

Bird Seasons

Bird, waterfowl and trapping seasons lead the list of agenda items for the August meeting of the Fish and Game Commission.

Scheduled at the Department of Fish and Game's headquarters office in Boise, the 2-day meeting will begin at 9 a. m. Thursday, Aug. 12.

A public hearing has been set for 1:30 p. m. Thursday. Commissioners will consider department and public recommendations on both the upland game bird and trapping seasons, as well as the probable framework for the 1976-77 waterfowl seasons.

The department will present a financial report and the status of the state's steelhead run. Steelhead fishing season recommendations also will be made.

Dove Season

In a telephone conference last week Fish and Game Commissioners set the 1976 mourning dove season dates.

The dove season will open September 1 and run through September 19 in all counties. A bag limit of 10 doves with a possession limit after the first day of 20 doves was approved.

Commissioners set shooting hours from 1/2 hour before sunrise until sunset.

Farm and Ranch Rate High In Idaho

The rural atmosphere is a good place to raise children, however, the farm and ranch setting holds special hazards for children. This word from Wayne Fisher, Extension Safety Specialist, U/I Cooperative Extension Service, according to the 1975 Farm Safety Survey, during a year's time 800 children of less than sixteen years of age will be injured or suffer work related illnesses on Idaho's farms and ranches.

The farm and ranch work setting is inviting to the youngster. Children are curious about their surroundings. Often there is an opportunity for companionship with parents and others who are working. The sensation of a thrill may be provided by some activities. The types of accidents reported in the 1975 Safety Survey point up the multitude of risks children take.

The survey, according to Fisher, does point up safety educational needs. The children for example. Very close to one out of 5 victims was a person under 18 years. One out of 8 victims was a child at play.

Bee, Wasp, Hornet Stings Can Be Very Dangerous

While the sting of a bee, wasp or hornet, is only painful and annoying for some people it can be serious or even fatal for others, according to the Idaho Medical Association. More people die from allergic reactions to insect stings than from snake bites.

Physicians can take steps to prevent many of the transportation accidents. More details on farm and ranch accidents are available in "The Catalogue of Accidents and Work Related Illnesses—1975 Farm Safety Survey."

The survey, according to Fisher, does point up safety educational needs. The children for example. Very close to one out of 5 victims was a person under 18 years. One out of 8 victims was a child at play.

sensitive allergic persons, and prescribe medicine to take in case of a sting.

After a sting, it is important for an allergic person to react quickly to reduce the flow of venom to the bloodstream.

Wrap the wound with a cold, wet cloth, or wrap a cloth around ice and apply it directly to the sting.

Remember that bright colors and perfumes attract stinging insects. Destroy insect nests around your home.

You can be a smokejumper. It's easy. Just jump on every match or cigarette before you leave it, make sure it's out dead and won't cause a forest or grass fire.

Little precautions prevent big forest fires. Please observe all fire rules and help keep Idaho green and beautiful.

THANK YOU

from

EDWARD J. "ED" SCHMITZ

I would like to take this means of saying thank you to the voters of Latah County who supported me in Tuesday's primary election.

During the campaign I met many people and made many friends.

I would also like to say a special THANK YOU to those people who helped me personally.

Congratulations to Mike on a good campaign and I wish him Good Luck in the future.

Pets are Worth Saving

The city of Lewiston impounds about 800 dogs a year. Less than 25% of these are reclaimed by their owners.

The animal shelter receives about 2,500 additional animals a year. About 400 are placed with new owners. The rest are given euthanasia. The problem grows with each passing year. Please help us reverse this trend.

You can help in two ways:

- BE A RESPONSIBLE DOG OWNER—unless you are a breeder, have your dog or cat spayed, or neutered by a veterinarian. (Yes, the statistics on cats are also painful). Write or call us for a pamphlet on the effects of neutering and spaying. SEND US PEOPLE WHO WANT A DOG—The shelter has healthy pets for adoption. If they are old enough we have them spayed. They have had distemper shots. If we all just recognize our problem maybe we can solve it.

**IT HAPPENED AWAY BACK WHEN**

Kendrick Gazette Aug. 7, 1936

Leland News—Miss Helen Powell, Lewiston, has organized a music class which meets at the A. G. Peters home every Thursday. Present members are Bernadine, Irene, and Jane Peters, Linda Parks, Myrtle Schmidt, Margaret and Dorothy Myer, Gertrude Widmer, Helen Newman, Robert Wegner, Rosalie Kruger, Ida Silflow and Betty Hoffman. Taskan—Mrs. Anna Harless and daughter, Ethel, took a long horse-back ride last week when they visited their old home on the north side of the Clearwater river. Mrs. Harless said it was her first trip back since they moved from there seven-teen years ago.

