last year. He plans to enter Vocational School at Lewis-Clark Normal School in January. He is now employed with the Dept. of Public Lands, at Kendrick.

Return From Europe

Mr. and Mrs. Otto Schupfer returned home Wednesday of last week from a 22-day "Wander Tour" of Europe. They visited eleven countries, traveling with a group of 38 from the U. S. and Canada. The tour included traveling by trains, boats, 10 different airplanes, and 2,300 miles in a beautiful bus. The Schupfers later visited relatives in Austria for ten days — and report a wonderful time.

Birthday Anniversary

Mr. and Mrs. Rufus Fairfield enjoyed a birthday anniversary dinner at the home of Mr. and Mrs. James Bower in Avon, Wednesday evening.

Are Great-Grandparents

Little Tammy Lin arrived in the Doug. Harris home at Long Beach, Calif., Aug. 28th, weighing in at 6 pounds and 4 ounces. Mr. and Mrs. Otto Schupfer are the proud great-grandparents.

Other News

Sunday afternoon callers in the Rufus Fairfield home were Mrs. Elia Donaldson and Robert Tschantz of Lewiston, and Mr. and Mrs. Henry Brammer.

Mrs. Jack Mabbott and daughters of Connell, Wash., were Monday evening visitors in the Ervin Mabbott home.

Monday Maude Dougharty, Helen Groseclose and Viola Johns attended the Women's Society meeting at the Methodist Church in Lewiston.

Mr. and Mrs. Adrian Johns visited with relatives in Coeur d'Alene, Sunday.

Kendrick Grange Holds Booster Night

Kendrick Grange held its Booster Night at the Fraternal Temple on Tuesday evening, Sept. 16th. A delicious 6:30 dinner was by the serving committee: Mr. and Mrs. Gordon Peters, Mr. and Mrs. Harold Oldenness and Rev. and Mrs. Marvin Maddux, with the help of Mr. and Mrs. Wilbur Corhill, Mr. and Mrs. Wm. Johnson, Mr. and Mrs. Manning Onstott and Mrs. Lloyd Craig. There were about 40 members and guests present.

To establish a better understanding of the functions and purposes of the Grange, and for Booster Night, each officer was requested to make a report on the duties of his or her office, and to report any outstanding accomplishment of the office. One member of each committee was also asked to report.

Mrs. E. M. White was presented a Past Lecturer's Pin, and Mrs. Wilbur Corhill was presented a Past Chairman of Women's Activities pin. Mr. and Mrs. Gerald Ingle were presented their 25-year Membership Pins and Certificates.

To complete the entertainment, pictures were shown of our 60th state, Hawaii. These were taken by Mr. and Mrs. Walter Koepf, and were ably narrated by them, and much enjoyed by all who attended.

The next meeting will be held on Oct. 7, at 8:00 p. m., with election of officers scheduled.

Pomona Grange will be held Sept. 27th at Kennedy Ford, with the usual 6:30 supper. There will be election of officers.

Shirley Dennler Bride Of C. R. Sinclair

Mr. and Mrs. Ernest Dennler, Juliaetta, announce the marriage of their daughter Shirley Ann to Charlie Ray Sinclair, September 10, 1969, at the Zion Lutheran Church in Juliaetta, with Rev. Theo Meske, pastor, reading the nuptials.

Mr. Sinclair is a native of Spokane.

The couple will be living in Colfax. He is attending W. S. U., Pullman, and is also working there part time.

Assessor Explains New License Regulations

The Latah County Assessor's office announced this week that all 1970-71 validation stickers for the new staggered license plate system will go on sale Wednesday, Oct. 1, 1969. Assessor Taylor also stated that upon purchase of these stickers, they may be applied at once to the lower right hand corner of the license plate after this corner has been thoroughly cleaned. Also, if there are any loose pieces of the 1969 stickers, they should be removed. It is suggested that these stickers be applied immediately instead of putting them in wallets, purses or the jockey box of the car, so there is no chance of losing them. Some people are of the understanding that they do not have to purchase their stickers until the month of expiration according to the last digit of the license plate. This is not true, and that all registrations expire midnight, December 31, 1969, and must have a new validation sticker to be legal to operate on the highways January 1, 1970. Contact the License department of the Latah County Assessor's office for an explanation of the "system."

