Red Cross Pharmacy Robbed Of Drugs

Burglars pried open the front door of the Red Cross Pharmacy in Kendrick Sunday night or early Monday morning and stole a large quantity of narcotics and other dangerous drugs. The thieves also broke into Dr. D. A. Christensen's office in the next building but could find only a small amount of goods. Apparently the burglars were after only narcotics as little else was taken from either place.

The break-in was discovered by Dave Clayton, manager of the Pharmacy about 7:45 Monday morning when he came down town to open for business. He said later that he had been down to the store at approximately 6:00 p. m. Sunday evening to fill a prescription so the robbery occurred between that time and the time he opened on Monday.

"Whoever was here knew just as much about drugs as I do," said Clayton after inventorying the loss. He said just about every drug or narcotic which had a value on the illicit market had been taken. To do this the thieves had scanned the shelves where the drugs were located among other prescription items and selected only certain products.

Entry into the doctor's office was made by a rear door in the back of the drug store.

Latah Deputy Sheriff Ed. Pierson investigated the burglary.

Mark Heimgartner At Oklahoma Air Base

San Antonio, Tex. — Airman Mark R. Heimgartner, son of Mr. and Mrs. Floyd K. Heimgartner of Rt. 1, Juliaetta, has received his first U. S. Air Force duty assignment after completing basic training at Lackland AFB, Texas. The Airman has been assigned to a unit of the Air Force Communications Service at Altus AFB, Okla., for training and duty in the civil engineering mechanical and electrical field.

Airman Heimgartner, a 1969 graduate of Kendrick High School attended Lewis-Clark Normal School at Lewiston, Idaho.

Kendrick FFA Team High At Moscow Contest

Saturday the Kendrick FFA Chapter attended the North Idaho District Dairy Cattle and Dairy Products contests at Moscow.

Kendrick won first in Dairy Cattle. The team consisted of Don Parks, second high individual; Nick Armistage, third high individual and Rick Benjamin, fifth high individual.

Kendrick also took first place in Dairy Products. This team consisted of David Wilken, first high individual; Jim Souders, second high individual and Steve Rishling was the fourth high individual and Don Parks was fifth high individual.

Kendrick also received the District Sweepstakes trophy for the second year. This trophy is for the chapter with the lowest number of points gained from all the contests throughout the year.

Flintstone Rock Club To Meet Thursday

Members of the Flintstone Rock Club will hold their last meeting before adjourning for the summer this Thursday evening, May 6th, at 7:30 in the Kendrick Fire Hall.

Members who are planning on joining in the Wallace area mine tour are asked to indicate this at the meeting.

Of special interest to both Club members and the public will be a talk and discussion of the new and proposed rules and regulations governing the digging of garnets at Emerald Creek. District Ranger Ted Rieger and Forest Hayes, acting Kendrick District Ranger will be at the meeting to talk and then be available for a question and answer period.

Commencement Speaker

Dr. Dwight J. Ingle of Chicago, will be giving the Commencement address May 16th at the Kendrick High School. He will be remembered by many in this area, as he grew up on Big Bear Ridge, and graduated from Kendrick High School in 1925.

An Open House honoring Dr. Ingle will be held in the Kendrick Fire Hall, Sunday, May 16th, from 1:30 to 4:00 p. m.

FEVER
People with a slight fever should remain in bed, drink plenty of fluid and eat nutritious, easily digested food. Aspirin and cold-packs can help.

If the fever is high, or if it persists, a serious disease may be present, and physician should be consulted.

Denise Brammer Is Kendrick Jr. Miss

Denise Brammer, 17, won the title of Kendrick Junior Miss of 1971 Saturday night in pageant competition at the Kendrick High School gymnasium.

Miss Brammer, daughter of Mr. and Mrs. Werner Brammer, will reign over Locust Blossom festivities May 29 and represent Kendrick throughout the upcoming year. She is active in Pep Club and K-Club and is a member of the Honor Society, Student Council, and girls basketball team. Miss Brammer is also vice-president of FHA, band president, editor of the annual and a cheerleader.

Named princesses to complete the 1971 royalty were Nori Fry, 17, the daughter of Mr. and Mrs. Boyd Buyers, and Debbie Dammarell, 17, the daughter of Mr. and Mrs. Max Dammarell of Walla Walla.

The Youth Fitness Award was won by Miss Brammer and Miss Fry was recipient of the creative and performing arts award.

Betty Farrington, daughter of Mr. and Mrs. E. L. Farrington, Juliaetta, received the poise and appearance award; Sandra Souders, daughter of Mr. and Mrs. Marion Souders, of Southwick, was presented an award for scholastic achievement.

A crowd estimated at 250 was on hand Saturday night to enjoy the proceedings staged by the girls of the junior class under the direction of 1970 Jr. Miss LeAnn Rogers and her princesses Debbie Weyen and Cynthia Osborn and the sponsorship of the Kendrick Lions Club. All should be complimented on a job very well done.

