Enjoying a field trip to the Arrow Museum, presenting a program for the 283 Club and making ceramic pottery were included in this year's kindergarten activities. The class also attended school all day, May 3 in preparation for first grade.

New Arrivals . . .

Fry
Grandma Frances Fry's idea of having a baseball nine of great grandsons ran "afoul" of Mother Nature May 3 when Mr. and Mrs. Leo (Tun) Morgan announced the arrival of the cutest little "Pickle Packer" in the business—Rhonda MacRae Morgan. Mr. Morgan is part owner of Morgan Bros. grocery and "Uncle Bills" pickle plant in Lewiston.

NOTICE
The person who accidentally shot our Herford cow (and left it to die a lingering death) has not made himself known or offered to pay damages. Therefore, we have decided to post our property to NO HUNTING and NO TRESPASSING for the future including the fall bird and deer season. We regret having to do this and if area sportsmen can give us a satisfactory alternative, we will be glad to talk to them.

Wayne and Vern Wegner

Bethany Lutheran Church Burglarized

Bethany Lutheran Church, located on Bear Ridge, eight miles northeast of Kendrick off Highway 3 has been looted of its most prized possessions. Latah County Deputy Sheriff Ed Pierson said Oscar Slind, a farmer who lives near the church was mowing the churchyard lawn Thursday of last week when he discovered that the front door had been forced and several items taken.

The 67-year old church, last used for a community Christmas dinner, is minus two pump organs, a large bookcase, a silver baptismal bowl on a stand, a silver communion pitcher, three coal oil lamps, three gasoline lamps, a Norwegian Bible and stainless steel dinnerware.

The sheriff's office said investigation of the break-in and theft is hampered by the fact that the incident could have occurred any time since Christmas.

According to Miss Bertina Forrest, long-time secretary of the church, the building was constructed in 1904 by area farmers. The first organ, Miss Forrest recalls, was acquired in 1908 and a second organ was given to the church about 1950.

The church held its last regular service in December, 1964. At that time the congregation decided it couldn't afford to support a minister and full-time church activities. Since that time, the church has been used occasionally.

Remaining articles of value in the church have been removed.

Mrs. D. F. Scharnhorst 'Mother of Year' Finalist

GENESEE — Mrs. Dick (Marie) H. Scharnhorst was one of three finalists for the mother of the year award at the University of Idaho Parents Week-end. Mrs. Scharnhorst, wife of Genesee Mayor D. F. The banquet honored Coach Kanikkeberg, members of his football, basketball, baseball and track teams as well as the members of his staff and GHS cheerleaders. Coach Troxel was the guest speaker at the banquet which also honored Ozzie as being named North Idaho Coach of the Year.

Grange Met Tuesday Evening At Kendrick's Fraternal Temple

Kendrick Grange No. 413 met on Tuesday, May 4th at 8:00 p. m. at the Fraternal Temple with 28 members and two guests present.

The meeting began with a demonstration on "Eve yone Has a Survival Kit in Their Backyard," given by Janis Whiting. The answer is the "Cattail." Janis worked on this project for a period of nearly two years. In doing so she learned there is no plant, wild or tame, that produces more different kinds of food or products than the "Cattail."

The roots make a nutritious flour which can be turned into biscuits, muffins or cookies. The "bulb sprouts" make a good vegetable, and pickles can be made from the growing sprouts. The young plants are known as "Cossack Asparagus" and so, supply another vegetable. The "bloom spikes" make good corn-

on-the-cob (prepared and eaten the same as corn-on-the-cob).

The "mature bloom spikes" produce a yellow pollen which can be used for flour. This flour can be used to make pancakes or muffins, which is a good source of Vitamin A.

Winter decorations are made from the "brown heads" and "mature heads" produce cotton which can be made into mattresses, life preservers, upholstery, artificial silk, insulation for ice chests and pillows.

The "mature stems" make good building toys. Janis had made a little log cabin from the stems. The "mature leaves" furnish the material for woven placemats. Every part of the cattail plant was used in all stages of growth. It was most interesting and very informative.

Self Medication Has Its Dangers

Self-medication has its dangers, notes the Idaho Medical Association, and it is well to keep them in mind.

