The bride designed her own wedding gown, which was of white nysquare nock, empire waist with a bodice of rosepoint lace. The sleeves had a deep cuff and a ruffle encircled the skirt and self-train. Her elbow length veil was trimmed with rosepoint lace. The dress was made by a family friend, Mrs. Marie Schwartz. The bridal bouquet was a nosegay of tiny white roses, carnations, baby breath, and holly.

Maid of honor for her sister was Janet Fuhriman. The bridesmaids, all sorority sisters of the bride, were

At a dinner for distinguished persons in London, an elderly gentleman was seated next to a Chinese who simply nodded and said nothing. After the soup course, wanting to be friendly, he turned toward the Chinese and asked hesitantly: "Likce soupee ?'

The Chinese looked at him curiously, then simply nodded again, and said nothing.

After the dinner, the elderly gentleman was startled when his companion was called on to say a few words. He rose, bowed, and in permon Market.

Sitting down amidst the applause, he turned to the elderly gentleman, smiled, and asked politely, "Lakeo speechee?"

#### Glaucoma can lead to blindness

Glaucoma is a serious eye disease which can lead to blindness.

Glaucoma occurs most frequently in persons over 30 and affects at least two per cent of those over 40. In the United States there are more than 50,000 men and women completely blind from the disease, and almost 200,000 more are blind in one eye.

There probably are more than 1,-0000,000 with undiagnosed glaucoma and it will cause 3,500 new cases of blindness each year.

Most often, glaucoma can be controlled and blindness can be prevented, if the disease is discovered early in its course, the Idaho Medical Association points out.

One type, chronic glaucoma, causes no symptoms until severe damage has been done. Chronic glaucoma can be detected by an ophthalmologist, a medical eye specialist, who uses an instrument to measure the degree of pressure in the eye-another instrument to measure the size of the visual field, or side vision. Adults over 40 should have both tests during eye. checks.

Another type of the disease which affects people over 40 is called acute glaucoma. In this ailment the pressure suddenly rises to a very high level. The attack is accompanied by severe pain, redness and markedly blurred vision. Most often the patient is hospitalized for surgery to relieve pressure. Surgery is successful in most cases, but prompt treatment is
