CONSTITUTIONAL AMENDMENTS To vote on the following, mark a cross in the square at the right of "Yes" or

S. J. R. No. 109 "Shall Section 3, Artiele VIII, of the Constitution of the State of Idaho, be amended to allow cities and political subdivisions to issue revenue bonds for the purpose of rehabilitating existing electrical generating facilities, when approved by a majority of the electors voting in favor of the bonds?"

LEGISLATIVE COUNCIL'S STATEMENT OF MEANING **AND PURPOSE** S. J. R. No. 109

The purpose of this proposed of the Constitution of the State of Idaho is to allow cities and other political subdivisions to rehabilitate existing electrical generating facilities which are owned and operated by that city or submoney for the rehabilitation work. revenue bonds could be much, after these bonds have been approved by the - rate of compensation. majority vote of the tarpayers in the city bonds would be retired to the revenues. collected from the vite of electrical

amendment would clarify the constitution been open to the charge that they are tional and statutory authority of cities adopting Lagislation with a direct perand political subdivisions to retubilitate aimal interest. The provisions of this existing electrical generating facilities amendment would remove the initial through the use of coverage bon by

Statements FOR the proposed amendment:

1. Cities and political subdivisions the ability to keep these facilities in good repair

2. The citizens of the several cities in owned power systems need the continuiat system in order to protect the citizens' investments

3. It simply isn't good business to facilities in efficient operating condi-

Statements AGAINST the

proposed amendment: 1. This proposed amendment is special interest legislation involving only a limited number of cities in the state. It is proposed that this special interest constitutional amendment be approved when other possible avenues have not Legislature been exhausted. Essentially the same improvements could be accomplished through the approval of general obligation bonds by a two-thirds majority of the people in the affected area. However, this has not been attempted.

2. Approval of this amendment would allow revenue bonds, with the approval of a majority of the voters in the affected area, to compete on the bond market with bonds of other governmental units throughout the country. As the funds available are limited, this could make it more difficult to sell other bonds and potentially increase in rest rates for such bonds.

H. J. R. No. 6 "Shall Section 23, Article III, of the Constitution of the State of Idaho be amended by striking the provision of ten dollars per day and ten cents per mile travel allowance and providing that the legislature shall have no author-Ity to establish its salary but to authorize a citizens committee on Legislative compensation to establish the rate of compensation and expenses, subject to rejection or reduction by the Legislature; provided that no change in the rate of compensation shall apply to the Legislature then in office except as

provided in this Section?

LEGISLATIVE COUNCIL'S STATEMENT OF MEANING AND PURPOSE H. J. R. No. 6

The purpose of this proposed amendment to Section 23, Article III, of the Constitution of the State of Idaho is to remove the present provisions for a salary of ten dollars per day, limited to sixty days, and ten cents per mile travel allowance for members of the Legislature, and to authorize a citizens committee on legislative compensation to recommend the rate of compensation and expenses for legislative service. The rate established by the committee

would be in effect unless reduced or rejected by the Legislature; but, the Legislature could not increase the rate.

If adopted, this amendment would remove the fixed amount of compensation found in the Constutition and direct establishment of a citizens committee composed of six persons. The committee would be authorized to study legislative compensation and recommend a rate deemed responsible by the committee. The Legislature would be authorized to reject or reduce the amount established by the committee, but could not increase the salary or expenses. Members of the committee would be appointed by the Governor and the Supreme Court, but no person could serve who holds public office to which compeniation was attached.

Statements FOR the

proposed amendment: I. Legislaise compensation is presently established at \$10 per day, limited to 60 days for a regular waston and 20 days for a special session. This rate was amendment to Section 3, Article VIII, established in 1945, and can only be changed by constitute nal amendment. It is unreally to, to bond the Legislature in 1976 or some future Legislature to a figure established 30 years over a spen The rate of reclamber, the changing meda division. In order to instally raise the of our society, and the demands placed upon manhers of the Legislature argue fee greater the sibility in availablishing the

2. H J R to world remove authority or political salishermon. The revenues to increase rates of Up altitive compenwatern from the realm of the Logislature. In the part, legislature have been very conservative in providing an adequate The adoption of this proposed expense allowance, but even then have salary review from legislative hands and return them to the people.

