### An old Russian peasant was going along the road one very cold morning, when he saw a bird lying on the ground. At first, he thought it was dead, but when he picked it up, he

felt a faint heartbeat. He tried to revive the bird by

blowing on it and putting it under his sheepskin coat but to no avail. He was about to throw it away, when he chanced upon a cow that

had just dropped a large pancake of hot manure. The peasant buried the bird in the manure up to its little beak and went on his way. After a time, the hot manure did its work and the bird revived.