August 8, 1946  
 Herbie Millard, Kendrick, is a member of the championship Lewiston Junior American Legion baseball team, which proved their worth by defeating Boise, southern division champs at Lewiston, Sunday night, 4-2.

Mr. and Mrs. Clifford Candler and family have returned to make their home here, after spending the war years at Kellogg.

A pretty wedding ceremony was solemnized before relatives and a few close friends in the First Presbyterian church in Spokane Saturday afternoon, when Miss Doris May Adams of that city became the bride of Clifford W. Woodward, of Kendrick. The newly weds will visit his father, J. M. Woodward, before returning to Portland where both are employed by the government. His father and Mr. and Mrs. Glen Brazier, his brother-in-law and sister, of Genesee were present for the ceremony.

Elmer Cuddy hauled a new 85-horse power gasoline power unit up from Lewiston for Clem Israel's new saw mill.

50 Years Ago  
 Mrs. J. Tupker was hostess to the card club Tuesday afternoon. Honors of the afternoon were won by Mrs. Ira Hanson and consolation was given to Mrs. W. El English.

The truck of Ed. Wahl and Louis Heinrich ran together in a head-on collision 1/2 mile east of Jim Qualeys ranch Wednesday about noon. It is thought that no serious results will occur from the mishap.

Rev. W. W. Bell, lately returned missionary from India will show the public stereoptican pictures and nu-

**Job Opportunities Increase In County**

Job opportunities continued to increase during the past week. Frank Hartstein, Moscow office manager for the Idaho Department of Employment said that his office had helped 24 persons find gainful work during the first week in August. He said this was an improvement over the previous week, when 18 workers were given job finding help. During the first week in August year ago the total placed on jobs was 54. How- ever that figure, according to Hartstein's report, included 40 young workers placed on a special youth project and verified during the week. At the end of the week 20 jobs were still open. Included in the openings were jobs for cooks, waitresses, secretaries, a farm equipment operator, a back hoe operator, route driver, janitor, cashier and domestic work-ers.

The total number of persons continuing to seek unemployment insurance declined by just one from the previous week and was six below the figure reported for the first

merous curios in the Genesee Valley Lutheran church next Sunday.

Miss Mayme Krier, Misses Agnes and Sylvia Johnson, Miss Alfrida and Mr. Elvon Hampton spent Sunday at Moscow.

The American Legion will give their annual harvest ball in their hall on Thursday evening, Aug. 26.

Dr. and Mrs. N. M. Leavitt drove to Spokane Saturday where Mrs. Leavitt underwent an operation for the removal of her tonsils Sunday morning.

If the weather man still keeps on his good behaviour, the harvest in this section of the country will soon be pretty well cleaned up. The entire section is harvesting a splendid crop and the farmers and merchants are happy. Many peas on ranches near Genesee were badly shattered a week ago when a heavy windstorm visited this section. Colin Wilson states that his loss will run to a great sum near \$1,500, which is perhaps the heaviest individual loss sustained. Arthur Hampton is also a heavy loser.

A very pretty dinner party was given in honor of Miss Viola Loring Thursday evening at 8 o'clock by the Misses Gertrude and Margaret Sampson at the Glenn Sampson home.

week in August 1975. Currently there are 425 Latah County residents seeking jobless pay. In the immediate Moscow area the current total is 253, a week ago there were 254, and a year ago 271 persons receiving benefits. At Fotlatch, the figures remain stable, with a current total of 58, last week 55 and last year 54. There are currently 88 checks going into the Troy-Deary-Bovill area compared with 90 a week ago and 85 a year ago. At Genesee the totals are 14, 12 and 8 and in the Kendrick area the figures are 18, 15 and 15. Hartstein predicted that the totals should gradually decline for the next couple of weeks, then take a big dip when school starts. Insured unemployment should then remain fair-

ly low until adverse weather interrupts local out-of-doors work activity.

Before you leave for that next trip—remember—traffic accidents don't take holidays! Recreation vehicles give you the freedom to go—but mean added responsibilities for safety. Know your abilities. Know your vehicle's limitations.