Tax Reductions Available For Those Over 65 Years

The time is now for people who are over 65 years of age; who have been taxpayers in Idaho for ten years; whose house is not worth more than \$15,000; whose total income is not more than \$4,800.00; and who has been a resident of Idaho since January 1 of this year—to sign up for a reduction in their income taxes not to exceed \$75.00 returns Eugene Taylor, Latah County Assessor.

You may sign up at the Assessor's Office or at the City Hall in Juliaetta Saturday morning, May 8th, or at the Country Kitchen Saturday afternoon May 8th between 1:30 and 4:30 p. m.

"Clean-Up" Week In Kendrick May 10 to 14

The City of Kendrick will begin cleaning up for the Annual Locust Blossom Festival by having a clean-up week from May 10 to 14, it was announced by City Marshall Buz Nye.

The City will be picking up boxed or packaged garbage and trash each day next week if residents will leave it out at the curbs.

Seniors Honored At Dinner Sunday Evening

Seniors, parents and friends went on a guided tour of Japan, Sunday evening at the Kendrick Methodist Church dinner. Mr. and Mrs. Geo. Merrick described their trip to Japan with movies to illustrate, and Debbie Johnson, assisted by Lester Crocker with a slide projector, gave highlights of her Japanese tour.

This travelogue was embellished by vocal and guitar music by Dennis Abrams, and a Chopstick piano duet by Marilyn and Becky Eichner.

Several ballads were sung to the seniors by everyone, and John Hunsberger, student minister, opened and closed the program with appropriate inspirational readings. Ray Heimgartner, Class President, responded with a "thank you" to the hostesses.

Mrs. Bob Magnuson was in charge of the program and decorating, assisted by Mrs. Howard Hoffman, song leader, and Jerry Brown and Roy Ramey, background music.

Decorations were furnished and arranged by Sharon Hunsberger, Mary Zaccanti and Dolores Wallace, assisted by Jan and Julie Deobald, Gisele Magnuson and Debby Kelley. The Kendrick Garden Club floral arrangements were used to enhance the authentic Japanese look, and several Japanese foods were used on the menu. Mrs. George F. Brocke, Jr., and the Doug. Harrises welcomed the guests as they arrived.

The Women's Society of Christian Service thanks all those who helped to make this a festive occasion, honoring the Seniors.

Flower containers may be picked up at Mrs. Magnuson's home.

Voters Asked To Approve 3 Mill Levy For School Needs At May 10 Election

Trustees, administrators, teachers and students are hopeful that the qualified electors in School District 283 will pass the 3-mill maintenance and operation levy at the polls on Monday, May 10, for the sake of the school and to enable the district to hold the line relative to receipts and expenditures for 1971-72.

The facts are that last year's budget estimated revenues in the General Fund totaled \$253,139.00. This year's estimate for 1971-72 shows a possible \$246,860.25. This is a drop of \$6,278.75. Total estimated revenue losses are as follows: elementary tuition, \$600.00; secondary tuition, \$2,500.00; additional county school funds \$3,200.00 vocational education, \$1,500.00; forest funds, \$2,000.00; one mill levy above 30 mills, \$2,881.65; and students are hopeful that the qualified electors in School District 283 will pass the 3-mill maintenance and operation levy at the polls on Monday, May 10, for the sake of the school and to enable the district to hold the line relative to receipts and expenditures for 1971-72.

Total General Fund budget estimates for this year were \$253,139.00, while for 1971-72 the total is \$246,462.43. This means we have cut the budget to the bone and have \$6,676.57 less money for books, supplies, maintenance, salaries. Add the loss in receipts and drop in money available for expenditures and it shows a total loss of \$12,955.32. A 3-mill levy will only bring in an additional \$8,752.98. You can see even with the passage of the levy that we are slipping backward and that it will be difficult to hold the line.

The main purpose of the passage of the 3-mills above the regular 30 is to help eliminate \$40,000 in tax anticipation notes. The district has to borrow this amount from the bank at intervals to even keep the school doors open. This isn't good and something must be done to get the district on a better financial footing. Certainly no one is to blame for this type of operation. District 283 has had an excellent Board of Education over the years and two previous first-rate administrators. The money just hasn't been provided by the legislature and the Federal government. When this situation occurs there's no place to go for money but to the people.

Kendrick and Juliaetta schools are truly the center of both communities and your youth are your greatest natural resource. We'd like to keep it this way.

If we can't get the needed revenue to keep open, then a reduction in staff and curriculum is absolutely necessary for 1972-73. The schools are in great need and peril. The wolf isn't just at the door. He's in the house!

A fine staff has been assembled in the District. We hope to also make a few minor adjustments in the salary schedule; so that we can keep these fine young people.

We must face the issue squarely. You can't take one step backward in the development of these young people. If so, they are dead in the great race of life.

Our dynamic school must be preserved. It can't become static.

