M. K. 'Kelly' Cline Retires as Latah County

Auditor-Recorder Auditor since 1962, retired last week. The 15 years of Mr. Cline's service round. to the county have been years of

tremendous change and growth. He Chairman Barbuto presented the has served well and the Gazette joins with others in saying "well done" lowing be and wishing both he and his wife Den 1 many happy and rewarding years of health and contentment.

As he left office, Kelly reviewed

and few of the changes and discussed his accomplishments as a public servant.

When I was elected in 1962 as your Clerk of the District Court, Ex-Offiio Auditor-Recorder and Clerk of the County Commissioners there were several things which I hoped to accomplish, before leaving office.

As time has gone by, other developments have taken place and it is with a sense of pride that I point these out to you.

I hoped to see the day when there would be no county bonded indebtedness. On the second Monday of Jan-1963, when I was sworn in, there were \$303,000.00 in courthouse outstanding bonds. I was instrumental in convincing the commisioners to refinance those bonds which were demanding 3.75% and 4.25% interest to a new rate of 3.00% and

The following year saw the installation of the compressor. Now nearly every office is air-conditioned.

I suggested, in order to help keep the main corrider cooler that a canopy be placed on the west side of the courthouse. This proved so acceptable that the following year the same type was installed on the east side. Now courthouse patrons are protected from the rain, snow, and

weather on entering from either side. Records used to be kept by photography but space requirements became critical. Now all current records are microfilmed and we have started on the old records. This will take a long time and be quite expensive but is necessary.

Many of you will remember that there have been many election changes. In 1971 the state required a tah County was the pioneer county it up. voting in the Now the census bureau has dictated reprecincting and reassignment precinct boundaries.

When the Cornwall estate, directly across the street from the courthouse parking lot, was being settled, I talked the commissioners in purchasing the property to be converted into additional parking. Both usually are filled to capacity.

January 1, 1971 was the date when Justice of the Peace; Police Courts; and Probate Courts were abolished and all court work has been the responsibility of this office. I have not been too pleased with this consolidation for the individual, person-alized understanding and convenience seems to have been lost. This I have also heard from various parts of the state and that a centralized dynasty is being created.

Although the Latah Convalescent

Center has not been any responsibility of this office, I have been interested in it's operation and have a kind spot in my heart for it. Just east of the facility was an old, rundown house back in 1966. I was able to talk the commissioners in purchasing that property, with the thought in mind for future expansion. I was thinking especially of those who are too well to be in the hospital but not needing the facility care. Either small cottages or duplexes would serve a real need where a couple would be togther, near medication and food if necessary, but able to take care of themselves, to a great extent.

In connection with the center, in 1973 I was instrumental in the formation of a perpetual fun for the comfort and convenience of the residents of the center. Legal papers were drawn up making the three trustees of the fund the manager of the First Federal Savings and Loan; the Auditor of Latah County; and the Director of Nurses of the Center. Provision is made that not more than 80% of the interest may be withdrawn each year. From a small start, the fund has and continues to grow and contributions are always appreciated.

There have been and probably will continue to be injustices in the compensation allowed some elected and appointed officials in comparison to the duties and responsibilities. have tried to run an economical, accomodating office and to stand up for what was fair.

It has been my privilege to have enjoyed the support of Republicans, Democrats and Independents and in each election to have been the leader in getting votes.

I should like to thank one and all with whom it has been my pleasure to have worked and served and for those who supported not only my candidacy but of those who ran against me. A two party system is essential for the survival of this coun-

Crockers, Miss Johnson Visit East Coast

Lester and Nell Crocker returned Tuesday of last week from a nine-day rip to Baltimore, Maryland where they went to visit their granddaughter, Patricia Johnson. They were joined there by Pat's sister, Debbie Joined there by Pat's sister, Debbie Johnson who came from Portland, Oregon, and together they spent a busy week sightseeing. They took a three-day trip by car through Maryland, Virginia and Delaware, visiting the Assateague Islands which are famous for its wild ponies, crossing the Chesapeake Bay Bridge tunnel which is 17 miles long, to go to Williamsburg, Va., spending a day visiting interesting spots in the colonial section of the old city. They spent a day sightseeing at Annapolis, Maryland, cruising on the bay, visiting the beautiful Annapolis Naval Aca-

demy Chapel and the lovely old city.

At Washington, D. C. they visited many historical places and were thrilled to see Lindburgh's "Spirit of St. Louis" in the Smithsonian Institute, as they had seen it fifty years ago when Lindburgh flew over Wallace, Idaho on his way to the West Coast. They were impressed with the beauty of the residential sections of Baltimore and saw many interesting pla-ces. They visited the world famous Lexington Market in downtown Baltimore, the harbour, saw many beautiful, old churches and toured parts of Johns Hopkins Hospital where Pat is associate director of Child Life, visiting especially the section of the Children's Medical and Surgical Hosand Debbie flew to Denver together

pital where she works.

On the return trip the Crockers then she went on to Portland where she is nursing at Meridian Park Hospital in Tualatin, Oregon.

FOR SAFE DRIVING

Safe, Dependable Winter Driving Requires Extra Care and Maintenance

A leaky or faulty muffler or exhaust system can be deadly on a car or truck in the wintertime when the windows are closed tightly most of the time.

Worn or poor snow tires can cause dangerous driving conditions when winter snow and ice are on the roads.

Brakes that grab or are out of adjustment could cause you to lose control of your vehicle when streets are icy.

Worn out points or spark plugs can make your car hard to start, especially on these cold mornings. And, an old, weak battery just can't give you the power you need in cold weather.

Good Anti-Freeze in the proper amount can mean the different between complete protection and or a costly repair bill.
