Have you ever tasted Dutch Apple Bread. If you haven't, you are in for a treat, as it is not only delicious but easy to prepare. Having apples on hand isn't a problem this year as they are so plentiful.

Dutch Apple Bread
1/2 cup shortening
1 cup sugar
2 eggs
2 tablespoons milk
1/2 teaspoon vanilla
2 cups sifted flour
2 teaspoons baking powder
1/2 teaspoon salt
1 cup grated, pared apple
1/2 cup chopped nuts
Crumbs Topping
Cream shortening and sugar. Add eggs, milk and vanilla, beat well. Sift dry ingredients, stir into creamed mixture along with apples and nuts. Turn into greased 8x8-inch loaf pan; let stand 30 minutes. Sprinkle Crumb Topping over batter. Bake at 350 degrees for 55 minutes or until bread tests done. Remove from pan and cool on rack. Chill before slicing.
Crumbs Topping: Combine 1 table-spoon oil, 1/2 cup flour, 1/2 tsp cinnamon and pinch salt. Cut in 1 table-spoon butter until mixture is crumbly. Like it or not, the holidays are creeping up on us and it's time to think of all those extra holiday parties, family, friends, cakes, etc. Here again is that recipe for chocolate coated coconut balls. Most everyone has this recipe but it is a reminder to get yours from the files and make a batch. They're delicious and rich!
Chocolate Coated Coconut Balls
2 boxes confectioners sugar
1 can sweetened condensed milk
1 stick butter
1 can flaked coconut
pinch salt
1/2 cup chopped pecans (optional) (I used walnuts)
2 pkgs. German Sweet Chocolate or milk chocolate chips
1/2 cup paraffin
Melt butter slowly and add milk. Stir in sugar and salt. Add coconut and nuts. Chill until can easily be rolled and roll into bite-size balls. Insert toothpick in each ball, refrigerate or freeze until firm. Dip in chocolate and paraffin. Dip in nuts. Chill in double boiler. Remove from heat and dip each candy ball in chocolate and place on waxed paper. Keep candy in refrigerator, use only a few at a time.
Chicken in Mushroom-Sour Cream Sauce
Ever tried it? Delicious! My daughter, Anna Green of Eagle, gave me this recipe. She prepared it quite often, often in an impressive and easy-to-prepare manner. A

IT HAPPENED WAY BACK WHEN

Genesee News 50 Years ago
As was stated last week, the following closing-out sale had come to an end and the store was closed—and it is still closed, but will be opened again for business about the middle of the month. The firm has been reorganized and Harry Hanson has taken over the interest of W. E. English and will be actively engaged in the store. The interior of the store is being remodeled and a meat market is being installed.
That even the docile little Ford is not to be trusted, can be tested to by Norman Flameo, who was trying to persuade Henry to start and the Ford kicked, breaking both bones in Norman's right arm just above the wrist. Henry Beach (captain), Rich and Clay Stout and Matt Kasper returned Monday from a 10 days hunting trip on the Big Salmon river.
Miss Pearl Perkins and Miss Frances Smylie delightfully entertained the larger Ladies and their husbands and a few invited guests at the Barr residence Saturday evening.
A daughter was born to Mr. and Mrs. Chris Boencke on Tues. Nov. 2 Mother and babe are doing fine.
Pine Grove News - Frank Jones has been planting for Leon Holter. A Butzine is helping Charles Schuler or thorn beans on the reservation. The Henry Whitted family is moving back to their home place this week, after an absence of several months.

Enrollment of Medical School Students Increase
A total of 57,256 medical students were enrolled in 116 medical schools across the country this fall, including 15,349 first-year students, notes the Idaho Medical Association.
Total enrollment this fall is about 97 percent greater than last year's and first-year enrollment is about 94 percent greater.
This year two new medical schools accepted their charter classes—Wright State University College of Medicine at Dayton, Ohio and the University of Health Sciences of the Uniformed Services in Bethesda, Md. Women students accounted for 26.4 percent of total enrollment in medical schools this year. Minority students represented 8.2 percent of total enrollment, and 9.3 percent of the freshman class.
The preliminary enrollment figures were gathered in the annual survey of medical schools conducted by the American Medical Association and the Association of American Colleges.
This fall's first-year enrollment was 24 percent greater than 5 years ago, and total enrollment is nearly 29 percent greater than 5 years ago.

Idaho Bridge Damage Shows Increase

The Idaho Division of Highways reported today they have experienced a marked increase in bridge damage this year resulting from over height loads.
Marvin Lotsepelch, District Engineer at Lewiston, indicated the Koooskia bridge has been hit 5 times since February with a 6th collision occurring this weekend. The bridge is posted for a 14 foot-3 inch height clearance.
The Mount Idaho Bridge on State Highway 14 has been damaged twice in this same period.
The Department has invoiced a damage bill amounting to more than \$3000 on the bridges as a result of those collisions. Mr. Lotsepelch said, although the frequency and cost figures are higher than normal, the real danger is that if a serious enough collision occurred it may be necessary to close or restrict traffic on these structures which have been in service for many years.
Anyone hauling over height or overweight loads which results in damage is liable for the repairs.
Also the Division of Highways reported that construction activities are beginning on U. S. 12 in the vicinity of Lowell. Large pipe and culvert installations are being made this fall to improve highway drainage to facilitate the forthcoming 26.3 mile asphalt overlay scheduled early next year. Poe Asphalt of Lewiston is the prime contractor on the \$1,156,199 Project. Motorists are urged to use caution through this area because detours and one way traffic will be required at several locations. Kay Montgomery of Grangeville is the Resident Engineer in charge of the work.