Don A. Blakeley,
Supt. of Schools

Truck Driver Rules Irk Area Farmers

The possibility that the Department of Transportation, Bureau of Motor Carrier Safety, will insist the newly passed rules governing the age qualifications of farm truck drivers be observed is causing worry and concern to area growers. Rules set up by this agency call for a minimum driver age of 21 years on all farm trucks moving across state lines. In addition, it is necessary for drivers to have ON THEIR PERSONS records of physical examination the same as a teamster driver of the common carriers.

This rule applies to all farm trucks crossing state lines with loaded weights (vehicle and load) over 10,000 pounds.

Should this new restriction be implemented and closely defined, it would eliminate or prohibit the use of young people as truck drivers during harvest time. A situation which would prove to be an unbearable burden on farmers, most of whom use young sons, daughters and high-school-age truck drivers during harvest.

Civic groups, farm organizations and private individuals are all urging that concerned people write to their congressmen protesting these new rulings.

Harris, Parsley File Trustee Petitions

Petitions for Douglas Harris, Zone 3 and Jack Parsley, Zone 4, have been filed with the Clerk's office for the School Trustee election on May 25th.

To date these are the only petitions on file. According to State Law all petitions must be filed not less than eighteen days prior to the day of the election. This means that that May 7 is the deadline for candidates to file in District 283.

Voting eligibility in the Trustee election is as follows: Must be 21 years of age; a resident of the state 6 months; live in the nominee trustee zone 30 days and a US citizen.

The polls will be open from 1:00 p. m. to 7:00 p. m. and voting will be at Kendrick High School May 25.

Mrs. George F. Brocke, Jr., and the Doug. Harrises welcomed the guests as they arrived.

The Women's Society of Christian Service thanks all those who helped to make this a festive occasion, honoring the Seniors.

"Color Me Raindrops" Is Garden Club Theme

"Color Me Raindrops" — April meeting of the Hill and Valley Garden Club was held on Wednesday the 28th at the Kendrick Fire Hall, with 23 members and several guests present for the workshop meeting.

Business session was held in the morning with committee chairmen giving reports during roll call. Mrs. Ted Weyen gave tips on commercial fertilizers and their use. She had a most informative exhibit on the subject. Members voted their support to help sponsor a Comprehensive Plan of the Kendrick Community — a student project of the University of Idaho under the direction of Prof. Walter Ashland, landscape architect.

A pot-luck dinner was enjoyed at noon, topped off with a delightful dessert served by hostesses Mrs. Edie Galloway, Mrs. Oscar Blind, Mr. Johanna Nelson and Mrs. Otto Schuppert. A plant sale was held and a storage cabinet planned during the intermission.

Mrs. Stanley Hepler then showed a series of slides of Japanese flower arrangements of the ancient designs to the most modern. She gave a brief demonstration on the "moribana" type of arrangement and club members followed instructions in a workshop session. Many of the arrangements were "borrowed" for the senior dinner Sunday evening at the Methodist Church.

Monday afternoon, April 26, seven ladies toured the Kaylor Nursery at Peck and bought a number of plants. Mr. Kaylor presented the club with a chestnut tree for a park planting. These ladies then proceeded to the river to gather rocks to be used for the landscaping at the local bank—another club project nearly completed.

A parks cleanup day is scheduled for May 11 at 9:00 a. m. Meet at the Mini-Park in work clothes.

A schedule for the Locust Blossom Day Flower Display will be published in another section.

Lions Club Met

The Kendrick Community Lions Club met Wednesday evening of last week at the Kendrick Fire Hall, with a delicious steak dinner being served by the Kendrick Grange Women at 6:45.

Attendance was very poor, due to conflicting meetings and business. As a result, election of officers was postponed until the first meeting this month, when it is hoped there will be a goodly attendance.

Business of the evening was a brief discussion of the coming Locust Blossom Festival, May 29th, and a brief review of advertising needs for the Festival and for the Miss Kendrick Pageant.

Three visitors were present from the Troy Lions Club — and sold tickets for their Spring Valley Fish Derby. They were in turn "rewarded with the opportunity" to purchase buttons for the Annual Locust Blossom Festival — as they went on sale that night!

There being no further business, Doug. Harris, president, adjourned the meeting.

Little Leaguers Active

The Little League members and coaches would like to express their appreciation and gratitude to all of the people who donated time and money, and to all those who attended the breakfast April 25th at Juliaetta. The total net profit was \$250.20, some of which has already been used to purchase another set of helmets, two counters and three dozen baseballs.

Last week's games were a good sample of how close the ball games have been:

April 27 —
Delinquents 13; Rebels 12
Pirates 4; Yankees 11.

April 29 —
Delinquents 5; Pirates 6.
Yankees 9; Rebels 9.

