The day of the party arrived and the boy, all duded up, started out for the party. In about 5 minutes, the mother looked out and saw the boy returning home with a dejected look. She was furious! She met him at the door and said Johnny, I told you not to cuss and I warned you what would happen if you did, and here you paid no attention to your father and I. Go immediately to your room and stay there until your father

comes home."

Johnny: "But Mom, listen to me,"
and he started to cry
Mom: Johnny, I will not say anoth-

political subdivision?"

Senate Joint Resolution 114 is a proposed amendment to Article VIII of the Constitution of the State of Idaho, which provides a new section to Article VIII relating to environmental pollution control facilities and tax free county revenue bonds for obtaining such facilities.

The proposed amendment provides that counties may issue revenue bonds upon approval of a majority of electors at a special bond election for the purpose of acquiring, constructing, installing, and equipping facilities designed for environmental pollution control. Such facilities could then be sold, leased, or otherwise disposed of by the county to private persons or

The proposed amendment further provides that such bonds may not be secured by the taxing authority of the State or its political subdivisions. It is intended that the revenue from the sale, lease or other disposal of the facilities will provide the only source

of payment of the bonds. Among the results intended by this amendment is to enable business to obtain anti-pollution equipment at lower cost and in some cases enable some businesses to obtain such equipment which could not otherwise be financed.

ATTORNEY GENERAL'S STATEMENT OF MEANING AND PURPOSE S.J.R. No. 118

Senate Joint Resolution 118 is a proposed amendment to Section 1, Article XX of the Constitution of the State of Idaho, which would change the manner in which the legislature is required to publish the text of proposed constitutional amendments, and would add a new provision requiring the legislature to publish arguments for and against proposed amendments.

Section 1, Article XX of the Constitution of the State of Idaho presently requires the legislature to submit proposed constitutional amendments to the people for ratification at the next general election following the legislative session at which the amendment is proposed, and in connection therewith, to publish said amendments.

(1) For at least six consecutive weeks prior to the next general election; and

(2) In not less than one newspaper of general circulation published in each county in the

The proposed amendment would change the above stated requirements by providing that the legislature publish the text of proposed constitutional amendments, as well as arguments for and against such amendments:

(1) Three times, rather than "at least six times" prior to the next general election; and (2) In all newspapers qualified to publish legal notices, rather than "in not less than one newspaper of general circulation published in each county of the state."

Section 60-106, Idaho Code, currently details the qualifications of a newspaper that may publish legal notices in Idaho.

Frank Church thinks it's esissis ior an Di Company in Dallas to pay less foices than a gracer in Grangeville. It's hard to believe, but because of cushy tax concessions, many oil companies pay virtually no Federal taxes. Some of the biggest which count their profits in the billions...pay only 2 to 3 per cent in income taxes to the Federal Government. Yet, the ordinary corporation tax rate is 48 per cent! The grocer in Grangeville gets no special tax breaks. Neither does the farmer in Firth Why should big oil enjoy such special treatment? Well, big oil has influence, ... "lois of it. And politicians don't like to take on the giants. It requires guts to do that. It takes a Senator like Frank Church to expose the international oil cartel. He brought to light the inter-locking agreements in the Middle East through which the big companies controlled both production and price. He revealed the long buried secret of behinddoor dealings between the oil companies and the Government which led the Justice Department to abandon its own anti-trust case against big oil.

The Senator's hearings have earned him powerful enemies. But his findings will lead to tax reforms long overdue. For Frank Church is determined we must have an equitable tax system where every body pays his fair share and nobody...not even big oil ... get a free ride.
