#### THE TALE OF RUNNING WATER

RUNNING WATER was an extremely beautiful Indian Maiden being wooed by two strong handsome braves, one called Long Arm and the other known as Falling Rocks.

Like all women, Running Water had a difficult time making up her mind, and finally in desperation went to the chief for help. He patiently listened to her problem and like all wise chiefs immediately went to the heart of her problem. "Running Water," he said, "when you choose a husband you want a good provider, and therefore I suggest that you send both young men out on a hunt. Select the one for your husband who returns

with the most game."
Running Water thought this was indeed an excellent idea and so the following morning she dispatched the two suitors in separate directions. She then sat down and waited,

Late in the afternoon Long Arm returned laden with every conceivable kind of game which he apread at the feet of Running Water and immediately proposed again. She carefully explained that in all fairness she must wait for Falling Rocks to return before she made her selection.

So Running Water waited, and waited. In fact she waited all night long but Falling Rocks did not return. (He never did return to the tribe.)

> Now this is why you will frequently see signs along our highways that say: WATCH

OUT FOR FALLING ROCKS

#### A Farmer's Wife

She got up in the morning and fed her hungry man, Then while he fueled his tractor up

she filled his water can He left instructions for the seed that she should haul from town. Then she grained the pigs and calves and threw some hay bales down.

She checked the fuel and water, in the old red truck,

would start to thaw.
Then chewed a piece of dried-up while checking sacks for flaws.

Back from town with barley seedbegan to make a pie, he stalks-"the tractor's stuck!" Needs her help—away they fly!
At last the ple is baking, must get
the meat and taters on,
But dinner's ready right on time,
with coffee black and strong.

The afternoon is just as bad, she flits from here to there, Dishes, washing, mow the lawn-

then glue a broken chair. A salesman selling magazines (who has time to read?)

Another trip to the warehouse, for two more sacks of seed.

Supper's over, but the pigs have to have some shots, She tries her best to hold the beasts, while they squirm and flop.

They pause to check the garden, the

weeds are growing fast, Why is it that the weeds come first -and the corn comes up last?

Relaxing with the paper, and in his casual way, He wants know, "Well, Honey, what did you do all day?"
She groans a silent, inward groan-

but never in her life, Would she want to be anything else -but just a farmer's wife.

# MICROWAVE OVEN COOKBOOK

BY RICHARD DEACON

Microwave Ovens are truly an appliance of the future. While their greatest advantage has been the speed with which they cook food, this same speed has added an energy conserving quality to the oven.

This is a most attractive feature.

Let the expertise of the professionals who developed and tested these recipes be your bridge to the convenient and exciting world of microwave cooking. It is an adventure you'll enjoy.

CLARKSTON MENTIONED IN ITALIAN NOTEBOOK The name Clarkston, hand written

in the back of a notebook was found recently by Darrell Green, son of Mr. and Mrs. Chet Green, Genesee. Darrell is presently in Torino, Italy on an LDS Church mission.

The article concerned the setting of a world's record for throwing a rock with a sling.. The article stated Clarkston, Idaho, rather than Wash.

Last year thousands of acres of fine grassland went up in flames because someone was careless with a match or a smoke. Range fires also kill livestock, destroy supplies of hay and grain, burn down ranch houses and barns; yes even take human lives so this year, more than ever beforehelp prevent range fires.

## Well Tuned Cars SAVE GAS!

It has been proven that a well-tuned conditioned car or truck provides better gas milage. With the energy crunch and high prices, motorists just can't afford to pour dollars out of the exhaust pipe.

That's why we recommend keeping your car or truck in the best mechanical shape at all times. And—we can help with a good tune-up job. Why not drop in or call and set up an appointment? It'll mean savings in money and gasoline.