This fall's first-year enrollment was 24 percent greater than 5 years ago, and total enrollment is nearly 29 percent greater than 5 years ago.

Medicine—A Career

Despite increasing frustrations, a recent poll indicates that 7 of 10 physicians would choose medicine as a career if they had it to do over again, reports the Idaho Medical Association.
The poll was conducted by the American Medical News.
Two out of 10 doctors, however, would not select medicine as a career a second time, and one out of 10 isn't sure whether he would or not, the poll found.
Surgeons were least inclined to enter medicine again. Only 30 of 51 respondents said they would do so. Specialists in radiology, internal medicine, psychiatry, pediatrics and obstetrics-gynecology were most likely to repeat their career choice.
Those who said they would become physicians again also registered a high degree of satisfaction with their choice of a specialty, with more than 80 per cent saying they would again pick the same area. Only 18 percent would choose another field of practice.

Study Reveals Effectiveness Of Rubella Vaccine

A recent study involving more than 5,000 children presents further evidence regarding the effectiveness of rubella (measles) vaccine, notes the Idaho Medical Association.
The study among Hawaiian children on the islands of Hawaii and Kauai also affirmed the long-lasting effect of the vaccine.
More than 95 percent of the vaccinated children still had antibodies against measles four years after vaccination, according to the report

by Dr. Kenneth L. Herrmann and colleagues, at the Center for Disease Control, Atlanta. The CDC physicians worked with the University of Hawaii School of Medicine and the Hawaii State Department of Health on the study.
The children were tested prior to the beginning of the vaccination program in 1969, when almost 70 percent had no antibodies against rubella. Following vaccination, some 99 percent were protected. Four years later, only 28 of the more than 5,000 children had lost all antibodies.

**Banking Activities Up Says Report**

Salt Lake City, Utah—Significant increases in resources, deposits and loans were reported here Monday during the regular quarterly meeting of the First Security Corporation directors.

George S. Eccles, chairman and chief executive officer of the financial services firm, told directors that resources of the corporation, its bank and subsidiaries on September 30, 1976, totaled \$2,284,966,450, compared with \$1,945,671,616 a year ago, an increase of 17.4 percent.

First Security Corporation had earlier reported unaudited consolidated income after securities transactions of \$17,933,781, or \$3.31 per share for the nine months period, compared with \$15,176,079, equal to \$2.83 per share for the same period last year.

Third quarter unaudited consolidated income after securities transactions was \$6,713,112, or \$1.23 per share, compared with \$5,514,835, or \$1.03 per share for the same period last year, an increase of 16.5%.

Directors voted a dividend of 70¢ per share to be paid December 10 to shareholders on record on November 26. This represents an increase of 5 cents per share, compared with the earlier dividend paid in June of this year. Thus total dividends in 1976 on common stock amounted to \$1.35 compared with \$1.18 last year.

In other action the directors elected to membership Dr. David P. Gardner, president of the University of Utah.

Dr. Gardner, one of the leading authorities on higher education in Am-

erica, became the tenth president of the University in August, 1973. Prior to assuming the presidency, he was vice president of the nine-campus University of California educational system, where he was the principal architect of UC's extended university, a new off-campus part-time degree program for adult students.

Born in Berkeley, Dr. Gardner attended schools in his hometown and graduated from Brigham Young University in 1955. He returned to California to earn his M. A. degree in political science, and Ph. D. degree in higher education from UC Berkeley.

Total deposits of First Security Corporation affiliate banks at the end of September were \$1,807,140,665 after eliminating \$11,659,098 in inter company accounts, compared with \$1,590,014,287 on September 30, 1975, an increase of \$217,126,378 or 13.7 percent. Average deposits for the year to date were \$1,693,690,000, compared with \$1,498,840,000 for last year an increase of \$194,850,000 or 13 percent.

Loans outstanding totaled \$1,450,677,899 compared with \$1,153,954,643 a year ago, an increase of \$298,723,256 or 25.7 percent.

At the Director's meeting held at the Corporation's new Central Operations Building in Salt Lake International Freepport Center, Mr. Eccles noted that the total of outstanding loans reflects the basic economic strength of the Intermountain region. The increase of 25.7 percent runs counter to the general trend in banking throughout the United States, which has not experienced an increase in loan demand during the past year.

In addition to outstanding loan increases, real estate mortgage loans totaling \$139,503,132 were sold in the mortgage market during the past 12 months, compared with \$103,117,010 in the preceding 12 months. "This brought new funds into the banks, permitting them to handle more home financing," Mr. Eccles said.

