Apparently she waded out too far and was caught by the swift current that pulled her further out and down the river. Tom, who was nearby but did not see the child wade out in the river, said he heard a small cry and went to investigate. When he saw Cindy's plight he went to her resuce without hesitation. When he reached his sister the water was already over her head and above his waist. Tom managed to resist the current and struggle back to shore.

Mrs. Perkins said later that Cindy survived the ordeal with only a bad
