Kendrick Grange Has Panel Discussion On Crime

Kendrick Grange No. 413 met in regular session at the Fraternal Temple at 8:00 p. m. Tuesday, Feb. 15, with 28 members and three visitors present.

The "Year Books" for 1972 were distributed to members by Mrs. Wayne Helmgartner, chairman of Women's Activities. She thanked Mrs. Elmo Eldridge for doing stencils and mimeograph work, and Mr. and Mrs. Lawrence Helmgartner, Mr. and Mrs. Manning Onstott and Wayne Helmgartner for assistance in compiling information and material to complete books and especially to Mr. and Mrs. Onstott for letting the Grange meet at their house and helping to complete the books and for doing the lettering on the covers.

The program for the meeting was a panel discussion on "How Laws Protect the Wrong-Doer and What We Can Do About It."

Moderator for the panel was Lawrence Wilson with panel members being Mrs. Lawrence Wilson, Dick Cuddy and Gerald Ingie. They were greatly assisted by Charles Bowers from Mt. Deary Grange speaking on "Crimes Causes, Prevention and Cure" followed by comments from other Grange members.

Panel members discussed prevention of robberies of residences and precautions to help prevent theft of automobiles.

Charles Bowers stated that an outdated judiciary system is the prime cause of crime. He criticized the "bleeding heart" judges and a permissiveness that allows the criminal more protection than the law abiding citizen. The Kent State episode would not have happened had rioters known maximum force could be used, he said. A nationwide uproar ensued. In the same year 16 policemen were shot just because they were cops, he said, no provocation!

Facts and figures given by Bowers of crime in the U. S. are as follows: A robbery every 30 seconds. A rape every 3 minutes. A murder every 60 minutes.

He added that 47 percent of all larcenists are not convicted. Further calculations show—Chances are 4 to 1 of not getting caught.

50 to 1 of no conviction. 200 to 1 of no sentence.

For this, Bowers said, a policeman is asked to lay his life on the line. The sentence for assault with intent to murder is only 2 to 14 years.

Bower stated, "We need mandatory sentences so severe no one dare commit violent crime, including mandatory death for habitual criminals using firearms resulting in death."

In summarizing the discussion Lawrence Wilson stated that our judges are paid too much. It was also stated that everyone is too afraid of "getting involved" and this quite often hampers justice being done. Mr. Wilson suggested that we keep the government from centralizing so people can have more to say than just "picking up the bill".

We are paying these people and not getting the service required or desired, he added.

We also must always set a good example for our children.

It is a good idea to let law enforcement officers know when one expects to be gone from home for a while and they can keep an eye on your home.

Those to call locally in case of trouble are the Latah County Sheriff at Moscow or the Resident Deputy here in Kendrick, Alan 'Al' Doney phone 289-4031.

Surprise For Anniversary
A surprise anniversary party and cake honoring the 33rd wedding anniversary of Mr. and Mrs. Lawrence Helmgartner was a part of the evening's activities. The cake was baked and beautifully decorated by Mr. and Mrs. Manning Onstott and served with a Jello dessert by the serving committee for refreshments at the close of the evening.

The next meeting will be held March 7th at the Fraternal Temple beginning with a 6:30 dinner. Troy will visit Kendrick. Mr. and Mrs. Andrew Cox will show pictures and narrate their recent journey to the Holy Land.

The Lecturer announced that the meeting of March 21 will be talent night. The theme will be "Through The Years". Everyone please be thinking of this and help out with our talent show. All kinds of acts welcome—vocals, skits, readings, musical, etc. Let's all come out and have fun.

Our thought for the day was—Reading the fine print will give you an education. Not reading it will give you an experience.

Road Foreman Thanks For Help

By Lloyd Craig
First of all I want to thank the Kendrick School Board, Supt. Don Blakeley and the bus drivers for their cooperation so good on our recent road break ups and floods.

