Savings certificates of deposit from First Security. Every three months, we'll add the interest you earn to the face value of the certificate. So both principal and your interest earn interest for the next three months.

It's called compounding, and the end result is you earn more.

You can arrange to have your certificates automatically renewed at the then prevailing and advertised rates. This service assures you of continuing higher return on your savings.

They're convenient and they're high paying because the interest is compounded quarterly. They're safe because they're insured to \$40,000.

What better way to increase your earning power every three months? Here's how it works:

Annual Rate	Léngth of Time	Minimum Deposit Amount	One Year Effective Annual Yield
51/2%	3 months	\$500	5,81%
6%	1 to 2½ yrs	\$500	6,14%