Gail Busch Is Wheat Queen

GAIL MARIE BUSCH

GENESEE—Gail Marie Busch, 16, attractive daughter of Mr. and Mrs. James Busch, was crowned 1969 Nez Perce County Wheat Queen on Friday at the 4-H Style Revue in Lewiston. She was crowned by Becky Wittman of Lapwai, last year's Wheat Queen and currently Idaho Wheat Queen.

Part of the qualifications for the title included a 250-word essay written on some phase of the wheat program. Gail wrote her essay on the Production of Wheat.

Gail is a junior at Genesee High School, where she is active in many activities, including F. H. A., Girls' Club, Pep Club, Girls' Trio, and she is a member of the girls' basketball team. She is a member of St. Mary's Catholic Church, and is an officer of the Catholic Youth Group of the church and a representative to the parish board.

Gail is past Sweetheart of the Genesee FFA.

Kendrick Camper Karavan Has Pot Luck

The Kendrick Camper Karavan enjoyed a sumptuous pot-luck supper in the Kendrick Fire Hall Monday evening with 21 present: Mr. and Mrs. Manning Onstott, Mr. and Mrs. Wayne Wegner, Mr. and Mrs. Art Foster, Mr. and Mrs. Lester Crocker, Mrs. Ernest Brammer and Jolene, Roy Ramey, Mrs. Walter Koepf, Mr. and Mrs. Cecil Gruell, Mrs. Elmo Eldridge, Mr. and Mrs. Lloyd Craig and Jean, Mr. and Mrs. Bill McCreary and Kim Trout.

Roy Ramey, Jolene Brammer, and Mrs. Art Foster and Lester Crocker were honored for their birthday anniversaries. Bill McCreary won the door prize.

The next camp-out will be Sept. 27 and 28 at the South Fork camp ground on the South Fork river.

Kendrick, Troy In 0-0 Tie; Genesee Routs Nezperce

Kendrick's Tigers and the Troy Trojans battled to a 0-0 tie on the Troy field last Friday night in a contest that still left both teams without a win in the current season. That same afternoon, the other two teams in the league, Genesee and Nezperce met on the Nezperce field and Genesee claimed a 40-12 victory and kept their league record intact.

Penalties plagued the Trojans in their game against Kendrick as they lost four touchdowns that were called back because of rule violations. Three times quarterback Bob Abbott passed for touchdowns and all three were called back. Terry Johnson had a 15-yard touchdown nullified by a penalty.

The Tigers had a hard time moving the ball and were further handicapped by the loss of starting quarterback Kim Trout, who was forced to sit out the game because of a severe cold. Donnie Parks took over the signal calling role for the Tigers.

Genesee Rolls
Dick Green continued to be the big gun in the Genesee backfield as he scored on runs of 48, 55 and 34 yards to pace the Bulldogs to a 40-12 victory over the Nezperce Indians. All of Green's touchdowns came in a wild second quarter.

Fred Morscheck started the scoring with a 6-yard off-tackle drive in the first quarter and then Martin Gilge went 77 yards for another Bulldog tally. In the third period quarterback Bruce Scharnhorst passed to Dale Hickman on a 4-yard play for the final score. From that point on the teams battled the rain and a slippery field and neither was able to score again.

Clarkston At Kendrick
Kendrick returns to their own field Friday night for a battle with the Clarkston JV's, with game time at 7:30.

Pottlatch At Genesee
Genesee will also be at home for a game with the Pottlatch Loggers.

**National 4-H Week
Set October 5 to 11**

As the season of county fairs brings a climax to one vigorous phase of 4-H club work in Idaho, members and their leaders are getting ready for another, Homer Futter, county agent in charge of the youth program, said today.

National 4-H Week will be observed October 5 to 11. One of the activities will be enrollment of boys and girls for next year. The agent said there is opportunity for all between the ages of 10 and 19 to take part in the educational work that emphasizes learning by doing, follows the slogan, "To make the best better," and carries the green clover symbolizing development of head, heart, hands and health.

Opportunity for all is the theme of the week, the agent said. He pointed out that any boy or girl living in a city or on a farm is welcome. Clubs are eager to accept new members. Arrangements to join can be made by calling the office of the University of Idaho extension service.

The week will also be a time for recognizing volunteer leaders and recruiting more of these men and women. "Without their dedicated service," the agent said, "4-H could not function in the successful way it has in developing useful skills and basic principles of citizenship."