Without their help we would have been in bad trouble—the long and excessive hard winter, the freezing weather and then the thawing conditions were just too much for the gravelled roads in the Potlatch Ridge area. Without the help of all the people we could not, of kept all the roads passable.

Roads are a costly item. Nez Perce County has already spent more money this winter for snow removal than they spent all last year for maintenance. When they have to spend money for snow removal and build new bridges like they have had to do in the past year it doesn't leave enough for gravel and upkeep of the roads.

I consider that this is the worst winter on the roads that I, as a road foreman, have seen in this area for the past 28 years.

So please bear with us—we are doing all we can. The Wauncher Grange will soon be back to normal travel conditions. Later repair in the summer will repair the oil and do the rip-rapping of the road beds. The stream bed will be straightened and relined to prevent future flooding. It will take time and money to repair the damage.

Apparently the Washington's birthday holiday for the post office and other firms who might observe it caused a delay in returning our pictures for this week's issue. We're sorry about this but it was apparently something we didn't plan on.

Firemen's Crab Feed a Success

Genesee—Members of the Genesee Community Firemen, Inc. heard a report Monday night that their annual crab-feed held Saturday was a definite success. The preliminary report was made at the regular monthly business session of the group.

John Baldus reported that gross income from the crab feed was slightly over \$2900 and expenses between \$1900 and \$2000. Baldus said these were just preliminary figures, since some of the bills still have not been received.

The crab feed was a successful affair with attendance more than any previous year. So large was the attendance that supplies of crab and baked beans were exhausted well before official serving time was over. The firemen expressed their apology to any who might not have been served and said the response to the crab feed was just more than expected.

Thanks to Ladies
The firemen were unanimous in their appreciation of the work done by firemen's wives, both at the dinner and also in preparing the potluck, salad, sauce, dressing and then in helping clean up after the meal. All the firemen agreed the crab feed couldn't be put on without the fine help received from the ladies.

Council Present
All members of the city council were present at the meeting to discuss requirements for memberships in the Fire Department. After a frank and honest discussion it was decided to appoint a committee of firemen and councilmen to work together to bring firemen and councilmen into agreement to prevent misunderstandings. Both the firemen and the council members felt that the prime consideration was the effective ability of the department to protect the people of the area.

The name of Jack Spangler was approved for membership. Mr. Spangler's name will now be submitted to the city for council approval.

Rapid Thawing Causes Flooding

Rain and melting snow again pushed the Potlatch up and over its banks Wednesday of last week flooding areas in Kendrick, Genesee and Juliaetta. Cow Creek in Genesee was also swollen beyond its banks but not so severely as it was several weeks ago.

The streams began rising rapidly Wednesday morning and up mid afternoon the Brocke Fertilizer plant west of Kendrick was ankle deep in water and the old mill pond was full for the first time in many years.

The Eril Woody place in Juliaetta again bore the blunt of the high waters as part of the fill put in to protect the NP bridge was washed away and the Woody's chicken house, which was threatened during the last flood, was washed away Wednesday afternoon.

Up in Genesee, water from Cow Creek again spilled onto the "flat" and was right at the bottom of the bridge roadway.

Leland was isolated Wednesday evening and night due to flood waters. Wauncher Grade was closed because of washouts. Sperry Grade could be travelled but anyone wanting to come to Leland that way couldn't cross Pinecreek Bridge due to flood waters over the bridge and a washout there.

Several people were in Kendrick and had to come home by Cedar Creek Grade through Southwick.

The water was over the bridge here in Leland and all over the flatlands. The bridge to Walter Wolfs was under water as was the one at Gordon Peters and Bill Thomtons but none washed out.

Thursday morning the road was fixed by Pinecreek Bridge and traffic could go to Kendrick down Sperry Grade.

What A Correspondent Observes

By Juanita Craig
Being the wife of a road maintenance Foreman, I have often observed people in their wants and their attitudes concerning roads and transportation.

Most people are considerate and realize the road men are out there working long, hard hours so the public can travel. For this some speak out their praise and this the men appreciate very much.