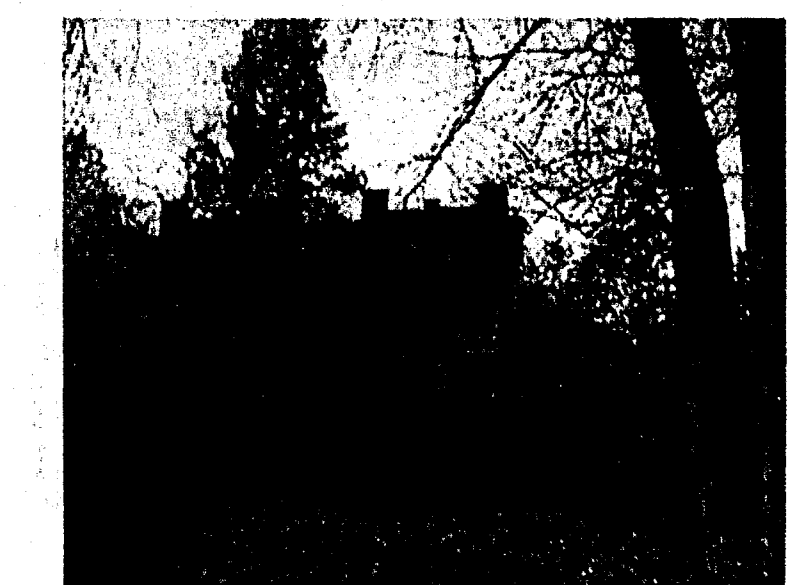

League Standings —

Delinquents	3.....0
Rebels	2.....1
Yankees	1.....2
Pirates	1.....3

This week's schedule will be played on Tuesday at Kendrick, 3:30, and Thursday at Juliaetta 3:30 p. m.

Juliaetta's 'Adam's Castle' Being Converted Into Museum

Juliaetta's famed "Adam's Castle", a topic of lore and legend for almost seventy years is now in the process of being converted into a museum by two Juliaetta couples who have the desire to see the landmark saved from a decaying fate and restored to some of its former charm.

Mr. and Mrs. Onal Cope and Mr. and Mrs. Charles Noble purchased the house and land from Aben Adams, the son of A. A. Adams, who built the house shortly after the turn of the century. The two couples bought the property in November of 1970 and since that time have been cleaning and restoring it as

much as they could in their spare time.

They have also been collecting and borrowing antiques from interested friends and neighbors to display in the house. After months of hard work and effort, the Copes and Nobles are beginning to see results and hope to have the museum open to the public by Memorial Day weekend.

The twelve room house was built by Abraham Adams sometime between 1900 and 1910, the exact date is not known by the new owners. It was constructed of concrete blocks and the outside bears a resemblance to the ancient Scottish castles. The interior was ornately decorated with pressed-designed metal ceilings, an impressive staircase and solid concrete walls. Time and the rough hands of people who did not care have marred the inside, but the patient efforts of the new owners are gradually bringing back some of the original charm of the house.

Many items of interest are already on display in the "Castle" and the Copes and Nobles have hope of securing many more items which will reflect the customs and traditions

Deary Rebekahs Met

The Morning Star Rebekah Lodge No. 68 met Wednesday evening, April 21, in Deary. An official session was held with four members present from the Bovill Lodge.

Mrs. Roy (Francis) Thomas, District Deputy President of Dist. 14 from Bovill gave a very good talk and presented the Secret Work to the members. Mrs. Thomas was presented with a gift from Mrs. Russel (Margetta) Foster, Noble Grand of Deary. Mrs. Joe (Verbu) Evans, Bovill's Noble Grand, was introduced to the group.

All were pleased to have a new member, Mrs. Jerald Patterson of the Deary lodge, present.

After the meeting all were entertained with accordion music presented by Mrs. Frank Jensen of Bovill and Mrs. Hank Jensen of Deary.

Guests present were Mrs. Frank Jensen and Mrs. Allen Zagelow, a daughter of Mrs. Frank Jensen, from Bovill.

Twin City Pals

Members of the Twin City Pals met with Mrs. George F. Brocke, Sr., Wednesday, April 28. A number of letters were read and plans made to visit the Paradise Villa Nursing Home in Moscow on May 25. The Club will present bibs and donations for Arts and Crafts projects and also entertain with a song for patients having birthdays in May.

The next meeting will be held on Tuesday, May 11, at the home of Mrs. Floyd Miller in Juliaetta. Roll call will be an exchange of diet recipes.

Bass Vie With Trout To Win Angler Favor In Many Idaho Waters

By Jim Humbird
Idaho Fish-Game Department

What's the gamest, fightingest fish of all in Idaho? It's pretty much fisherman's choice, ranging from rainbow trout to sea-run steelhead to massive Kamloops rainbow trout, or even mackinaw at scenic Priest Lake. Cutthroat and brown trout are popular species

and chinook salmon have a kind of magic that mesmerizes anglers into believing that they must catch one at all cost.

Other fishermen go for sturgeon, even on a catch-and-release basis while some fish for coho salmon, kokanee or blueback, greyling, channel and flat-head catfish, brown bullheads, yellow perch, crappie and other warm water species. Still others fish for black bass both the largemouth and smallmouth. So widespread is their habitat and liberal the regulations that they can be found somewhere throughout the year. Invertebrate bass fishermen will not switch to other kinds of angling no matter what season of the year it may be.

