#### 'Principal's Corner'-By Bill Tracy

Wrestling Club-Mr. Blake, our sixth grade teacher, has stimulated the interest of stu-dents in our Jr.-Sr. High School by starting a wrestling club. Athletics who normally have a lay-off during the winter months because they don't participate in basketball are finding that wrestling is a means to learn competitive skill and maintain their physical condition at the same time Wrestling is a unique sport which requires that a participant be in tremendous physical condition in order to compete for only a few minutes. Height and weight are not limiting factors as a wrestler is matched only against someone his own size. In this individualistic sport, a person's success is determined by his knowledge and application of holds and maneuvers, his degree of strength and conditioning, but mostly by his amount of intestinal fortitude.

By having a wrestling club this year on an intramural type basis, we can discover how much interest there might be in the sport should we wish to investigate the possibilities of expanding it into an interscholastic activity. To date, eight high school boys have joined the club and are working out four nights a week. Two girls have demanded an equal opportunity and are turning out as well, competing against each other.

I cannot understand why A-3 schools in Central Idaho bother to form leagues in girls' and boys' basketball. Assuming that the goal of every team is to make to the state basketball tournament, league records mean absolutely nothing except for seating at the district tourna-

Basketball players and their coaches spend months taking each team on a week by week basis, scouting, analyzing, drilling and becoming mentally prepared to dispose of their op-ponent. For what purpose? When it comes time to determine who goes to state, eight teams are thrown together for an eight-day double elimination marathon. The teams with the most stamina are likely to prevail. Does this kind of grueling test really determine which teams are best in the league and should represent our district in the state tournament? Do we have the best interest of the students in mind by this kind or format or are we more concerned with our financial status or catering to the desires of the fans. I say let's make all the time and effort put into league games mean something. Let's send our league champion directly to state or maybe have a four-team tournament to determine the team(s) that will represent us at the state tournament

Kendrick, idaho

ional over-reaction, frequently accept the subjective report of their child without double checking to see if that report is accurate. Parents may be incensed, and the child, from whom the story emanated, is glowing with a sense of power. He has, in short, learned the success and satisfaction of manipulation, thanks to his parents' cooperation.

Wanting their children to be happy. parents often try to create a painless world for them to grow in. They must not fail a test, or be refused membership on a team, or be left out of a with the school to help their children party, or get caught cheating, or have learn and guide them toward develop- too much homework, or sit in a boring strength and values. However, me class Should any of these happen, when their son or daughter come home with a problem, too many times, all sense of failure, then the parent must help by first pinning the blame elsewhere and then by making the prob-lem go away. Parents have good intentions, yet the harm they do is of-ten enduring. The child could fail to develop the self-confidence of knowing that he or she can cope; never given the opportunity, the pupil grows up feeling inadequate, and de-

> Though most parents do not work against the goals of the school, there are enough that do to elicit grave concern from educators.

pendent on others.

state legislature.

Two suggestions for parents: 1. Channels are open in every school through which parents may work to effect change. But hear the facts first. Start with the most im-mediate contact—the teacher. Getting no saisfaction, go to the guid-ance counselor, the principal, the

superintendent, the school board, the

2. People everywhere are less than perfect-teachers and parents alike. The parent who doesn't insulate his child against this fact of imperfection, but who helps him realize it, equips him for the realities of life. Such a parent strengthens a child to live in this less-than-perfect world and to be happy with it. Such a parent gives a child the lifelong gift of independence.

# YOUR CAR NEEDS HELP-

Winter driving is rough on any vehicle — proper service and repair is necssary to prevent unwarranted wear. And when the winter driving is over, it is a good policy to have your car or truck checked over to insure it will operate at its most efficient during the coming rigors of Spring and Summer driving.