The road men also take some very bad abuse from the public as some taxpayers think they are the boss and all things should be done their way to suit their benefits and not always what is best for the public as a whole.

My husband has often said "I once was a farmer, now I am a road man and I don't know the first thing about farming". Every man to his own trade.

In the recent floods in and around Leland, I have witnessed my husband at work and he has taken some unnecessary abuse from some people—abuse that was uncalled for and unprovoked.

I am proud to say he acted like a gentleman and took it all even though he had to bit his lips to keep from acting just like the ungrateful people that were dishing it out.

I observed one man running a road block and after running through both ends—cursed my husband, using foul language on him just because he was doing his job and it inconvenienced this party.

My husband took it all because it is part of his job to get along with people.

This man was committing a crime and could have been subject to jail and/or fined. My husband chose not to press charges.

Whenever anyone runs road blocks or destroys signs or deliberately disobeys a road sign—they are subject to fines and/or jail terms.

Nez Perce County lost several road signs and flares at the flood site on Wauncher Grade because of someone picking them up or because of just plain vandalism. These signs or flares could save someone's life. Anyone running road blocks or destroying signs or taking them could be guilty of causing someone to lose their life.

Please, lets all help these men in their jobs. They are out there working in all kinds of weather and lots of hours that people just don't realize. They are out there so we can all travel. Lets cooperate with them so they can keep the public traveling safely.

Personally, I feel the road crew is to be commended and deserves all praise they can get from the public.

First Grade News

This week we made three corner hats like George Washington were to honor his birthday. We watched a film strip about his life and found his home state, Virginia, on the map. In numbers we mastered the concept that any number plus zero is that number. (Ask one of them to add a number like 78410528 plus 0 and see.)

Mrs. Heinemeyer's 1st & 2nd Grades Since the beginning of the new year, we have been working with a new individualized reading program. This program, Scott, Foresman Reading Systems lets each child work at his own pace. It is composed of several main components—a study-book, stories to read, stories read by the teacher, and additional activities, to do with each lesson. All the materials are colorful and the subject matter is varied. We have read fables, informative selections, stories for enjoyment, problem-solution stories, and many more kinds. The reaction from the students has been enthusiastic, and their progress has been rapid. Everyone is enjoying their reading experience in our new program.

5th Grade News

In Social Studies we are drawing maps of Washington, D. C. We selected new officers. President is Mark Allen; vice president, Cindy Heimgartner; secretary, Dana Tyler. We have four people absent.

A man cannot leave a better legacy to the world than a well-educated family.—Thomas Scott

Mrs. Herman Bielenberg were Leo Bielenberg and Mr. and Mrs. Harry Meachum and family from Lewiston. Mrs. Chester Qualey entertained the Monday Bridge Club on Monday afternoon. Guests included Mrs. W. W. Burr and Mrs. Mahlon Follett. Prizes were won by Mrs. Follett and Mrs. Robert Berger.

Mr. and Mrs. Raleigh Hampton of Clarkston were Sunday morning visitors in the Dick Scharnhorst home and were dinner guests of Mr. and Mrs. Adrian Nelson.

Many Topics At Civic Meeting

Genesee—The Genesee Civic Association met Thursday, February 17 at Carter's Charcoal Broiler. About 45 attended the dinner, preceding the business meeting conducted by Eugene Woodruff.

Ed. Morken, Jr. legislative chairman reported on several bills which are before the legislature in Boise at this time. Adrian Nelson, chairman of the transportation committee, reported on the poor condition of the county roads, due to recent flooding and bad weather. He announced that a hearing will be held on the 22nd and 23rd of March in Lewiston on proposed routes for changing the highway to Lewiston. Information on the proposed routes is available at First Security Bank and at Springer Insurance and he urges the citizens of Genesee to study the plans and make known their opinions.