There are more than three million 4-H members in the United States. Idaho has about 20,000 in more than 2,000 clubs. In Idaho as throughout the nation, an increasing proportion of members live in urban communities. Although farm projects are still prominent, there are many activities that do not relate to livestock or crops.

"We are fortunate to have the 4-H program," Pete Canarrusa, secretary of state, said recently at the dedication of an Idaho 4-H camp. "Most of all we are fortunate to have the devoted leaders who give their time unselfishly in teaching our youngsters to learn by doing."

"The real news stories in the world today are not about the looters and rioters, the demonstrators and the law breakers. They are about the accomplishments and the good that is coming to pass because of 4-H

**U. S. TREASURY COMMENDS
LOCAL POSTMASTER**

GENESEE—Postmaster Hall today received commendations from Elmer L. Rustad, National Director of the U. S. Savings Bond Division of the Department of the Treasury, for her outstanding service to the School Savings Program.

In his letter to the Postmaster, Mr. Rustad said, "You are indeed an important ally, as we work together to promote the sale of U. S. Savings Bonds and Stamps . . . We are again counting on your leadership in creating widespread acceptance of the program throughout your community."

The Genesee JayC Ettes are sponsoring the sale of Savings Stamps in Genesee Schools, as part of the nationwide U. S. Savings Bonds Program. Savings Stamps are available in five denominations, from 10c to \$5, and are on sale at all times in Post Offices and on Stamp Days in the schools.

Pupils are provided stamp albums at no cost and, when they are filled, the albums of Savings Stamps may be exchanged for Savings Bonds at the family bank.

Postmaster Hall said, "My associates and I are pleased and proud to continue this service to the young people of our community. The School Savings Program has been teaching thrift and good citizenship to our youngsters for 28 years. I know of no better way to encourage them to get started with the savings habit."

CHEMICALS DANGEROUS

Chicago — Mutagenic chemicals are coming under increasing fire from science because of their known ability to cause genetic damage in some human organisms. These chemicals, which may be present in food, drugs and water mostly as additives, may be as great a risk as radiation, possibly greater, though they have not evoked the widespread public concern that radiation has.

**FISH AND GAME
DEPT. NEWS**

Boise — Hunting seasons for forest and sage grouse, as well as quail and partridge, will open September 20 in many parts of the state, scatter-gunners were reminded this week by the Idaho Fish and Game Department.

Largest of Idaho's upland game bird species except Merriam's turkey, sage grouse were so numerous that early settlers bagged them by the wagon load, will be hunted this year from Sept. 20-28 in most areas. This is an increase of two days over last year.

Sections of eastern Idaho where sage and sharp-tail grouse are hunted will have the same season, Sept. 20-28, with a bag and possession limit of three birds in the aggregate of sage and sharp-tail grouse. This is an increase of one bird over last year. A seasonal bag limit of two birds in a 2-day season, Sept. 20-21, in the Greys Lake Outlet-Willow Creek drainage of Bonneville and Bingham counties is also scheduled.

Sage grouse season in the eastern part of Owyhee county runs from Sept. 20-28, along with the season in Ada, Adams, Blaine, Camas, Cassia, Elmore, Gooding, Jerome,

Lincoln, Minidoka, Twin Falls and Washington counties. The remainder of Owyhee county will hunt sage grouse from Sept. 20 to Oct. 5, with a bag and possession limit of three and six birds, the same as last year.

Hungarian partridge and quail season in Kootenai county runs from Oct. 11-16, but in southwestern Idaho it runs from Sept. 20 to Dec. 31, along with the previously announced special early season in the Middle Fork of the Salmon River below Sulphur Creek, which was from Aug. 9 through Sept. 19th.

There will be an extended Hungarian partridge, quail and chukar season running from Sept. 20 to Jan. 25, 1970, in the Hells Canyon of the Snake River below Brownlee Dam, and in the Salmon River canyon, including Idaho, Valley and Lemhi counties.

The season for ruffed grouse is Sept. 20 through Nov. 30, statewide, with some exceptions. This means a two-week extension on forest grouse hunting, which keeps it open through most of the big game hunting season in the back country.

There will be a late season, Nov. 15-30, for forest grouse in Unit 11 (Craig Mountain) because of local considerations.