OROFINO, IDAHO 476-4713

**Bowers Return From Cross-Country Vacation**

Mr. and Mrs. James Bowers of Juliaetta left Orofino June 15 with Mrs. Bowers' son and daughter-in-law, Mr. and Mrs. Leonard Eckmann, and small son for an extended tour of the United States.

They drove 10,800 miles and en-

tered 40 of the states, crossing several of them; also Toronto, Canada, Washington, D.C., and Mexico.

Surprisingly they found very cool temperatures and a lot of rainstorms. The warmest day of the entire trip was at Hoover Dam and Las Vegas. They visited the Custer battlefield in Montana, the Corn Palace and Wall Drug in South Dakota, Mt. Rushmore Memorial, and saw the Badlands there. They also enjoyed Niagara Falls from both the Canadian and United States sides; and then drove across the Adirondack Mountains in New York state.

They took a bus tour of Boston including Paul Revere's home and the cemetery where he is buried. They enjoyed lunch in the oldest cafe in Boston and also visited the oldest church dating back into the 1600s. In-

stead of the pews of today, each family entered a solid box with a door that had their name on it. There were narrow boards to sit on both sides of it. They were told the reason for this was, in the olden days, there was no heat and each family took heated rocks and bricks with them. They took a bus tour of New York City and the Bronx. Saw the ghetto Chinatown and it also included a boat trip out to the Statue of Liberty. Also took a bus tour of Washington, D.C. July 3. Did not brave the traffic to go back for the big parade on the 4th of July. They had grandstand seats erected and the box for the president's speech and secret service were there. They also spent several hours at the Smithsonian Institute, visited Arlington Cemetery and saw John and Robert Kennedy's graves and witnessed the Changing of the Guards at the tombs of the Unknown Soldier.

They crossed the Great Smoky Mts. and stated they are beautiful; also spent a day at the Crater of the Diamonds at Murfreesboro, Arkansas. However they were not lucky enough to find a diamond. Many people were looking and posts were set indicating the places the valuable diamonds have been found, including one valued at \$84,000.

Then driving further south a bus tour of Cape Kennedy proved very interesting; visited the Cypress Garden and enjoyed the water show there. (It was on the TV at home Tuesday night, August 3). They also spent a day at Disney World which was much enjoyed.

Starting West they stopped in to see a little of Mexico, at El Paso, Texas.

In New Mexico they spent several hours in the Carlsbad Caverns, took the 3-mile walk to see all of it and ate lunch at the cafe 750 feet underground.

In Arizona they crossed the Navajo Desert and viewed the Grand Canyon which they stated was beautiful.

On to Hoover Dam in Nevada and then into California and the Yosemite National Park (mountains). That day they were at 9,841 feet elevation and spent the night at 129 feet above sea level.

Continuing they viewed the Redwoods in California and drove onto Oregon to visit a cousin; then drove up the Oregon coast to Newport,

where they went salmon fishing. Mrs. Bower caught a King salmon weighing 18 lbs. and the men both caught Silvers weighing about six pounds each. They visited the cheese factory at Tillamook, Oregon, on through Portland and up the rivers to their home, arriving here Aug. 3. It was a very lovely trip but nice to be at home in Idaho again, the Bowers stated.

 Ella Benscoter

**Furniture Refinishing Hobby For Older Persons**  
 A popular hobby for older, retired persons—furniture refinishing—may endanger the health of individuals with heart problems, cautions the Idaho Medical Association.

In-home use of paint removers containing a chemical known as methylene chloride results in absorption of this solvent, which the body then converts into carbon monoxide, according to researchers at the Medical College in Wisconsin, Milwaukee.

Carbon monoxide causes heavy stress on the heart, and patients with deceased cardiovascular systems may not be able to tolerate this unexpected stress.

Conversion of the inhaled solvent to carbon monoxide continues for several hours after the individual ceases using the paint remover.

The report of Drs. Richard D. Stewart and Carl L. Hake, Milwaukee, cites the case of a 66-year-old retired executive who had 3 separate heart attacks after using the solvent in a closed room. The third caused death. In each instance he had worked for several hours in a basement workroom with the paint remover.

It has been known for several years that paint removers can cause heart problems but warning labels on the containers do not mention it, the physicians said in an article in the Journal of the American Medical Association.

**YOUR CAR NEEDS HELP.**  
 Winter driving is rough on any vehicle — proper service and repair is necessary to prevent unwarranted wear. And when the winter driving is over, it is a good policy to have your car or truck checked over to insure it will operate at its most efficient during the coming rigors of Spring and Summer driving.