Projects committee chairman, Leonard Singhouse said that projects suggested are still being studied for the idea and urged anyone with feasible ideas to let him know. President Woodruff announced that Supt. Les Dihal would head the Education committee with Tom Boyd and Bill Wood as committee members. It was announced that the annual meeting of the Genesee Medical Dental Association will be held February 28th at 2 p. m. at the Firemen's Hall, and urged all members to attend.

Mr. Diehl was introduced and presented a program on the Needs Assessment that is being conducted by the Genesee School District. He told those present, that he and Tom Boyd, chairman of the school board, have met several times with the State Board and that a Steering Committee has been set up. From this, other committees will be formed and the assessment of needs will be conducted.

Diehl also spoke on the Driver Education program for the district. He commented on House Bill 425, a reorganization and consolidation bill which is in Committee in Boise. A question and answer period followed his presentation. About 85 people attended the business meeting.

Landholder-Sportsmen Meeting
 The winter meeting of the Idaho Landholder Sportsmen Council, Inc. will be held at the Boise headquarters building of the department on Tuesday, February 29. Invitations have gone out to members of the State Legislature and to sports-minded people interested in the program.

State Chairman Dave W. Bivens, says that a chill feed will precede the business meeting, a "no-host" luncheon will be catered in the department meeting room, 600 South Walnut, Boise.

This obviously was the intent of Congress which provided a program intended to "replace, in part, earnings lost due to retirement, death or disability."

Auxiliary Met At Scharnhorst Home
 Genesee—Bielenberg-Schooler Unit No. 58, American Legion Auxiliary, met Wednesday, February 16th at the home of Mrs. Carl Scharnhorst. Mrs. Scharnhorst, president, conducted the meeting. After secretary and treasurer's reports, committee reports were given.

Mrs. Wm. DePell and Mrs. Ray Stout reported on Girls' State. The birthday dinner was discussed and it was decided to have it on March 18th at Carter's at 6:30 p. m. A further discussion was held and potluck was decided upon with those attending bringing their own table service and one or two potluck dishes. Rolls, coffee and dessert will be furnished. All Legion members and their wives and Auxiliary members and husbands are invited to this annual dinner. It commemorates the birthday of the American Legion. Mrs. DePell was asked to contact Mr. Carter about the arrangements. A decorative committee was appointed. Mrs. John Hickman and Mrs. Laverne Anderson will serve on this. All members are asked to meet at 3 p. m. the afternoon of the dinner to set up tables and decorate.

After the business meeting, the hostess served refreshments. At 3:30 p. m., the Junior girls interested in Girls' State were guests of the group.

The next meeting will be March 15 at 1:30 p. m. at the home of Mrs. Ed Morken, Jr.

Snow Bird Camp Fire Girls

Genesee—The Snow Bird campfire girls met Monday after school in the meeting room at Genesee Union with Randa Allen, president presiding over the business session.

Plans were discussed, and articles are being made for the Father-Daughter banquet to be held March 14 at the Elks Club in Moscow.

The group has ordered The Trail Seekers' Desires.

Tammy Flodin served refreshments. Mrs. Robert Pace and Mrs. Wayne Smith are group leaders.

Community Church Notes

The Youth Choir will sing Sunday, February 27th during the morning worship service. Practice will be on the Saturday before at 1:00 p. m.

There will be a Coffee Hour in the basement of the church immediately following the morning worship hour.

RABBIT SEASON CLOSE WILL BE FEBRUARY 29

Idaho's six-month long cottontail and pigmy rabbit hunting season, which began last September 1, ends statewide February 29, the Fish and Game Department reminded hunters today.

Most rabbit hunters lump pigmy rabbits with cottontails in the mistaken belief that they are both members of the same species. The small size of adult pigmy rabbits causes hunters to classify them as young cottontails, but this species is found in several Idaho counties. They were classified as a game animal several years ago by the Fish and Game Commission.

The bag limit for rabbits this year is eight of either species or eight in the aggregate of cottontail and pigmy rabbits.