Covering up pain with a pain killer, insomnia with a sleeping pill, anxiety with a tranquilizer or fatigue with a stimulant, fails to get at the basic causes of these conditions.

Symptoms can be deceptive. It is illogical to treat oneself for some-

thing without knowing what it is.

Using a drug left over from a previous illness is unlikely to be helpful. It may be useless or even dangerous, and could waste valuable time in getting proper treatment.

Using a drug prescribed for someone else is likely to be useless, detrimental or even dangerous because individual circumstances, needs and reactions are likely to be different, or dosage unsuitable.

Reactions to drugs differ with different people, and with the same person at different times. All but the most simple drugs should be given with care and subject to medical judgment. Among such "simple" drugs are pain relievers, anti-acid agents, laxatives, cold tablets, nose and throat sprays, and external applications.

Sleeping pills, "pep" pills and tranquilizers are not of this group.

Water is life, do your part to save it.

Fever is an increase in the temperature of the body, frequently brought on by infection.

If the infection is minor, and quickly overcome, the fever will probably pass quickly. A fever that lingers indicates infection may still be present.

Loan Rate For 1971 Barley Crop

The Latah county loan and purchase rate for 1971 crop farm stored barley will be 88 cents per bushel or \$46.70 per ton, according to Clarence Jensen, chairman of the Latah County ABC Committee.

The rate is based on the national average loan level for the 1971 barley crop of 81 cents a bushel for No. 2 grade or better, down 2 cents from the 1970 average loan level. The Latah county '71 rate is down 2 cents from the 1970 loan rate of 90 cents per bushel.

Warehouse stored barley with storage starting Aug. 11, 1971, will be eligible for a loan at 78 cents per bushel or \$32.53 per ton.

Loans on 1971 crop barley will be available to all eligible barley growers. Participation in the feed grain program is not an eligibility requirement, since barley is not in the feed grain set-aside program.

Home Cookin' . .

With fresh rhubarb in abundance now, our recipes from Mrs. Kenneth Jenkins are indeed timely. Mrs. Jenkins not only brought us the recipes, but a generous helping of the fruit. It is the red variety, grown at the Jenkins' farm and is really delicious.

RHUBARB PARFAIT PIE

3 cups diced rhubarb
 1/2 cup sugar
 1/2 cup water
 1 pkg. strawberry gelatin
 1 pint vanilla ice cream
 1 baked 9" pie shell, cooled
 Place unpeeled rhubarb, sugar and water in saucepan. Bring to a boil, reduce heat to low for 10 minutes. Dissolve gelatin in hot rhubarb. Add ice cream by spoonful, stir until melted. Chill until thickened, but not set. (10-15 minutes). Turn into pie shell. Chill until firm. Garnish with coconut, if desired. Can also use a whipped topping.

RHUBARB CAKE

2 cups flour
 3 teaspoons baking powder
 1 cup sugar
 1/2 teaspoon salt
 1/2 cup shortening
 1/2 cup milk
 1 teaspoon vanilla
 2 beaten eggs
 2 cups chopped rhubarb
 Sift flour, baking powder, sugar and salt together in a mixing bowl. Crumble in the shortening, mix the beaten eggs, milk and vanilla together and add to flour mixture. Mix well. Add chopped rhubarb to batter and pour into greased, oblong cake pan. Bake at 375 degrees for about 40 minutes, until cake tests done. Can use powdered sugar icing.

The same batter can be used for an apple or prune cake. Decrease sugar to 1/2 cup. Instead of mixing fruit in the batter, lay slices of apples or prune on top of batter then sprinkle with sugar and cinnamon then bake the same.

RHUBERRY FREEZER JAM

5 cups cut-up rhubarb
 3 cups sugar
 1 package strawberry gelatin
 Mix rhubarb and sugar in large saucepan. Place over low heat. Cook, stir, heat and bring mixture to a boil. Boil ring until sugar dissolves. Turn up 10 minutes.