They say that ounce for ounce, pound for pound, black bass are the gamest fish that swims. The largemouth bass is not rated as gamey by most anglers as its close relatives, the smallmouth. It hits a lure hard and put up a good fight. However, the duration of the struggle is less than that of the smallmouth. The endurance of the largemouth probably is less because it lives in more sluggish waters.

The basses are introduced species of fish. The first record of largemouth introduction into Idaho was in 1887 when William H. Ridenbaugh of Boise received 50 6-inch fish, which were retained in a small pond. In 1892 he released 2,224 bass from his pond and the U. S. Fish Commission species spread into the sloughs of the lower

river and eventually spread over the entire state.

The range of the small mouth bass in Idaho is limited. According to James C. Simpson, chief of the fisheries division, this species migrated up the Snake River from Washington and found suitable habitat in the lower Clearwater above Lewiston and in the Snake River from Weiser to Swan Falls, and also in the lower Boise and Payetta rivers.

Simpson says that to the casual observer the small mouth bass looks very similar to the largemouth bass. However, upon examination, they can be distinguished by the shorter upper jawbone or maxillary of the small mouth which extends to, but not beyond, the center of the pupil of the eye; while the largemouth, it extends back of the eye. In the smallmouth, the small scales across the cheek number from 15 to 18 in a row, while in a largemouth the number is 10 or 11. The outline of the dorsal fin which is an erect position is only slightly depressed in the center. In the largemouth, the depression between the spiny and soft dorsal is cut so deep that it almost divides the dorsal into two fins.

The preferred habitat of smallmouth bass is cool flowing streams and large clear lakes. In streams they seek out protective cover such as the backwaters of large boulders, stumps, rock ledges and other hiding places from which they can dart out with small effort to catch their prey and chase off intruders. Largemouth, on the other hand, prefer the quiet waters of lakes, sloughs and reservoirs. They hit hard and fight valiantly enough to hold the interest of beginner and veteran alike. Their best scrap often is made in shallow water, where they feed. They devour minnows, hellgramites, frogs, bugs, mice, crayfish and a wide assortment of creatures that creep crawl, fly or swim. It is not uncommon to hear about bass gulping ducklings out of the water, not to mention squirrels, snakes, birds and the like.

The color of smallmouth usually is greenish-bronze to black on the back and sides, with the belly grayish-white. Like other species however, the color of bass varies in different waters. The young have dusky spots on the sides which generally have the appearance of forming dark vertical bars. But they never show the dark longitudinal streak that is characteristic of the young of largemouth.

Largemouth bass are olive green above with whitish underparts. There is usually a dark lateral band on the sides which covers three or four rows of scales. This species can be distinguished from smallmouth by the angle of the jaw. In largemouth, the maxillary bone extends to or beyond the middle of the eye. The largemouth differs from smallmouth in the absence of vertical bars and dark mottlings on the sides.

Largemouth bass are the most popular of the spiny-ray fishes with fishermen, according to Simpson. However, due to the greater abundance of perch, crappie, and brown bullheads, probably more of these species are caught. There is no bag or possession limit on any of these game fish species. They are distributed throughout lowland regions of the state, are fun and easy to catch and good to eat.

Smallmouth rejoice in brisk current, in clear cool water, shunning weed beds. They choose places where high banks of rock drop steeply into the water and continue to a great depth below. Bass seem to move slowly along such banks, back and forth more or less aimlessly. Sometimes a shoal, rock or rubble will be found at the end of such a place. Bass can be found feeding there. If there is a strong stream flowing into the lake or a current passing through it, fishing generally is better at the upper end. Bass do not leap in the course of surface feeding. They seize their prey in a fat swirl that as a rule is without much sound.

Both species of black bass can be caught in many waters of the state in April when the adults move into shallow areas to spawn. That is nearly 2 months ahead of the general trout season. Early spring bass fishing calls for plugs fished near the surface and such things as black eels fashioned from pork rinds. Surface plugs work best during the warm months to come. Bass sometimes take wet flies.

Whatever the season, a hooked bass is plucky, game, brave and unyielding to food fish as well as sport fish. The last. Moreover, they are excellent

PARENTS WEEKEND AT U. of I.

"Let's Get Together," is the theme and emphasis of Parents Weekend, Friday-Sunday, May 7-9, at the U. of Idaho.

The three-day event will involve students and their parents in a variety of activities, including popular functions from past years as well as several new ones, according to Gordon L. Bennett, Gooding, and Sue E. Hammar, Lewiston, co-chairmen of the committee planning the weekend.

Highlight of the weekend will be the student-parent brunch on Saturday during which the new University of Idaho Parents Association will be officially launched with an address by Dr. Ernest W. Hartung, president of the university, and the traditional Father and Mother-of-the-year awards will be presented. Other events include the opera "La Boheme," art shows, student-parent contests, model lectures by professors in various departments, tours and open houses of the university's academic and living units, the annual Mortar Board awards festival and the Miss U. of I. Pageant.