There is no season on or limit for jackrabbits or snowshoe hare or for varmints or unprotected birds. These species are English sparrow, crow, raven, magpie or starling.

All hawks, owls, and eagles are protected by state or federal laws or both. Kingfisher, cormorant and pelican were given complete protection by the State Legislature this year.

The philosophy behind the Social Security has been that it is more desirable to pay higher benefits to those whose incomes are low than to pay benefits to those still working for substantial

IDAHO DEPT. OF EMPLOYMENT

Frank J. Hartstain, Moscow office manager for the Idaho Department of Employment reported today that the job picture remained relatively unchanged during the past week. Although fewer jobs were received during the week, the total number of workers placed on jobs was seven just one less than the 8 given job finding help during the previous week. At the end of the week there were eleven jobs still open compared with 14 open a week ago, and 13 jobs available at the end of the 3rd week in February 1971. Jobs open include one for a cook, printer, auto mechanic, sawyers, and domestic workers, Hartstain said.

The number of persons seeking unemployment insurance benefits throughout the county remained the same, at 466 as at the end of the previous week. A year ago there were only 372 idle workers seeking jobs pay.

Twenty-nine persons filed new claims for benefits during the week, the same figure as reported for the previous week, and three less than the number seeking compensation for the first time during the same week a year ago. Of the total currently seeking benefits, Hartstain said, 148 were workers who were filing claims against states other than Idaho. In the immediate Moscow area the total was 248, compared with 241 a week ago, and 190 during the same week last year. At Genesee the totals were 15 now, 21 last week and 14 last year.

The Troy-Deary-Bovill area had 113 workers idle, compared with 111 last week and 80 a year ago. At Kendrick the totals were 16 now, 18 last week, and 13 last year. Seventy-one checks are currently going into the Potlatch area compared with 72 last week and 71 during the third week in February a year ago. Three Elk River residents were seeking benefits through the Moscow office, the same as a week ago, and one less than a year ago. Most Elk River residents file claims through the Orofino office as Elk River is in Clearwater County.

A new barber nixed a customer badly in giving him a shave. Hoping to restore the man's feeling of well-being, he asked solicitously, "Do you want your head wrapped in a wet towel?"

"No thanks," said the customer, "I'll carry it home under my arm."

The doctor diagnosed the master sergeant's illness as hydropey.

"What's that?" queried the tough old soldier.

"Too much water in the body," explained the doctor. The whiskey-drinking top-kick was indignant. "I've never drunk a drop of water in all my life, doc!" He paused, then sadly concluded, "Must have been that damned ice."

OPENING HUNTING DATES OTHER ITEMS DECIDED

The Idaho Fish and Game Department again followed the practice of establishing opening dates early in the year to allow hunters to plan ahead for vacation time to coincide with their favorite big game hunting season. Closing dates for these seasons and other regulation details will be set at a special meeting of the Commission in May.

Saturday openings for general big game seasons for elk and deer will be September 16, October 7, October 21 for the three main seasons, and October 28 for the late whitetail deer season in the panhandle region. Virtually no changes from last year were made in opening dates for general hunting seasons, controlled hunts or archery seasons.

The Commission also joined with the U. S. Fish and Wildlife Service in making an urgent request to the U. S. Corps of Engineers to provide the department with 4,000 acres of elk winter rangelands in the Smith Ridge area of the North Fork of the Clearwater River. If granted, this would constitute only partial mitigation for the losses of elk and deer winter range in the area, which is critical to the wintering need of game herds in the reservoir area being flooded beyond Dworshak Dam.

The commission pointed out that the additional 4,000 acres would help in providing perpetual browse protection for the big game animals, but that additional measures would be necessary if the elk and deer were to be maintained. They concluded that this would constitute the most feasible method for the Corps of Engineer to fulfill their legal responsibility for mitigation of the losses to wildlife in the area.