Remove from heat. Stir in strawberry gelatin. Continue stirring until gelatin is dissolved. Skim, then pour into glasses. Put on lids. Cool, then freeze. Makes 4 1/2 cups

RHUBARB CRISP

1 egg
 3/4 cup sugar
 3 Tbs. flour
 3 cups diced rhubarb
 4 Tbs. butter
 1/3 cup packed brown sugar
 2/3 cup flour
 Beat eggs; stir in sugar and 2T flour. Add rhubarb; blend well. Spoon mixture into greased 8" baking dish. Combine butter, brown sugar, and 2/3 cup flour with pastry blender or fork. Sprinkle crumbly mixture over rhubarb. Bake at 350 degrees for about 40 minutes, until rhubarb is tender.

Deer Hunter Success Best Ever Statewide

Idaho's statewide calculated deer kill figures for 1970 were 83,100 compared with 71,400 in 1969; and 14,500 elk kills in 1970 compared with 15,900 in 1969, the Idaho Fish and Game Department reported today. Figures are based on post-season hunter questionnaires, which have been used to compute statewide big game kills since 1953.

This is an increase of 16 percent in the 1970 deer kill compared with 1969, and a decrease of 9 percent in the elk take, according to John R. Woodworth, director. He said that good weather conditions which favored hunters accounted for the increased deer kill. Statewide hunter success was 50 percent in 1970 compared to 43 percent in 1969, when hunting conditions were poor.

The drop in elk harvest was due to an over-all decline in numbers of elk hunters, Woodworth added. Tag sales declined more than 5,000 from 1969 to 1970. Hunter success for elk remained at about the same level of 21 percent from 1969 to 1970.

The reduced elk harvest also reflected a decrease of 2,400 non-resident elk hunters, which probably was due to general economic conditions.

MAY
 In May I'll walk the canyonlands again,
 Where wood anemone and starflower blow.

With just a powderpuff of wind-sweet rain
 And tender memories of the long ago.

And in that fairyland so good and kind,
 With bud and bloom to light my spring-time way:
 I will leave all unhappy things behind,
 And gambol down the greening slopes in MAY.

Tom Boyd, Ray Stout Re-elected To Genesee School Board For Three Year Terms

GENESEE—Tom Boyd and Ray Stout were re-elected to another 3-year term on the school board. Mr. Boyd received 6 votes and Mr. William Haxton, Jr. received two write-in votes. Mr. Stout received 5 votes.

At its regular board meeting Monday, May 10, 1971, the board read and approved the 1971-72 school year budget. The board also canvassed the election ballots for both the mill levy and the trustee election and certified them.

Sheri Herman and Debbie Smith appeared before the board to seek help for their expenses to the National F. H. A. Convention in Kansas City during July. Debbie is a State Officer and Sheri is trying out for a national office. The

board approved \$100 apiece toward their expenses.

Next year's high school schedule was discussed and approval was given by the board to go to a six-period day instead of the present seven-period day.

The board also hired one new teacher for the coming school year. Mr. Kenneth Oifer, a graduate from Montana State will replace Mrs. Barr and will instruct German in the high school and math in the junior high. We still have one more vacancy to fill, that being Home Ec. position in the high school. Mrs. Fitzpatrick will be leaving at the end of the school year. The rest of the staff have signed and returned contracts for the coming school year.

The board approved bills totaling \$8,045.27. Being no further business, the board adjourned.

Arthur Roach, 69, Passes May 8

Arthur Lee Roach, 69, the last acting mayor of Elberton, Wash., died Saturday at the Whitman Community hospital.

Roach came to Elberton, a small community on the North Fork of the Palouse River 10 miles northeast of here in 1939. He held the mayors office when the town residents voted to disincorporate in 1966. Roach retired 3 years ago after working for the Garfield Union Warehouse Co. for 25 years.

Born Aug. 30, 1901, at Adair, Illinois, he came with his family to the Ewan, Wash. area. They later moved to Walla Walla and then to the Uniontown-Genesee area. Roach was married to Pauline Bentley Nov. 3, 1921 on a farm near Genesee. They farmed at Ewan prior to moving to Elberton. He was a charter member of the Eaton Grange at Ewan.

Surviving are his widow, Pauline, at the home at Elberton; two sons, Robert Roach, Cheney; Walter Roach (Betty) Mattoon, Colfax; one daughter, Wayne Roach, Genesee; two sisters, Mrs. Ruby Aherin, Eugene, Ore., and Mrs. Mildred Cameron, Seattle, 13 grandchildren and 2 great grandchildren.