I. The present provisions of the Constitution have led to use of an expense which own and operate their own elec. allowance. While the salary is firmly trical generating systems should have catableshood, the Legislature has folfowed the trend in other states and has provided an expense allowance to make up some of the difference between the Idaho who have invested in municipally salary and the actual cost of perving, While expense allowances have been ing authority to mak: the major repairs held to be completely legal, it would be better to establish a clear public record

of compensation for legislative service. 4. Most proposents believe that the allow cities to make substantial invest- amendment will result in increased ments in electrical generating facilities - compensation for legislators, and apand then not allow them to keep these prove of this because of the land that persons should be able to serve in the Legislature without undue hardslop. While legislative service should not become a highly paid government posttion, compensation should be established at such a rate as hi allow a fru: cross section of Idaho entirens to serve, Only when all persons are eligible can Idaho claim to have a true citizens

5. The citizens committee created by this proposal is removed from the political arena by providing that no member may be a current office holder. The citizem of Idaho can have confidence that this committee, composed of persons like themselves, will be representative of Idaho thinking.

Statements AGAINST in proposed amendment:

1. Legislative service is among the most cherished of the rights of citizens. Election to the Legislature was never intended to be lucrative, as indicated by the fact that the framers of the Constitution placed specific limits upon salary. The rewards of public service are the honor, dignity and public respect which attach to the office. Such rewards cannot be measured in dollars and cents, but are evidenced by the desire to serve one's fellow man.

2. Unlimited increases in compensation may eventually result in solary levels which attract persons to the Legislature merely for the monetary rewards attached to the office. A professional Legislature would mean little representation for the average citizen,

3. Creation of a compensation committee is designed to remove the tesponsibility for controlling legislative expenses from the Legislature. The Legislature deems itself competent to establish the budget of the entire state, and establish the rate of compensation of every other state employee. It is inconsistent that they should then attempt to delegate to others the responsibility for recommendations on legislative compensation.

4. The proposed amendment moves future salary levels one more step beyoud the control of the people, Rater will be recommended by an eppointed committee. Persons appointed to committees do not have the approval of the people which is derived only by efec-

5. The establishment of a citizens committee, with appointments from the Governor and the Supreme Court, could create an unhealthy situation of conflicting interests. The potential exists for using legislative salar i in political bargaining situations among the three branches of government,

KHS Girl Cagers Drop Games to Timberline

Kendrick's girl basketball players opened the 1976 season at Timberline last Saturday night and were defeated after close contests in both the varsity and JV games.

In the varsity contest the Kendrick girls jumped out to an 8-2 first quarter lead as Timberline had trouble hitting the basket. The second quarter was close as Kendrick outscored the Spartan girls 13-12 to take a 21-14 lead into the dressing room at halftime.

Kendrick went stone-cold in the

third and fourth periods and allowed Timberline to catch up. The Tiger girls were ahead 26-20 with 3:13 left in the game but couldn't come up with any more points as Timberline

won 27-20.

Jayne Heath's 9 points paced the Kendrick effort, Glenda Lohman had 6, Polly Taylor and Esther Harris each had 4, Amy Lawrence 2 and

Cindy Lohman 1.

Two Kendrick players left the game via the five-foul route and three other had 4 fouls each which hindered their action.

JV's Beaten 33-29 Kendrick's JV team had the score tied at 28-all with less than two minutes remaining but then managed only one more point while Timberline came up with five more to win 33-29. Lisa Boe had 10 to be high scorer for Kendrick, Bonnie Lawrence had 8, Helen Fey 4, Lori Courtright, Ferris Cuddy and Lora Howerton each had 2 points and Lorie Benjamin 1. Policy of School Record Access Set at Genesee

The Genesee School District release of pupil records policy estab-lishes the rights of parents and eligible students to have access to their children's school records, limits the disclosure of personally identifiable information from the school records without consent, and provides an opportunity for a hearing to challenge information contained to school records. Students 18 years of age, married, or attending a post secondary institution may exercise these rights on his/her behalf.

The term "record" is interpreted to mean identifying data, academic work completed, level of achievement, attendance data, test scores, teacher rating, health data, and family background information.

Parents and eligible students who want access to records should contact the building principal to arrange a conference.

The complete release of pupil records policy may be reviewed in the Board Policy Handbook 350.2 page 15-15.2 on file in the school library and administrative offices.

Speak outs will be held throughout the state for gathering information the state for gathering information from patrons regarding proposed changes in Idaho's present gradua-tion requirements. The speak out for our area will be Thursday, Sept. 30 at 8 p. m. in the Upper Student Lounge, Lewiston Senior High School 3317 12th Street, Lewiston, Idaho.

It is hoped that the people of our area will take advantage of this opportunity to share in helping formulate the graduation requirements for Idaho students.
