Jobs were filled in a variety of categories, such as farm jobs, demestic workers, secretaries and labories as well as in the trades and service industries. At the end of the week, only 12 jobs still remained open. These included a job for # Gran't writer, farm workers, secretaries, bookkeepers, cafe and domestic workers. An influx of students and student spouses has enabled the local employment office to refer work-

ers to most of the available jobs and job openings do not remain unfilled for very long, Hartstein said.

Hartstein's report indicated that a total of 43 persons filed new claims for unemployment insurance during the week. Most of those filing new claims were newcomers into the area although a few construction workers was the first time they had been out filed claims as they were laid off together in 20 years. temporarily from existing jobs in the lyocality. The number of persons continuing to claim benefits declined, however, from last week's total of 421, to the current figure of 413. Of the total of 51 persons who discon-tinued claiming benefits, most either returned to school or returned to work in school related activities. A year ago there were 224 persons in Latah County seeking jobless pay. Hartstein indicated that a large share of the increase is attributable to the fact that a Special Unemployment Assistance program is in effect pay-ing benefits to workers who are not "covered" under regular state unemployment insurance laws, and also due to the fact that a number of ex- When You Think of INSUITANCE . tended programs are also in effect at this time. > > OVER THE COUNTER DRUGS

Over the counter drugs, which are a two billion dollar a year business in the United States, can be harmful if they are misused, cautions the Id-aho Medical Association.

These drugs, which can be pur-chased without prescriptions, should be dated when you buy them. Some lose their effectiveness when stored, or they may become toxic.

Persons who know they are allergic to any drug should check the label to see if the home remedy contains that drug.

Do not use more than one home remedy at a time for the same allment. More is not necessarily better. Ingredients in one may increase the effect of those in the other, or they may combine to result in an adverse reaction.

Follow directions on the label. If you are under a physician's care for another ailment, or are taking prescription drugs, consult your doctor before taking over-the-counter drugs.

The cookbook planned for today's busy woman — and her family. Here are 45 home-tested dinner menus for those "in-a-hurry" days, when you really need the very latest time-saving tricks in food preparation. These menus not only feature many delicious family-pleasing recipes but also include market lists to make shopping easier and faster and tested timetables to help you manage those pre-dinner minutes.

The meals take a maximum of an hour of preparation; many take 30 minutes or less. And every one of them has the Betty Crocker "difference" — the assurance that they'll work for you. Every menu and every timetable has been developed in the Betty Crocker kitchens and tested by busy women and their families all across the country.

Well Tuned Cars SAVE GAS!

It has been proven that a well-tuned conditioned car or truck provides better gas milage. With the energy crunch and high prices, motorists just can't afford to pour dollars out of the exhaust pipe.

That's why we recommend keeping your car or truck in the best mechanical shape at all times. And-we can help with a good tune-up job. Why not drop in or call and set up an appointment? It'll mean savings in money and gasoline.