As a special service to parents, the university will supplement available accommodations in the Moscow area by providing a dormitory for parent's use. Reservations must be made through the Housing Office, Wallace Complex, no later than Friday, April 30.

Community Fallout Shelter Plans Available

Maps and brochures indicating the location of Community fallout shelters and emergency procedures will be distributed to residents of Latah County during the month of May.

Latah County Civil Defense director, Jim Armitage reports the "Community Shelter Plans" will be distributed by Boy Scouts throughout the communities of Latah county May 17th through the 21st.

The Moscow JayCees under the supervision of Burt Anderson will work with Boy Scout troops in the county to deliver the plans in the cities. Rural residents will receive the plans by mail through the efforts of Elvin Lindsey, director of the Latah County office of Agriculture Stabilization and Conservation. The mailing should take place during the first week in May.

Armitage said the "Community Shelter Plans" should be received by every family in the county. It should be read and saved, Armitage said. And if anyone has not received a copy of the "Community Shelter Plans" by June 1 they should contact Armitage at the civil defense office in the Latah County courthouse.

The plan lists the various shelters in Latah County, which shelters residents should use in an emergency and emergency procedures.

NEW 2-ROW SPRING BARLEY RELEASED

Vanguard is the name given to a newly released two-row spring barley. It is being recommended as a replacement for the variety Prolene and is especially suited to the higher rainfall areas of eastern Washington and similar areas of Idaho and Oregon, according to Dr. Floyd Frank, acting assistant director at the U. of Idaho Agricultural Experiment Station.

The new barley was released jointly by the three states.

Dr. R. A. Nilan and Carl Muir, barley plant breeders at Washington State University, have been researching the new variety at Pullman, Pomeroy, Walla Walla, and Dayton, Wash. for several years. Regional nurseries in the other two states have also tested the new variety extensively.

Vanguard is being recommended to replace Prolene for several reasons. It averages about five bushels more per acre than Prolene and greatly outyields Heines Hanna. It has more lodging resistance than Prolene, and during testing, no diseases were noted.

Furthermore, Vanguard may have better malting quality than Prolene although one more years data is needed. The new variety emerges equally as well as Prolene, is about equal in test weight, and heads about the same time as Prolene and two or three days earlier than Heines Hanna.

The straw strength of Vanguard is slightly better than Prolene and much better than Heines Hanna. Straw length is medium and about the same as Prolene and slightly shorter than Heines Hanna. It is now designated as a feed barley because it has not been approved yet as a malting barley by the Malting

TETANUS IMMUNIZATION

With the advent of milder weather, most Idahoans are getting out doors again, and the Idaho Medical Association that it is a good time to see that your tetanus immunization is up to date.

A minor cut or scratch could be major if tetanus producing spores are involved, and farm, yard and garden chores increase the exposure. These spores lie dormant in the

Barley Improvement Association. About 45,000 pounds of seed have been distributed to foundation seed growers this year, and commercial production of 60,000 is expected in 1972.

soil of gardens, the dirt in garages, and even in the dust in homes. They can infect the victim through the smallest wound—a pin scratch, a bee sting, or a minor cut.

The first signs of tetanus infection are irritability and restlessness. Muscles rapidly become rigid, eventually causing a clenched-jaw that gives tetanus its nickname "lock-jaw."

Once symptoms appear, the outlook is poor, even with the best treatment.

The best protection against tetanus from a garden scratch, animal bite or small cut, is immunization with tetanus toxoid.

UNEXPENDABLE

Don't let me die in April
Dear God I could never sleep;
When the bluebirds come to the hayshed
And the winds through the lindens leap.

Let me be up and sowing
Casting the vitreol grain;
Onto the harrowed plowed ground,
Into the April rain.

Take me away in autumn,
Or wild December dream;
For how could they sow without me;
When April days are here?

Brocke Tells of Park Legislation At Session

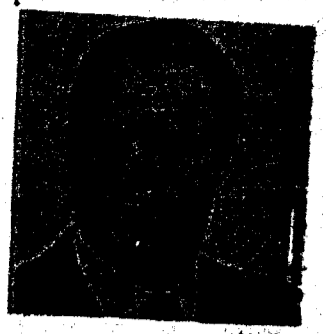

At a meeting of the Kendrick Camper Karavan's Monday evening of this week, George F. Brocke, Sr., State Representative from District 5, gave an interesting report on the State Parks and Recreation Departments and the schools taking the draw back was the lacks of funds, with the Health and Welfare Departments and the schools taking the majority of funds each year — there just was no money left for parks, with only \$350,000 being set aside for the coming year — and that was not enough to maintain all the parks that they now have in operation, let alone develop new ones.

As a result the Parks department was forced to lay off about half the personnel they normally employ to keep the parks going, so now services will be cut and no new parks are being built — and the old ones are bound to "go down hill" without personnel to man them properly. All this is taking place despite the fact that more people are coming to Idaho for vacations than ever before, and tourism is reported the fourth largest industry in Idaho — and in all probability a lions share of the tourists will stay in Idaho parks at some time or another.