General season for wild Merriam's turkeys in Units 13, 14, 18 and 23

runs from Sept. 27 to Oct. 1, a three-day extension over last year. Pheasant season dates are (northern Idaho) Oct. 11-Nov. 16, and (southern Idaho) noon, Oct. 25. The season ends Nov. 23 in eastern Idaho and Dec. 7 in the southwestern counties.

Earliest Hunting Season

Idaho's earliest hunting season for elk and deer opens Saturday, Sept. 20, in a dozen Primitive Area management units in central and northern Idaho. Whatever the weather may be, extreme fire hazard conditions prevail statewide, and all hunters must be careful. Game tags, as usual, must be punched in two appropriate places designating the day and the month that the animal was killed. It must be attached securely to the carcass immediately.

Hunters also must report at any checking station enroute to and from hunting areas regardless of whether or not game or fish are possessed. They must produce licenses, tags and all game for inspection when requested by authorized representatives of the Fish and Game department.

He that would make his own liberty secure must guard even his enemy from oppression.— Thomas Paine

A minute spent now checking your vehicle inspection sticker and date of expiration of your driver's license may save you money, says the Idaho Department of Law Enforcement. Both expire in certain months and must be renewed or a citation and a trip to court may result.

WATCH THAT MUZZLE

Two safeguards above all are the key to happy hunting. These are (1) watch that muzzle, and (2) leave the safety catch on until ready to fire. Many gun accidents last year, both hunting and non-hunting, were caused through carelessness on these two points. This is evident from the fact that 56 percent of all accidents last year happened within a range of ten yards between shooter and vic-

tim. On the same point, 80 percent of all accident investigations showed that the shooter did not want the gun to discharge. One victim was hit by a ricochet bullet from his own gun. That was an accident. But what about four victims who stepped into the line of fire, ten who were mistaken for game? Last year's figures show that gun hunting accidents brought death to seven persons.

YOUR HIGHWAY TAXES AT WORK

The United States today has the world's most extensive network of improved roads and streets—over 500,000 miles within cities and 3.2 million miles of rural roadways. This accomplishment can be traced to two basic highway-user tax laws. The concept of taxing the highway user was introduced by New York State in 1901 with enactment of a law requiring yearly licensing of motor vehicles. Adopted as a regulatory measure, the annual vehicle licensing procedure was being used by all states by 1917 as a tax source for highway construction and maintenance.

In 1919, Oregon adopted a state gasoline tax as an added source of highway funds. By 1929, all states were taking advantage of this new means of raising highway revenues. In 1967, a record 15.1 billion dollars in Federal, state and local highway tax revenues was spent on the nation's roads and streets, according to the Federal Highway Administration. Over 82 percent of the total, or 12.4 billion dollars, came from State and Federal road-user taxes, mainly gasoline taxes and state vehicle licensing fees, but supplemented by special added Federal and State road-user taxes on some motor trucks.

The remainder—2.7 billion dollars, or less than 18 percent—came from general and property taxes, imposed mainly in cities and counties to supplement highway funds they receive from State and Federal road-user taxes. In Idaho no property taxes are levied for road purposes.

Some critics of State and Federal highway construction programs point to the general and property tax payments to the nation's yearly highway budget as a basis for a charge that the program is being "subsidized" and is not fully self-supporting from motorists' taxes. However, as documented by a U. S. Department of Commerce study of motorist and non-motorist tax obligations for highway costs, U. S. motorists actually overpay by a sub-

Need For Sleep Varies

No absolute time limits have been established for survival without sleep, water or food, observes the Idaho Medical Association. There are a number of variable factors. Survival would depend on the personality and physical health of the individual as well as the environment. The need for sleep is most difficult to define. Research has found several depths of unconsciousness. A difficulty in sleep research is that volunteers may use subterfuges to get a few sly winks. One subject has reportedly gone 11 days without sleep. Some people with insomnia claim they have gone for weeks without sleep. It is unlikely however, that there has not been some sleep during the period. It has been reported that one can survive approximately 72 hours without water. Temperature and humidity would be an important factor. A high temperature and low humidity, producing rapid water loss, would shorten the time and the absence of perspiration might prolong it. A person's size and his emotional reaction could make a considerable difference.