The funeral was Tuesday at 2 p. m. at the Christian Church at Garfield with the Rev. James Estes and the Rev. James Farrell officiating. Burial followed in the Garfield cemetery with L. L. Bruning Funeral Home of Colfax in charge of arrangements.

WILDLIFE VIEWPOINT

By Stu Murrell
 Regional Conservation Educator

May 1 was the opening of the lowland trout season in the Clearwater Region. These waters open a month early because of the best fishing occurs during this period and it gives the fisherman an additional opportunity for recreation. The trout limit is 10 fish on the lakes involved and the regular 15 trout limit applies to most of the lowland streams. Elk Creek below Elk Creek Reservoir and Spring Valley Creek upstream from State Highway 8 are the exceptions to the 15 fish limit. On these two streams the limit is 10 trout.

The natural spawning areas are lacking or marginal in many of these lakes and streams and fishing pressure is heavy so the Fish and Game Department carries on a regular stocking program. We are planting rainbow trout primarily but some cutthroats have also been released. Most of these fish are raised at our Hagerman Fish Hatchery in southern Idaho and trucked up here in large tankers. There are three sizes of fish stocked, depending on the productivity of the water, competition from other species of fish, and fishing pressure. Catchable trout are those ranging in size from 8" to 13" long and one-fourth to one-half pound in weight. Most of those released this spring are the larger ones of one-half pound in size. Fingerlings are the second type of trout stocked. They are about 2" - 3" long and we use these in our most productive water and the ones where they have the best chance of survival, such as Winchester and Waha lakes. They grow rapidly in these two lakes and makes a very attractive fish with bright silver bodies and well formed fins. The third kind of trout released is the fry. These are very small, having just hatched, and are released in the same areas as fingerlings.

Winchester Lake has been planted with 4,000 catchables, 77,000 fingerlings, and 22,500 fry this spring. These will supplement the good carryover from last fall. The fish kill last summer did not eliminate all the population and we planted additional catchables last fall. Winchester lake has a 10 mph speed limit for boats and Dell Williams, Idaho State Parks Department at Winchester, indicated there will be a \$1 per day use permit required for the State Park picnic areas and \$2 if you intend to stay overnight. This fee is not required at the two boat launching areas or for those fishermen using undeveloped portions of the shoreline.

Waha Lake received 5,000 catchable recently and has an excellent population of holdover fish from previous fingerling plants.

Spring Valley Reservoir near Troy was also planted with 5,000 catchables and should be good fishing early in the season. The previous fingerling plants have not been doing well the past year because some one released bass into the reservoir and they have been eating the young trout and competing with them for food. Terry Holubetz, Regional Fishery Biologist, stated he will examine the reservoir more closely and make a determination if a control program should be carried out for bass. It is illegal to release fish from one area into another and this is a good example of how it has adversely affected people's fishing in Spring Valley.

Campbell's pond near Orofino, has not been planted yet this year but will be as soon as the road becomes passable for the fish track to reach the lake.

Mann's Lake was planted with 5,000 catchables. It also has a largemouth bass population in it that has been there for years. No boats are allowed on this lake.

Elk Creek Reservoir near Elk River, received 2,700 catchables. It also has a good natural brook trout population. Elk Creek downstream from Elk Creek Reservoir was planted with 1,000 catchables. The tributaries to this portion of Elk Creek are closed until the regular trout season opening on May 28th. A new change was instituted this year on Elk Creek upstream from Elk Creek Reservoir. It will not open until May 20th. Last year it started with the early season.

Moose Creek Reservoir, near Ewvill, was stocked with 3,000 catchables.

Soldier's Meadow Reservoir is closed until the May 29th opening. hTo Palouse River upstream from Laird Park was planted with 3,000 catchables and Lawyer's Creek and the East Fork of Potlatch Creek each received 1,000 apiece.

The Palouse River upstream from skia downstream to the mouth reopens for trout on May 1 but remains closed to steelheading.