The Corporation's banks and two mortgage loan subsidiaries had real estate loans totaling \$619,909,300 on September 30, 1976, and in addition were servicing real estate loans sold to investors totaling \$715,258,742, making a total of real estate loans being handled amounting to \$1.3 billion, ranking First Security as one of the largest mortgage banking organizations in the country.

In the fourth quarter, according to Mr. Eccles, a strengthened demand for loans nationally is showing. Short term interest rate movements are expected to be minor well in 1977.

Hills and curves make driving in Idaho more interesting—and more challenging. Please remember pass only when it's safe, then allow more time for passing than on the level highway. As you approach the crest of a hill, stay to the right of the road. There could be a vehicle you can't see coming toward you over the center line. This reminder from the Idaho Traffic Safety Commission.

**New Film Series Begins Nov. 5**

Beginning the week of November 5, the Moscow-Latah County Library will present free showings of an award-winning film series for adults, **THE SEARCH FOR THE NILE**. The six-episode series will be shown over a six-week period. It represents part of the library's participation in FILMS PLUS, an experimental project funded by the National Endowment for the Humanities.

The series has received virtually unanimous acclaim from American reviewers and critics. Producer Christopher Railing headed in British Broadcasting Corporation team that traveled thousands of miles through Africa over a 5-month period to reconstruct on film the expeditions of six men and one woman so utterly different from one another that they had little but the Nile itself in common. The object of their journeys; in answer the centuries-old mystery concerning the source of the Nile River, which flows for over a thousand miles through parched desert without a tributary or a drop of rain. The explorers included the revered missionary David Livingstone, the extraordinary explorer Sir Richard Burton (of whom it was said that he spoke 27 languages, including pornography), and Mr. and Mrs. Samuel Baker, who sipped tea with English aplomb while cruising up the unknown reaches of the Nile.

The Moscow Library will show the series over a 6-week period, one episode weekly. Each 60-minute episode will be presented twice in the Moscow City Hall, first on a Friday evening at 7:30 p. m. and again on the following Saturday afternoon at 2:00 p. m. A third showing of the episode will be seen by the inmates of the Latah County jail on Wednesday afternoons. The dates of the showings to be held at City Hall follow: Episode 1, November 5 and 6; Episode 2, November 12 and 13; Episode 3, November 19 and 20; Episode 4, November 26 and 27; Episode 5, December 3 and 4; Episode 6, December 10 and 11.

Books and records relating to the series are currently available at the library. Copies of the series Film Guide are available free of charge from the library and will be distributed at the film showings.

Despite how well a drinking driver may control his or her drinking, it is important to realize, at least, that under certain conditions they are likely to have had "one drink too many." That time is often demonstrated when they are delivered to a hospital after being involved in a traffic accident. This reminder from the Idaho Traffic Safety Commission.

The Kendrick School  
'Principal's Corner'—

By Bill Tracy

What Do Grades Mean?

The first quarter of school has somehow slipped by already and report cards will be distributed on Friday for Junior and Senior high students. I want to express some of the frustrations that students, teachers, and parents develop over the evaluation of students by grading. This has been an age old problem that has been scrutinized, challenged and debated every year by educators across the nation, but, for the most part, has survived all attacks. The A, B, C, D, F grading system still remains as the basis for evaluating student progress in practically every school district in the country.

What do grades really mean? Do they measure ability level, achievement level, or amount of effort? Should students be graded in relationship with other students or according to the expectations of the teacher or maybe by some other arbitrary standard? Which grades reflect pure academic progress and which incorporate the attitude and behavior of the student? As one can imagine, it is difficult to maintain some kind of grading consistency from teacher to teacher, let alone from school to school.

Teachers find it very difficult to give a low grade to a student with poor aptitude in a subject if he is working to the best of his capabilities. It is equally disturbing to give a high grade to a student whose ability level is above the other students in a class, but who is not working to his fullest potential.

I feel far too much emphasis is placed on grades. Ideally, a student's goal should not be to obtain a certain grade from a class, but rather to acquire the skills and knowledge that will serve as a foundation for his success in our society. Teachers should not emphasize that students will receive better grades for their diligence and hard work, but should stress human development as a student's primary objective for performing well. Parents should understand that should their child bring home a "C" in a particular subject, it may be that he has worked harder and has received more from that class than from a subject in which he has earned an "A".

Elementary Auction Successful

I was truly amazed at the number and generosity of people who turned out for the Elementary Auction last Friday. When the dust settled, the donations totaled \$722. This will certainly boost our efforts for providing an outdoor paved playground area for our elementary school children. I wish to thank all who donated items and participated in the auction. Special thanks to Roy Glenn for serving as auctioneer and keeping things lively.

**YOUR CAR NEEDS HELP.**

Winter driving is rough on any vehicle — proper service and repair is necessary to prevent unwarranted wear. And when the winter driving is over, it is a good policy to have your car or truck checked over to insure it will operate at its most efficient during the coming rigors of Spring and Summer driving.

Have You Thought About These Items On Your Car

- COOLING SYSTEM
- BATTERY
- POINTS & PLUGS
- MUFFLER
- TAIL PIPE
- TIRES
- WIND SHIELD WIPERS