It is hard to understand how we can keep tourists coming back to Idaho every year, if our lawmakers do not supply enough money to maintain our parks properly, and build new ones.

Mr. Brocke said: "One man can not give all the answers — it takes all the legislators to make the laws."

The serious burn always requires immediate treatment by a physician.

Once you get a mouthful of hot coffee whatever you do next is going to be wrong.

Two grade school pupils were discussing the birthday fete given a teacher. Said one: "I didn't realize Mrs. Jones was getting so old, but her birthday cake looked like a forest fire."

April Wasn't Too Wet April, the month of showers, didn't turn out to be quite so wet as less than two inches of moisture were recorded on various rain gauges in the area.

Jim Carlton, who maintains rainfall figures on Fix Ridge reported a total of .94 inches of rain for April. Dick Benscoter, on American Ridge, recorded 1.57 inches for the same period.

John Luedke, Genesee, recorded 1.21 inches for April, 1971, the same amount which fell in April of last year. Luedke added that to date the 1971 calendar year rainfall in Genesee has totaled 8.68 inches.

Card of Thanks I would like to thank my friends and relatives for the cards, letters, prayers, gifts and visits during my stay in the hospital. Your thoughtfulness and kindness meant so much to me and will never be forgotten. — Walter Benscoter. 18-1pd

Home Cookin' . .

When it comes to planning, preparing and serving a good meal, and, if a special recipe is needed in a hurry, the one person who is capable of filling in on all the above duties would be Mrs. Janet Nail. Her hobby, she says, is collecting recipes, and she'll also gladly share any she has.

Thursday, she brought us a cake which must have taken hours to bake, cut and frost. It was made in the shape of a huge daisy. White petals, yellow center, and green stems and leaves. Too pretty to eat, but, of course, the pangs of hunger got to us,

so—yes, it was delicious. Not only did we receive the cake, but several recipes. We're printing a few of them this week.

Come on ladies, with so many school activities and other spring and summer entertaining coming up, find some recipes for us.

Cakes and muffin recipes. Served with steaming hot cups of coffee, a lot of gabbing can be done over a freshly baked cake.

APPLE CAKE

- 2 cups sugar
 - 2 eggs
 - 1/2 cup oil or melted shortening
 - 2 cups flour
 - 2 teaspoons soda
 - 1 teaspoon salt
 - 2 teaspoons cinnamon
 - 4 cups diced apples
- Mix together all ingredients except apples. Add apples last. Bake at 350

degrees for 50-60 minutes. Bake in 8-inch square pans.

CRANBERRY COFFEE CAKE

- 3 tablespoons butter
 - 1/3 cup honey
 - 3/4 cup basic cranberry relish
 - 2 packages refrigerator biscuits
- Melt butter in tube pan. Add honey, relish. Mix well. Arrange biscuits on end, around outer edges of pan. Bake 425 degrees for 10 minutes. Reduce heat to 400 degrees and bake about 20-25 minutes until brown on top and inner edge. Let cake set for five minutes before turning out on plate. 8 to 10 servings.

BASIC CRANBERRY RELISH
 4 medium oranges (seedless)
 2 lbs. cranberries
 4 medium apples, peeled and cored
 4 cups sugar
 Peel oranges, discard white part. Put orange pulp, and rind, cranberries, apples through grinder. Add sugar and mix well. Cover and refrigerate, or pour into glass jars and seal and freeze. Leave head space of 1/2 inch.

BANANA BRAN MUFFINS

- 1 egg
 - 1/4 cup melted fat
 - 1 1/4 cups flour
 - 1/2 teaspoon soda
 - 1/2 cup sugar
 - 1 1/2 cups mashed bananas
 - 1 cup bran
 - 2 1/2 teaspoons baking powder
 - 1/2 teaspoon salt
- Combine egg, bananas, fat, and bran. Mix well. Sift flour with remaining ingredients and add to first mixture. Mix only to dampen flour. Bake in greased muffin tins, 350 degrees for 25 minutes.

Bridal Shower Honors Brenda Davis

GENESEE—A bridal shower was given for Miss Brenda Davis, of Bovill, by her aunt, Mrs. Dale Iverson, April 24, at the Genesee Valley church. About thirty guests, including close friends from Genesee, and relatives from Lapwai, Lewiston, Bovill, and Genesee attended.

The color scheme, chosen by the bride for her wedding, was carried out in the decorations. The serving table was covered with a lace cloth over lavender, and centered by a bouquet of daffodils and lavender hyacinths flanked by yellow candles. Mrs. Denis Jain, mother of the bride, poured coffee, and Mrs. Paul Miller, mother of the groom, poured punch.

The gift table was decorated with a "Scrubber Tree." The lavender and yellow nylon net scrubbers were given to the guests as favors. Assisting Brenda in opening her gifts were Karen and Joan Iverson, Connie Jain, and Diane Iverson.

