The Latah County weed control officer, Homer Futter, is waging war against a new foe: the spotted knapp weed.

weed. The weed, described by Futter, John J. Hasfurther, bassed away July 25th in Spokane. He was born in Genesee and received his early ed-before but this year "there was kind of an explosion." Futter stated there are 100 acres of the weed along Bear Creek above Kendrick that have been touched with herbicide. Spotted knapp weed resembles a Canadian thistle, has a light blue flower and not much leaf surface The weed takes over land that is not cultivated. He discussed the weed problem Monday with the Latah County commissioners and told them that, with the exception of two or three hour's work, he had sprayed most of the spotted knapp in the country outside of the Bear Creek area. The commissioners will meet with Futter again later this week to consider money to spray the Bear Creek area

DISCOURAGE INTRUDERS WHILE AWAY FROM HOME

Your home can invite burglars by its appearance, so take precautions to make the house appear occupied while you are vacationing.

Here are some tips on safe-guarding your home while you are away. *Cancel deliveries, mail, newspap-

ers, milk. *Turn the telephone bell down if

Possible. *Use a timing device to turn on a

bedroom light or radio. *Notify the police and neighbors that you will not be home.

*Park a second car in the driveway. *Arrange for someone to cut the grass.

*Don't put an announcement of your absence in the paper or discuss it with strangesr. *Leave an extra key with one of

your neighbors so that your home may be inspected by police or neighbor if necessary. *Set trash cans inside.

News for the Hearing-Imparied on KUID-TV

Moscow-The Captioned ABC Eve ning News, a special edition of the ABC Evening News captioned for the hearing-impaired, will be seen nightly at 10 p.m. on KUID-TV 12, begin-

ning Aug. 5. The broadcasts, originating from WGBH-Boston, use the sound and pictures of the regular ABC Evening News. Printed captions are added to communicate the sound portion of the broadcast for those who are hearingimpaired. The nightly news services provides hearing - impaired viewers with a regular daily news program.

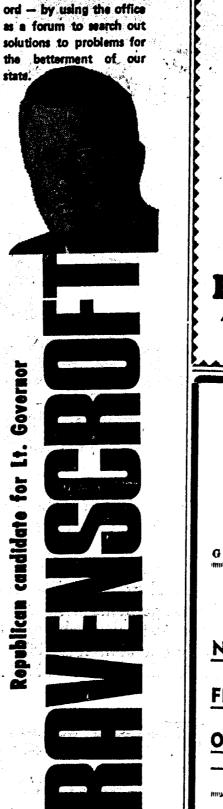

"We'll use the captioned news as often as it is available to us," said Pete Haggar', KUID-TV station manager. "Right now it will be shown Monday through Friday evenings at 10, or whenever our regular programming schedule ends."

By special arrangements with the American Broadcasting Co., WGBH tapes the ABC Evenings News at 6 each evening. A team of caption writers in Boston produces captions in time to present a full broadcast each night.

Programs specially prepared for the hearing-impaired in the past have traditionally used a second "commentator" who would interpret the news by sign language. But for the thou-sands of hearing-impaired who have never had to learn sign language, the system was impractical.

The Captioned ABC Evening News is an outgrowth of WGBH's earlier success with captioned versions of general audience television. In July and August of 1972, the station pre pared eight captioned versions of the French Chef. The resulting success led the station to the agreement with ABC. WGBH developed the techniques and the technical system now being used under a grant from the Media Services and Captionel Films Branch of the Bureau of Education for the Handicapped.

Pets are Worth Saving

Kendrick

The city of Lewiston impounds about 800 dogs a year. Less than 25% of these are reclaimed by their owners.

The animal shelter receives about 2,500 additional ania year. About 400 are placed with new owners. The rest are given euthanasia. The problem grows with each passing year. Please help us reverse this trend.