total highway costs. It has been pointed out many times that the Federal-aid highway program is not costing the General Fund of the United States Treasury a single cent. All Federal-aid highway funds come from special Federal taxes imposed on owners of automobiles, motor trucks and motor buses. The 1961 Highway Cost Allocation Study, made by the Commerce Department, concluded that 35 percent of total yearly road and street costs in the nation should be met through non-motorist taxes, to reflect costs of local roads and streets that provide no general traffic service and exist solely to give access to individual property, or that involve other special costs that cannot properly be charged to motorists as a class. The fact that only 18 percent of yearly highway funds come from general and property taxes, whereas the non-motorist tax obligation should be 35 percent of total highway costs, shows clearly that motorist taxes at both the Federal and the State-local level are providing much more than their proper share of highway costs. Therefore, no valid basis exists for charges that the nation's highways receive tax subsidies. A recent report to Congress, by the American Association of State Highway Officials on national highway needs for the period 1975-1985, disclosed that construction needs on all roads will total 285 billion dollars. On the basis of existing Federal, state and local highway tax rates, the actual funds available for construction during that decade will be less than half the estimated needs. It is evident then that many states will need to increase their road-user tax rates to overcome their most critical highway deficiencies. Yet other states will be forced to downgrade their highway maintenance programs or borrow money. A recent study of revenue needs made by the Idaho Department of Highways and submitted to Congress, along with similar studies by most other road agencies, showed the inventory of much needed improvements on Idaho state highways, county roads, and city streets amounted to 875 million dollars. Rather than downgrade highway maintenance or borrow money, the Idaho Department of Highways has proposed that, after the Interstate Highway System is completed in about 1975, the present Federal Aid program be retained so that the existing primary and secondary programs can be more than doubled in an effort to accomplish the many needed improvements on those systems in recognition of the Nation's and the State's pressing and rapidly expanding urban and rural transportation needs.

Always expect the unexpected where children are concerned, urges the Idaho State Police. Slow down, stay alert and be prepared to stop when driving near schools and playgrounds.

EDUCATING OUR FUTURE LEADERS

The first step on the moon was the achievement of many goals for many people. These goals, like others, are reached with the knowledge gained through education. Potlatch Forests, Inc., is deeply interested in the education of our future leaders.

PFI, through its Potlatch Forests Foundation, Inc., has put over one-half million dollars to work in schools and universities across the United States. This program, in effect since 1952, has provided

money in the form of scholarships and fellowship grants to more than 950 young scholars from areas in which PFI operates. Potlatch Forests Foundation, Inc., is dedicated to helping people reach goals through higher education.

Potlatch Forests, Inc., is proud to support a continuing program of assistance for educational activities that help people and communities move forward.

THE MAN I MIGHT HAVE BEEN
Last night the seeping wind through linden leaves
Brought back the little boy that once was me;
He came into my dream while I was sleeping
And took me back to days that used to be.

He came into my heart and made me wonder
As by-gone memories burned my soul within;
If I had clift his hopes—his dreams, asunder;
Or did he find—THE MAN I MIGHT HAVE BEEN?

PESTICIDES CAN BE POISON
Chicago — Terrible headaches may be caused by pesticides and not tensions, says a toxicity expert at the University of Chicago. He said that a group of chemicals, chlorinated hydrocarbons (including DDT), enter the body as residue on fruits and vegetables. Normally the concentration in the blood is far too low to cause alarm. But even at low levels they can affect the body. If a person is overweight and goes on a diet he may poison himself. Pesticides collect in body fat and if much body fat is lost through dieting or illness, they can rise to dangerous levels in the blood.

Home Cookin' ...

Canning is playing an important role in the housewife's routine these days, and the rich aroma of vinegar and spices are coming from many Genesee kitchens. With tomatoes and cucumbers so plentiful, this week's recipes came in about the right time, and all sound delicious especially the prize-winning tomato preserves. These recipes are from one of Genesee's good cooks, but we are withholding the name by request, but, are pleased to have a response from town. Please keep the recipes coming.

MIXED FRUIT PRESERVES

1/2 cup orange juice
1/4 cup lemon juice
1 cup coarsely chopped pears
1-3/4 oz. can crushed pineapple
1/2 cup drained marachino cherries (chopped)
5 cups sugar
1/2 cup liquid pectin
Mix first 7 ingredients in a heavy saucepan; let stand 1 hour. Bring to a full rolling boil and boil 1 min. Remove from heat and stir in pectin. Stir for 5 minutes. Ladle into jars and seal. Makes 8-8-oz. jars.