A variety of methods are used by people on these lakes but single snail-ing eggs, flies, and slow trolling with small spinners or wobbling spoons seem to be the most productive.

DIOSYNCHIASIES
 New snow along Cascadian reaches lying;
 The sudden gleam of a transcendent sea;

The orchard orioles through the lindens flying;
 Stampeded daisies on the upland sea.

Greetings half-said with stress of long-ing broken,
 Cascading apple blossoms on the breeze
 Silence through which love's ultimate is spoken;

These you may call my—

Mariners To Meet
 GENESEE—The Mariners will hold a work meeting on May 15 at the Ford Garage, at 6:30 p. m. If you have hammers, nails, stapling guns, saws or small paint brushes for signs, bring them. There will be a short business meeting following at the Genesee Community church with refreshments, served. See you there!

Genesee Rim Riders

GENESEE—The Genesee Rim Riders held their May meeting with 23 members present. Plans are in high gear for our gymkhana and horse show June 5 and 6. Entry blanks are being sent out to the other clubs. If anyone is missed, contact Jane Gulibon, sec'y, Genesee, Idaho.

HOARSENESS

Hoarseness is usually an indication of disease in the larynx or voice box, according to the Idaho Medical Association.

Frequently the trouble is an infection causing acute or chronic laryngitis. Since laryngitis sometimes accompanies a cold or other upper respiratory infection, the patient may complain of fever, chills, or generalized aches and pains.

It can, however, be an indication of a more serious disease. Cancer of the larynx may cause hoarseness as one of its first symptoms. Other causes include physical injury to the larynx, allergic reactions, gland disorders, an enlarged thyroid, or various infections.

If hoarseness develops suddenly, rest your voice as much as possible. Try breathing steam from a pan of boiling water or from a steam inhaler for about thirty minutes a day. If the hoarseness persists for more than two or three days, see a physician.

Or, as the mouse remarked when he bit into the movie film: "It isn't nearly as good as the book."

"The absent-minded professor drove up to the door of his garage, looked inside, blinked and then leaped back into his car and drove rapidly to the police station. "Sergeant," he gasped, "My car's been stolen."

At 42, a woman never had used anything for her complexion, but soap and water. A horrified cosmetics saleswoman convinced her to mend her ways and loaded down the woman with face cream, astringents, etc.

That night the kids watched her apply the entire treatment.

The next morning they all gave her a careful once-over. Only her 6-year-old son dared speak. "It didn't work," he said.

Good Health Is A Personal Matter

Good health is a personal matter that is determined by what the individual knows and does about his health.

Physicians can only advise that tense living leads to ulcers, that smoking is not good, that too much fat is bad for health, that eating candy between meals can cause cavities, notes the Idaho Medical Assoc. The physician cannot compel his patient to lose weight, or exercise more, or use common sense in his health care and diet.

Proper nutrition, sufficient rest, adequate exercise, vaccinations against contagious diseases, and maintenance of clean and sanitary home conditions must be the responsibility of the individual.

Your physician can give you a periodic physical checkup only if you phone and make an appointment. It is difficult for a physician to help those who will not help themselves.

Fever is one way your body has to tell you that it is fighting an illness, and it should never be ignored reminds the Idaho Medical Assoc.

Closed Fire Season Now In Effect

The "Closed Fire Season" on all areas in the State of Idaho, outside of the cities, became effective on Monday, May 10. State Land Commissioner Gordon Trombley says that on and after that date it is unlawful to burn on forest or range lands without a burning permit in possession.

Burning permits, when conditions are safe, can be obtained from the offices of the Department of Public Lands, U. S. Forest Service, Bureau of Land Management, and Timber Protective Associations. Advice on burning problems is also available at the same offices.

Richard V. Benjamin, Fire Warden for Kendrick Forest Protective District, warns all citizens that the unusually late spring may give the impression of a false sense of security as far as fire danger is concerned. He says that if a fire escapes control, the person setting the fire will be liable for both suppression costs and trespass damages.

Mr. Benjamin urges all debris burners to take all the necessary precautions, and he makes a special plea to all campers, vacationers and fishermen that they snuff out their cigarettes and their campfires.