You can help in two ways:

BE A RESPONSIBLE DOG OWNER-unless you are a breeder, have your dog or cat spayed, or neutered by a veterinarian. (Yes, the statistics on cats are also painful). Write or call us for a pamphlet on the effects of neutering and spaying.

SEND US PEOPLE WHO WANT A DOG—The shelter has healthy pets for adoption. If they are old enough we have them spayed. They have had distemper shots.

If we all just recognize our problem maybe we can solve it.

It's Eye Fatigue

Although most physicians agree that there is no such thing, a good many people are concerned about "eyestrain" from time to time, notes the Idaho Medical Ass'n.

There is eye fatigue, however it is usually not serious.

More than half of all Americans have something wrong with their eyes, and about 40 per cent of them wear glasses.

Despite the importance of vision many people do not really know what is good or bad for their eyes. Glass-es may improve vision, but they do not cure defects.

Nothing, not even eating carrots, can cure nearsightedness.

Salmon Fishing Ends

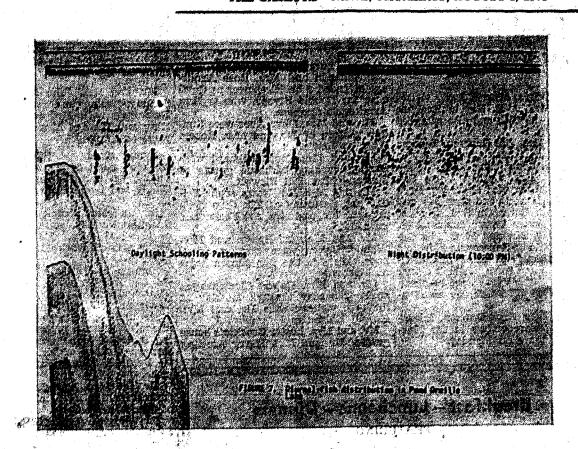

One of Idaho's poorest chinook salmon sport fishing seasons in recent years ends July 31. Waters still open to salmon fishing include the Clearwater River from its mouth to the North Fork of the Clearwater; the main Salmon River from its mouth supstream to the mouth of Redfish Lake Creek; the Little Sal-mon River; the Middle Fork of the Salmon River, except fo rthe Dagger Falls closure; lower Big and Loon Creeks; Marsh Creek to the mouth of Cape Horn Creek; the Lemhi River below Hayden Creek; and the Snake River except the 400 foot closure be-low Hells Canyon. ATKISON SAW SERVICE

To buy a high quality, endurance-proven Homelite or Stihl saw, or to have an old one sharpened or repaired, see Atkison Saw Service at Highway 95 in Potlatch, phone 875-4271.

Atkison Saw Service is authorized to sell the best lightweight chain saws available. This is only natural, since they handle the famous Homelite saws and Stihl saws. You can't go wrong, when you patronize Atkison Saw Service. They have only the best.

We could tell you at length about the automatic centrifugal clutch for less vibration, the pump to keep lines from becoming plugged with sawdust, and many other superior features, but the quick way to become convinced is to ask for your free demonstration. The number to call is 875-4271.

If you own a chain saw and its performance is not up to par, we suggest you let the experts at Atkison Saw Service give it a check up. Sharpening and repairing of every type of saw, with factory replacement parts when needed, adds up to "satisfaction guaranteed" service at this fine firm.

We, the editors are pleased to commend their over-all record.

The Lewis & Clark Savings & Loan Association in Clarkston, is one of the largest and most progressive savings institutions in North Idaho and Washington. During its years of service, this association has helped people of the area to own their own homes, and has provided a depository for savings that have always paid the highest rate of dividends. Your savings account is insured by the Federal Savings and Loan Insurance Corporation for up to

\$20,000.

It is interesting to note that savings and loan associations each year make approximately 50 percent of all the home loans in this country, and some 38 million people have over 100 billion dollars invested with these institutions which number about 7,000 in the United States. We invite you to visit them at 303 Diagonal in Clarkston, or call 758-5501 for information.
