Four young bulls were standing in a pasture discussing what they wanted to be when they grow up. The first bull said he wanted to go to Rome and be a papal bull. The second said he wanted to go to New York and be a bull on Wall Street. The third bull said he wanted to go to Philadelphia and be a bull in a china shop. But the fourth said he just wanted to stay in the pasture for 'eifer and 'eifer and 'eifer.

A Russian passed his physical and was declared fit for space travel. He told the Commissar, "I really hadn't thought of going that far. I'd like to be sent to the United States". The Commissar laughed, "Comrade, we can only send you to Mars or Venus. If anyone could go to America . . . I'd send myself."
