Three men, ages 18, 19 and 26 were being held in the Latah county jail Wednesday morning after being ap-prehended by Latah Deputies Dave Wilson and Jerry Hendren in Kendrick in connection with several break-ins of Kendrick business firms early Wednesday morning.

NO. 48

Although details were still lacking at this writing, Elton Walker, Chief Deputy, said it had been determined that Blewett's Grocery, Fleming Truck and Equipment and the Ante-lope Inn had been broken into. Preliminary investigation revealed very little had been taken, Walker said. Only small change was missing at Blewett's, some hand tools from Flemings, and there was no report on the Antelope. Pry marks on the door of the Kendrick Garage indicated an attempt had been made to enter that business.

Deputy Wilson said he reported the robberies to the Moscow office at 3:45 a. m. The suspects were in cus-tody at 4:05. Walker said Wednes-day morning that he would rather not release the names of the three in custody until they were questioned further.

First Grade News

Everyone has returned from a very nice Thanksgiving vacation. Now it is time to get ready for Christmas holiday, with all the goodies and pretty trimmings. First grade children are busy prac-

ticing a play, learning some new songs, also enjoying the old ones.

Students with good writing and good stories: Zada Simpson, Cindy Hadley, Melisa Dawns, Ty Spencer, Galen Browning, Sherry Gillispie, and Jeanette Nye.

Grade 2 News

Last week was short because of our Thanksgiving vacation so we haven't much news to report.

Tuesday, those wishing to, attend-ed a National School Assembly at Kendrick. It was a snake show. It was optional and about six of our class didn't attend. We saw many kinds of snakes and lizards. It was very interesting.

Wednesday a new student enrolled in our class. His name is Daryl Riedinger and they live in Juliaetta now. Welcome," Daryl.

We all enjoyed our short break and came back refreshed and ready to

SCIENTIST REPORTS RENEWED HOPE FOR CHEMICAL CANCER VACCINE

A possible step toward a chemical vaccine against cancer is being worked on at The Salk Institute, in San Diego. Unlike most vaccines, it is a synthetic chemical, constructed to resemble a chemical on the surfaces of cancer cells. In the ini-tial experiments, this chemical stimulated enough immunity to delay the development of tumors in mice that were given cancer.

It had generally been thought that vaccination against cancer would not be practical, since there are so many kinds of tumors. A different vaccine would be necessary to protect against each type. However, it was report-ed in the last few yars that virtually

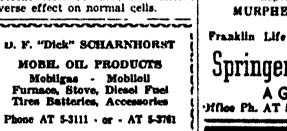

all tumor cells have on their surfaces a chemical structure that reacts in laboratory tests with a certain plant

protein. Normal cells also have this structure but only during a certain stage of cell division.

a vaccine based on that structure short. might be able to stimulate the immune system to respond against all tumor cells without doing much harm to normal cells.

Dr. Shier first had to analyze the key parts of the chemical and then synthesize a replica. He injected about that." mice with this substance and then, "An occas later, injected them with cancer cells or a cancer-causing chemical. The results were that the development of tumors was considerably delayed, in most cases, by comparison with the appearance of tumors in control of mice not given the vaccine. Three

and they promise only partial protec-tion against cancer. But Dr. Shier has opened up an approach to cancer once thought hopeless, and he is still pursuing it in his work at The Salk Institute.

Work, it seems, has a way of getting in the way of recreational.

A small girl came home from school one day. Her mother saked how she did. "I was the smartest one in the whole class today" she informed her mother.

"Really ? What happened ?"

"We wrote on the blackboard," said the girl proudly, "and I was the only kid in the class who could read my writing."

Advice is never appreciated for if : it turns out well the recipient thinks it was his own ides, if it turns out badly, he eternally blames the giver.