TOMATO PRESERVES

This recipe won first prize at the State Fair in Seattle a few years ago and is very good.
3 dozen medium size tomatoes, peeled
1 lemon, 2 oranges, sliced paper thin, including rind
Add sugar to equal weight of tomatoes. Mix well and let stand overnight. Cook all until tomatoes are tender. Remove tomatoes and boil down syrup until thick. Add tomatoes and again let stand overnight. Seal in hot jars without heating.

CARROT PICKLES

10 medium cucumbers
6 red peppers
6 green peppers
6 medium sized carrots
Cut cucumbers in strips (either peeled or unpeeled, optional)
Cover with salt brine
1/2 cup salt to 1 quart water. Let stand overnight. Rinse and drain. Cut all ingredients into strips and all ingredients to following syrup.
6 cups sugar
3 Tbl. celery seed
3 Tbl. mustard seed
2 tsp. turmeric
4 cups vinegar
1 Tbl. salt
Bring to a boil
Seal in hot jars.

BILLBOARD INVENTORY

The Idaho Department of Highways is currently updating its inventory of all outdoor advertising signs in the state in compliance with the Gem State's highway beautification code, according to Roy Jump, State Maintenance Engineer.

The updated inventory will include information such as: sign owner, advertiser, property owner, as well as distance from the right of way, size, and whether or not it conforms to the Department of Highway standards as set forth by Federal and State legislation.

The 1966 estimate of outdoor advertising signs in Idaho was 11,000. Of this number it is estimated that 8000 do not conform to the established standards.

The law states that all persons engaged in the commercial out-door advertising business in Idaho must obtain a license from the Highway Department. A separate permit must also be obtained for each advertising display the company maintains in the control zone which is within 660 feet of the highway right of way, and the text of which is visible from any highway right of way, and the text of which is visible from any highway included in the Interstate and Primary system.

Directional and other official signs and notices erected and maintained by public officers; signs and displays advertising the sale and lease of property upon which they are located; and structures, signs, and displays advertising activities conducted on the property in which they are located, are exempt from Federal and State laws governing outdoor advertising displays.

Nonconforming advertising displays may be maintained in existence until July 1, 1970, unless removed prior to that date by order of the Highway Department.

Jump points out that at present the Highway Department is obligated to pay just compensation for each sign taken by sign basis as Federal monies become available.

Both Federal and State officials are studying various plans which would permit negotiations on a company level for the removal of all signs with just compensation. If this alternative was agreed upon, it first would have to be sanctioned on the Federal level before the states could pursue this course.

The Idaho Department of Highways will continue to issue permits as required by law. All existing conforming signs without a permit are illegal and subject to court action and subsequent removal.

For milepost maps to aid in locating displays on the state highway system, copies of rules and regulations, or help in filling out the license and permit forms, all sign owners are invited to visit the nearest highway district office at Coeur d'Alene, Lewiston, Boise, Pocatello, or Rigby -- or write to Idaho Department of Highways, P. O. Box 7129, Boise, Idaho 83707.

The Idaho State Police stresses the importance of parents teaching their children to obey all traffic officers, patrol units and traffic signs and signals and to cross streets only at intersections.

Give young bike riders every break urges the Idaho State Police. Remember, children are unpredictable and you must think for them in traffic.

JUNKYARD SURVEY INDICATES SOME DEALERS NOT LICENSED

The Idaho Department of Highways has issued legal notices to auto wrecking (junkyard) firms of record, insisting that they comply immediately with the State's licensing laws or face court action, according to Roy Jump, Highway Maintenance Engineer. Notices were mailed to operators in early July giving them 20 days to comply.

The latest inventory indicates there are 106 junkyards in the State. Of this number 71 are licensed, 2 dealers have established intent to purchase a license, and 25 have been cleaned up since the Idaho Beautification Act was passed in 1967. There are seven operators who have not complied with the law.

A junkyard is defined as a place of business which is used for storing, buying or selling junk, or for the operation of the nearest edge of the right of way on the Interstate and Primary systems within the State a license must be obtained. A fee of \$25.00 shall be charged for each original license and license renewal.

Licenses will be granted for the operation of junkyards which meet the following requirements:

1. Those junkyards which are screened by natural objects, plantings, fences, etc., so as to render them invisible from the highway.

2. Junkyards located within areas which are zoned for industrial use or unzoned industrial areas as determined by the Board of Directors.