4-H Junior Leader Council

4-H Jr. Leader Council met Monday evening, April 26 at the fairgrounds in Moscow. About 45 members met with Home Agent Joanne Anderson, Sara Dau, Home Ec senior doing understudy work in Latah County, and Gordon Dally, Latah County Agent.

The group organized and picked up several large bags of litter from the fairgrounds. Hotdogs were served before the meeting. Dayle Dubon, council president, conducted the meeting. Those planning to attend camp will be assigned jobs in recreation, crafts, and boating. Camp will be held June 27-30.

The Idaho Pride project has not been selected. Roadways and recreation areas were discussed as possible projects. A proposal for a training session with Chatcolab people was accepted for May 13.

Club Congress will be held June 13-18. Members 14 and over will be eligible to attend. Support was asked to get two Latah County members on the ballot for officers. State Historian candidate is Mary Fleener and for Song Leader will be Laurie Anderson.

ORDINANCE NO. 155

AN ORDINANCE Granting to THE WASHINGTON WATER POWER COMPANY, a corporation organized under the laws of the State of Washington, and its successors and assigns, a franchise to construct, erect, maintain, operate, remove and use wires, poles, and facilities for transmitting and distributing electricity for heat, light and power to the City of Juliaetta and its inhabitants, and to erect, construct, maintain, operate, remove and use wires and facilities for telephone purposes in its private business, and to construct, install, maintain, and remove conduits on, over, along, under and across the streets, alleys, and ways within the corporate limits of the City of Juliaetta as they now exist or as they may here after be changed, and granting the use of the streets, alleys and ways therefor within the corporate limits of the City of Juliaetta.

BE IT ORDAINED by the Council of the City of Juliaetta

1. That THE WASHINGTON WATER POWER COMPANY, a corporation organized under the laws of the State of Washington, its successors and assigns, herein after called the "Grantee", be and it is hereby granted, for the term of twenty-five (25) years from and after the passage of this Ordinance, the right, privilege, and franchise to construct, erect, maintain, operate, remove and use wires, poles, plant and all necessary or desirable appurtenances thereto for transmitting and distributing electricity for electric light, heat, and power, and also to use its wires, poles, and properties for telephone purposes in its private business; and to install, construct, maintain, and remove conduits over, on, along, and under and across the streets, alleys, and ways, within the incorporated limits as they now exist, or as they may hereafter be changed, of the City of Juliaetta.

2. There is further given in connection herewith, unto the Grantee, its successors and assigns, the right during the life of the franchise, to cut and trim any and all trees growing in, on or over the streets or alleys of the City of Juliaetta that might or may interfere with any wires, poles, conduits or other apparatus of the Grantee, its successors and assigns.

3. The poles, wires, and other apparatus mentioned herein shall be constructed, erected, and maintained in accordance with the laws of the City of Juliaetta and the State of Idaho relating to electrical construction, and any rules or regulations adopted by any agency of the State of Idaho having jurisdiction over electrical construction in the City of Juliaetta and also said construction shall be in such manner as to prevent and guard against accidents or damages as nearly as possible to any persons who may be properly using said streets and alleys.

4. The said Grantee herein shall have and is hereby given the right and privilege to make any and all necessary or proper excavations and obstructions in any of the streets, alleys, and properties of the City of Juliaetta for the purpose of building, erecting, repairing, removing, maintaining or changing any of the poles, wires, conduits, crossarms, or other appliances or apparatus used or to be used in connection with the above purposes. Whenever the Grantee, its successors or assigns, shall excavate in or obstruct any of the streets, alleys or ways of the City of Juliaetta for the purposes aforesaid, it shall return the same to the order and condition that they were in before they were excavated or obstructed, as soon as practical and within a reasonable time after such excavation or obstruction, and that the Grantee herein, its successors and assigns, shall at all times hold the City free and clear from any and all damages that may result to any person, persons, firm or firms, corporation or corporations, or to any property of the same, by reason of any erection, construction, maintenance or operation of any of the things herein authorized to be constructed and maintained by it.

5. The City reserves the right to remove any such wires, poles, or apparatus herein provided for in case of general conflagration and necessity therefor. The City in such case shall not be held liable for any damages to the Grantee, its successors or assigns, on account of any cutting away or removal of any poles, wires, or other appliances under the last named circumstances.