Miscellaneous actions of the commission included a study of the big game salting program for this year; approval of purchase of a backhoe attachment for a tractor at Market Lake; approval of disposal of surplus gravel at the Fort Boise WMA; approval of cooperation on a coyote study with the federal agencies and Idaho Wool Growers Association with the department's share \$247; approval of an electronic distance measuring meter for engineering; approval of the Dingell-Johnson research projects for another year; approval of a land exchange at Stanton Crossing on the Big Wood River with the Highway Department; approval of a Dingell-Johnson statewide public fishing access project; approval of the construction of two fingerling raceways at Hagerman Hatchery; approval of some reconstruction work at Cove Arm Lake; approval of out-of-state travel requests; establish the cougar as a game animal beginning April 1, and also, under the terms of the law, open the season to cougar beginning on that date with the idea that more consideration will be afforded the cougar at the May Commission meeting when complete big game hunting seasons and regulations will be established.

The commission also met with the State Parks Board in the Headquarters office building and held a discussion with Mr. James Stokes, the planning consultant, who is initiating the

program with the department. The commission also increased the allotment for beaver from 15 to 85 per permit number 22 in Slug Creek in Caribou County with a season of October 15 March 31.

IT HAPPENED WAY BACK WHEN

Kendrick Gazette—Feb. 26, 1942
News of 20 Years ago (Feb. 1922)

Hund-Parks Wedding—A pretty home wedding was solemnized Sunday at 1:00 o'clock when Hugh Parks and Miss Kathryn Hund were united in marriage at the home of the bride, by their pastor, Rev. Hall. The bride was gowned in Pekin blue satin. The groom also wore a suit of blue. They were attended by Miss Elizabeth Hund and Homer Parks. Immediately after the ceremony a lovely wedding dinner was served. The bride is the daughter of Mrs. Jennie Hund of Leland while the groom is the son of Mr. and Mrs. R. B. Parks, near Leland.

I Am Your Town
Make of me what you will—I shall reflect you as clearly as a mirror throws back a candle beam. If I am pleasing to the eye of a stranger with in my gates; if I am such a sight as, having seen me, he will remember me all of his days as a thing of beauty, the credit is yours.

Ambition and opportunity call some of my sons and daughters to high tasks and mighty privileges, to my greater honor and to my good repute in far places, but it is not chiefly these who are my strength. My strength is in those who remain; who are content with what I can offer them and with what they can offer me. It was the greatest of all Romans who said "Better be first in a little Iberian village than be second in Rome."

I am more than wood and brick and stone; more than flesh and blood—I am the composite soul of all who call me Home. I am your town.

BREATHING VAPORS
Breathing any air these days can be hazardous. But the air in operating rooms may be especially damaging for women who work there. Anesthetic vapors are associated with a high rate of miscarriage among surgical nurses and female anesthetists. Research at Stanford University showed that nearly 80 percent of pregnancies among surgical nurses ended in miscarriages compared with 9 percent among other nurses. Female anesthetists had a 38 percent miscarriage rate compared with ten percent among women doctors in non-surgical specialties.

Dr. David L. Bruce of Northwestern University says the statistics do not prove a cause and effect relationship between the vapors and spontaneous abortion. But he points out that inhaled fumes are retained in the body for some time and may inflict harm. Further, experiments with animals have produced similar results. The offspring of rodents exposed to anesthetic vapors have demonstrated a significantly high percentage of birth defects.

Pine Creek Rags!
 Pine Creek, last week, near its entrance to the Clearwater River, was a raging torrent following the warm temperature and wind, causing it to undermine an end pier of the bridge, on the access road to the Ken Steigers feed corral.
 The bridge was lowered four feet on that end, but the sudden drop in the volume of the stream, and frantic placing of cables anchored to trees, which was finished by flashlight beams, prevented it from being moved downstream.

Several choking trout were found thrown out along the banks of the streams, into the road, by the force of the wild water! Many feet of good topsoil was carried down the river from the farmlands and pastures far above.