3. Junkyards which are not visible from the main travelway of the highway.

4. Junkyards which are to be screened by the Highway Department.

5. Junkyards which are to be removed or disposed of by the Department of Highways as provided for in this act.

Jump says this regulation also applies to dumps. For purposes of the law a dump is defined as any place or area not operated as a business, where junk including dismantled or wrecked automobiles is deposited. A fee of \$15.00 annually shall be charged for each permit and renewal.

Any dump located within 1000 feet of the highway right of way on the State highway system and visible from the main traveled way of the highways, and on located within an industrial area, zoned or unzoned, shall be screened by the owner of the land by natural plantings, fences to render the junk material invisible from the traveled way of the highway or remove and dispose of the junk material.

Jump also stated that all persons operating a dump shall submit a plan for screening the dump together with an application before a dump permit can be issued.

For complete information and assistance in securing a dump permit all owners are invited to visit their nearest highway district office in Coeur d'Alene, Lewiston, Boise, Shoshone, Pocatello, or Rigby

Mallet Appointed Supervisor

Jerry Mallet, Panhandle Region fishery biologist at Coeur d'Alene for the past seven years, has been promoted to the position of anadromous fishery supervisor with statewide responsibilities. He will be based in Boise.

New license plate stickers under the "staggered system" will be available after Oct. 1, advises the Motor Vehicle Division. Vehicle owners must present valid 1969 vehicle registrations to obtain new stickers, and title numbers must be included.

PLAY AT PULLMAN

U. of I., Moscow — It's official now — the neighborly spirit has prevailed for the University of Idaho and Washington State University, cross-state rivals since 1893. Idaho will play its three home football games on Washington's Rogers Field. Regents of the University of Idaho approved the leasing of the WSU stadium at their Boise meeting last week, President Ernest W. Hartung of the university said. The action followed last month's condemnation of Idaho's Neale stadium, when a survey by engineering consultants found the 37-year-old frame facility unsafe.

"We are appreciative of the fine spirit of cooperation shown by the Washington State University in this emergency situation," said President Hartung. "We would be without home game facilities this season if it were not for our good neighbors."

A new stadium is proposed as part of an athletic complex to be financed at the university by student fees.

Under the rental agreement for Idaho's 1969 home games on Rogers Field, Pullman, Washington State students will be admitted to the contests at \$1.00 per game.

The University of Idaho games to be played on the W. S. U. gridiron are:

- Idaho State — September 27.
- Montana State — October 25.
- Utah State — November 22.

CARD OF THANKS

Words cannot adequately express our deep and sincere appreciation for the many kindnesses extended to us during our recent bereavement. The flowers, cards, letters, food, memorials and other thoughtful acts of friends and neighbors will never be forgotten. A special thank you to the ladies of the ALCW of St. John's for preparing and serving dinner, and to the Genesee ambulance drivers who responded so promptly when we called.

Lars and Lee Liberg

CARD OF THANKS

A sincere thank you to friends and neighbors who remembered me with flowers, gifts, visits and made inquiries while I was in the hospital and since returning home. A special thanks to Mrs. Ella Schooler for taking me to the hospital and bringing me home. God Bless You All.

HANDICAPPED DRIVE BETTER

Chicago — Handicapped drivers may turn out to be better drivers than most. A study of more than 150 amputees and paralytics who learned to operate a car again in a unique program started in 1967 at the University of Michigan, indicates they tend to drive better than normal drivers. Probably the reasons, researchers conclude, are that handicapped people are more aware of

their limitations and don't take as many chances with their automobile. Most of the retrained drivers have passed their licensing tests, which are the same for them as anyone else.

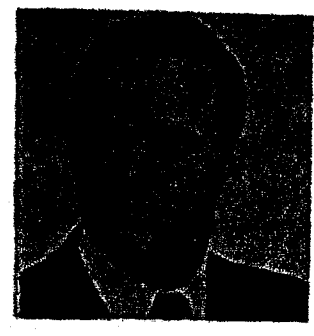

"All you need to drive are two limbs, the right equipment, and the will to learn," says a program instructor.

Mosquitoes Play Favorites

It is true, mosquitoes do play favorites among the people they bite, reports the Idaho Medical Association.

The most likely target for a mosquito is a person who has a dark complexion, is in good health, perspires moderately, and is highly active.

A lot of perfume, cologne, or after-shave lotion is attractive to mosquitoes.

They also seem to have a taste for persons with warm skin temperatures.

