Well Tuned Cars SAVE GAS!

It has been proven that a well-tuned conditioned car or truck provides better gas milage. With the energy crunch and high prices, motorists just can't afford to pour dollars out of the exhaust pipe.

That's why we recommend keeping your car or truck in the best mechanical shape at all times. And—we can help with a good tune-up job. Why not drop in or call and set up an appointment? It'll mean savings in money and gasoline.
