Kendrick

Ever since we came to Kendrick ve were always touched by the quality of the people here and many times I thought I'd like to write wanting to get too close to people. I know it may be difficult for many

of the people here to understand how different relationships can be in a large city because in small towns everyone knows and watches each other grow and a trust and knowledge of each other makes it possible to be open and trusting of others.

Since losing my father, I realized how important it is to say something now because if you let it slide you may not have another chance. That's you, but also a time for us to say why this letter is not just a thankhow glad we are that we found Kendrick and hopefully our children will grow to have the special qualities that can only be found in a small town.

We all can't begin to thank all the people who have helped with gifts of food, cards or visits. My mother, especially, was touched as she and my Dad were never able to get out enough to know anyone that well and yet, you knew she would need help and you gave it. However, more than anything we appreciate the thoughts and the caring that were behind the gifts as, just the willingness to help made the whole experience easier to cope with.

And, we all thank you The Cecil Harris Family Rick and Cheryl McGregor

CARD OF THANKS I want to thank all my friends, neighbors and relatives for all the kindnesses shown me while I was in the hospital and since returning home.