Recent research indicates that mosquitoes are attracted by clothing that is black, dark blue or dark red. They shun white, yellow and light green.

To reduce your attractiveness to mosquitoes, dress in light-colored clothing, cut down strenuous activity and take it easy on perfumes and after-shave lotions.

Most household mosquitoes travel no more than two or three city blocks during their lifetime. If you can eliminate pools of stagnant water in your area, you will eliminate the breeding grounds of the mosquitoes that are bothering you.

LOSE 10 LBS. IN 10 DAYS ON GRAPEFRUIT DIET

DIET OF THE STARS
HOLLYWOOD, CALIF. (Special) — This is the revolutionary grapefruit diet that everyone is suddenly talking about. Thousands of copies have been passed from hand to hand in factories, plants and offices throughout the U. S.

Because this diet really works. We have testimonials reporting on its success. If you follow it exactly, you should lose 10 pounds in 10 days. No weight loss in the first four days but you will suddenly drop 8 pounds on the 5th day. Thereafter lose one pound a day until the 10th day. Then you will lose 1½ pounds every two days until you get down to your proper weight. Best of all, there will be no hunger pangs. Revised and enlarged this diet lets you stuff yourself with formerly "forbidden" foods such as steaks trimmed with fat, roast or gried chicken, gravies, mayonnaise, lobster swimming in butter, bacon fats, sausage and scrambled eggs and still lose weight. The secret behind this "quick weight loss" diet is simple. Fat does not form fat. And the grapefruit juice in this diet acts as a catalyst (the "trigger"), to start the fat burning process. You stuff yourself on the permitted foods listed in the diet plan, and still lose unsightly fat and excess body fluids. A copy of this startling successful diet can be obtained by sending \$2 to

MOVIELAND DIET PLAN
1417 S. Robertson
Suite 8
L. A. Calif. 90035

Money-back guarantee. If, after trying the diet you have not lost 7 pounds in the first seven days, and another 6 pounds in the next 7 days, and 1½ pounds every two days thereafter, simply return the diet plan and your \$2 will be refunded promptly and without argument. Tear out this message as a reminder, enclose noDw to regain the trim attractive figure of your youth. pd.

We wish to express our sincere thanks to all of you for the generous memorials, cards, prayers, and many acts of kindness in the loss of our loved one. Your expressions of love have overwhelmed us and we find it difficult to find words to tell you our appreciation. A special thank you to the A. L. C. W. for the delicious lunch served following the funeral, and to School Dist. No. 283 for closing school during the service. — The Family of Douglas Christensen. 1-tpd

THANK YOU

I would like to thank my friends and neighbors for their cards, flowers, visits and other kind and very thoughtful acts shown me while I was in the hospital and since returning home. All of this meant so much and will always be appreciated. — Mary Lou Brown. 1-38pd

THANK YOU

Hunters — let us cut, wrap and prepare your kill for the locker. Blewett's, Kendrick. adv

A man lived by the side of the road and sold hot dogs. He was hard of hearing so he had no radio. He had trouble with his eyes so he read no newspapers. But he sold good hot dogs.

He put up a sign on the highway telling how good they were. He stood by the side of the road and cried: "Buy a hot dog, Mister." And people bought.

He increased his meat and roll orders. He bought a bigger stove to take care of his trade. He got his son home from college to help him.

But then something happened. . . His son said: "Father, haven't you been listening to the radio? Some people say we are heading for a decline in business. There may be a big recession coming in. You had better prepare for poor trade."

Whereupon the father thought: "Well my son has been to college. He reads the papers and he listens to the radio, he ought to know. So the father cut down on his meat and roll orders.

He took down his advertising signs. And no longer bothered to stand on the highway to sell hot dogs. And his hot dog sales fell almost overnight.

"You're right, son," the father said to the boy. "We are certainly headed for a recession."

A Friendly Reminder

IDAHO STATE LAW REQUIRES VEHICLES BE GIVEN A SAFETY INSPECTION EACH YEAR

The Idaho Vehicle Safety Inspection Law which went into effect last year is a continuing thing. The law requires that almost all vehicles be given this check for brakes, muffler, etc., each year. So, if you had your vehicle checked last year during the summer it is probably due for another check and a new windshield sticker.

We Are A Certified Safety Inspection Station

These nights and early mornings are beginning to show a nip in the air. If you are starting to think about fuel oil, remember, we are your supplier for quality Standard products. Give us a call.