6. The Grantee, on request of the Council of the City shall remove or raise its wires so as to permit the removal of any house or building when the same may be necessary to permit the removal of said building on, over, and along the streets, alleys, or public highways of the said City to the point of destination; provided, that the party to whom a permit has been granted to remove any such building on, over, and along any of the streets or alleys of the City shall pay to the Grantee hereunder the cost incurred in removing or changing its wires and facilities so as to permit the removal of said building as aforesaid.

7. That in consideration of the rights, privileges and power herein granted to the Grantee herein, its successors and assigns, it, the said Grantee, its successors and assigns, shall at all time keep and maintain a plant of sufficient size and capacity to supply the City and the inhabitants thereof with such an amount of electricity as they may reasonably require, and shall, in the absence of accident or misfortune from some cause beyond its control, furnish a continuous twenty-four (24) hour service, and should the said plant, or any part thereof, become broken, injured or destroyed, the same shall be replaced as soon as it is reasonably practical. The Grantee shall also furnish to the City under applicable rate schedules to be used within the incorporated limits of the City

as many street lights and of such candle power as may be designated by the authorities of the City.

8. The Grantee shall have the right to make and enforce reasonable rules and regulations pertaining to the conduct of the Grantee's business and to prescribe the forms for application for service and contracts to be executed by applicants. Service shall be supplied to the City and its inhabitants in accordance with the Grantee's rules and regulations filed or hereafter filed with the regulatory body of the State of Idaho having jurisdiction over the Grantee.

9. The Grantee may be directed to install its wires underground upon request of the City and those property owners to be specially benefited thereby after a public hearing and finding by the City Council that the area wherein underground facilities are requested is a feasible and practical area for underground installation and the installation is required in the public safety, interest, or convenience. In the event underground electric facilities are to be installed the difference between the cost of constructing and installing the wires and related facilities above ground, and the cost of constructing and installing the wires and related facilities underground, shall be borne proportionately by each property owner in the area, public or private, specially benefited thereby. When the Grantee determines to place its wires underground in any portion of the City, permission to do so is hereby granted. The Grantee, its successors or assigns, shall file with the City Engineer a complete set of plans and specifications for such work and shall lay the necessary pipes or conduits for the same in such manner as not to interfere with any existing pipes in such streets. Such work shall be done subject to the supervision of the proper authorities of said City.

10. The rates and charges applicable for electric service furnished by the Grantee, its successors and assigns shall be as filed with the regulatory body of the State of Idaho having jurisdiction and in effect during the term of this franchise.

11. The Grantee, its agents and employees shall have the right and power of ingress and egress upon its customers properties for the purpose of installing, servicing, maintaining its facilities, and for the purpose of maintaining, testing and reading its meters.

12. It is understood that this franchise is not an exclusive franchise, and the said City of Juliaetta, reserves unto itself the right to grant other franchises for the purpose for which this one was granted.

13. This franchise and all of its provisions shall be void, inoperative, and of no force or effect whatsoever unless the said Grantee named herein shall, within thirty (30) days after the passage and publication thereof, file with the Clerk of the City of Juliaetta its acceptance here of in writing.

14. The franchise hereby granted may be revoked by the City by a duly enacted Ordinance in the event the Grantee shall fail after thirty (30) days' written notice to comply with any of the terms, conditions, or obligations imposed upon the Grantee hereunder.

GOODBYE TO APRIL

It hurts to know that April must steal away so soon,
Leaving me but a shire of grass,
And half a daylight moon—

That in my humble, cosmic way,
'Tis I must carry on;
To welcome effervescent May,
When April days are gone.

Reinspection Due

Motorists are reminded by the Department of Law Enforcement that they have only until Friday to re-register and re-inspect vehicles having April expiration dates.

Vehicles bearing a black 4 on inspection stickers are due for re-inspection before midnight Friday and passenger cars and pickups with plates ending in 4 which are regis-

tered under the staggered licensing system face the same registration deadline.

The department says the 72 black on white plate validation stickers are to be placed on the lower, left hand corner of present plates and suggests the plates be cleaned before stickers are applied.