Brenda and Dennis Miller, of Lewiston, will be married later this spring, when Dennis is on leave from the Marine Corps.

Rainfall Was Above Average In 1970

All of the surrounding areas had above average precipitation during 1970, according to figures received from the local SCS officer, Manning Onstott. The areas involved were American Ridge, Big Bear Ridge, Flx Ridge and Potlatch Ridge.

The increases ranged from just a couple of inches above average on Flx Ridge to almost eight inches on Big Bear Ridge.

The figures supplied by Manning are as follows:

GENESEEE—Mrs. Sanford Evans entertained the Roverettes and guests at dessert-bridge Friday evening. Prizes were won by Mrs. Dale Becker, Mrs. Jay Nelson and Mrs. Mel Moser.

Bielenberg - Mansfield Wedding Vows Exchanged At St. Stanislaus Church

Dorothy Ann Bielenberg, daughter of Mr. and Mrs. Edwin Bielenberg, of Genesee, and Donald E. Mansfield, son of Mrs. Evelyn Mansfield of Walla Walla, and the late Clay Mansfield were united in marriage Saturday, April 24, at 2:00 p. m. at St. Stanislaus Catholic church, Lewiston, with the Rev. Fr. Howard Moran, officiating at the double ring ceremony. Assisting at the mass were Dan Bielenberg, brother of the bride, and Ed. Egland, both of Genesee.

Miss Katherine Loughney, Lewiston, sang, "Wedding Prayer," "With This Ring," and "Whither Thou Goest." Her accompanist was Mrs. Marie Schneider, also of Lewiston.

The bride, given in marriage by her father, wore a gown she had made and designed of a line floor-length design in candlelight pea de soi, with imported beaded lace applique emphasizing the Empire design and cascading down the front of the gown and at the hemline.

The chapel-length train was designed with a cascade of pearl lace applique. The head-piece of stephanotis held the chapel-length veil of candlelight and mantilla, a gift of friends from Costa Rica.

The bride carried a bouquet of phalaenopsis orchids, stephanotis, and ivy designed in a cascade. She also carried a rosary, which was carried by her mother on her wedding day.

Attendants were sisters of the bride, Miss Christine Bielenberg, of Spokane, and Miss Mary Jean Bielenberg, Genesee. They wore identical floor-length gowns of apple green dotted swiss and carried nosegays of roses, sweet william and baby breath.

George Nell, of Pasco, close friend of the groom served as best man, and ushers were brothers of the bride, John Bielenberg of Nampa and Robert Bielenberg, of Lewiston.

Assisting at the church reception were Mrs. Gordon Jacky, sister of the groom, Baltimore, Md.; Mrs. Kenneth Mantha, sister of the bride, Pendleton, Ore.; Janet Bielenberg, Spokane; Marlene Fuchs, and Mrs. Steven Cox, Lewiston; Mrs. Virgil Kearney, Almira, and Jeanne Mansfield, Clarkston.

The bride attended school at Genesee, Idaho and is a member of Beta Sigma sorority. She is employed as a decorator at Davis Kaser's Furniture, Walla Walla.

The groom attended Kelso high school and operates an industrial janitorial service in Walla Walla.

Mrs. Paul Smith, Former Resident Passes Apr. 23

Funeral services were held in Lewiston Monday for Mrs. Paul (Mary) G. Smith, former Lewiston resident, who died at Corvallis, Ore. last Friday.

Born at Genesee, Idaho, she married Lester Gray, Aug. 2, 1921, and they farmed in the Genesee area. She later married Tom Baell and he died in 1951. She married Paul Smith at Las Vegas, Oct. 10, 1954.

Survivors include her husband, a son,

This year control wild oats with

Avadex / Avadex BW

PRE-EMERGENCE HERBICIDES

in Peas, Lentils and Barley

No one herbicide on the market can control all weed infestation such as fan weed, dog fennel, nightshade and mustards . . . but Avadex gives good pre-emergence control of wild oats in peas and lentils. Followed by a reliable post-emergence herbicide, such as Dinitro, after crops are 3" high, you can control most broadleaf weeds. For barley, Avadex BW provides excellent pre-emergence control of wild oats.

Remember these important facts:

Avadex/Avadex BW control wild oats effectively for up to 8 weeks, in wet or dry weather.

Avadex/Avadex BW require only one application.

Avadex/Avadex BW are easily incorporated with your present equipment.

Avadex/Avadex BW are safe to crops when you follow label directions. Avadex/Avadex BW give you seeding flexibility.

See Your Farm Chemical Supplier Now for more information about Avadex/Avadex BW pre-emergence herbicides.

MOTHERS ARE LIKE THAT

They cling no more to apron string. Now they face the world to sing. Of new pursuits they find worthwhile.

They bravely greet the world to smile. At problems wherever they are; They strive and aim for a new star. Each mother's fond hopes continue, And challenges bring strength anew. Greetings from places far away Confirm love's bond on Mother's Day.
