GRADUATION –

The Expense

has just

Begun.

There's more expense to graduation than just buying a gift for the young person, especially if the graduate is your own child who may wish to go on to college or a vocational or technical school. That takes money.

May we suggest that one of the best sources of finance for a college education is from your own savings account set up especially for that purpose. With a saving account at a dependable, reliable bank, such as First Bank of Troy, you'll be amazed at how a regular program of sayings will soon develop into a fine educational fund.

Stop in this week and talk to any of the friendly folks at First Bank of Troy.

First Bank of Troy

Initiative is doing the right thing Latah County Employment rithout being told.—Victor Hugo Drops Slightly

According to Phyllis Dunn, Moscow local office manager for the Idaho Dept. of Employment, the following jobs are currently open; wait-resses, experienced secretaries, livein companion part time maids, experienced grain elevator operator, and experienced farm equipment operator. Contact the Dept. of Employment to 221 E. Second. Moscow. or details.

There are currently 534 people in Latah County filing for unemployment insurance compared to 492 last forty feet tall and has a trunk cirweek and 635 the same week in 1977. Current totals are: Moscow 194, compared to 194 last week and 275 in 1977; Genesee 20, 15, and 11; Troy-

GARDENERS CAN AVOID USE OF PESTICIDES Clifton Anderson

Associate Agricultural Editor Moscow- Gradeners who wish to avoid spraying and dusting with chemicals should grow tough, pest-resistant vegetables, horticulturist ex-

In a list of vegetable crops that can be grown without pesticides, the U. S. Department of Agriculture includes asparagus, beets, carrots, celery, Swiss chard, collards, cress endive, kohlrabi, leeks lettuce, mustard, onions parsley, parsnips, peas, pep-pers, radishes, salsify, spinach, turnips and watermelon.

Tomatoes may need to be sprayed to control blight. However, tomato varieties are available which are resistant to fusarium and verticillium wilt and nematodes.

Sweet corn may be damaged by borers in the ears, but chemical control is not essential. Damage by borers can be prevented by treating the silk with mineral oil before it turns

Broccoli, brussel sprouts, cabbage and cauliflower may become inedible because of cabbage loopers. Use of a bacterial disease, "Bacillus thuringiensis," is an effectvie, non-pesticide method of controlling this insect.

CRABAPPLE TREE

A crabapple tree on the Fred Newman farm at Cameron was planted by William Freitag, who filed homestead rights on this land in 1882. Mr. Frietag planted this tree among other fruit trees in the 1880's.

This crabapple tree is nearly one hundred years old and is bearing fruit in alternate years. It is about cumference of seven feet.

The apples are made into delicious jelly and pickles. The tree is beautiful in the spring

Deary-Bovill 187, 174, and 222; Kendrick 14, 15 and 17; and Potlatch 120, its many colorful apples.

******** Kendrick FFA Still **Dominating Sweepstakes**

On Saturday, March 25, eight members of the Kendrick FFA chapter visited Plummer for the annual Parlinentary Procedure and Crops contests. The trip wasn't a complete loss because the chapter placed third overall in both contests to further their lead in the district sweepstakes con-

The parlimentary contest consists of participating in three meetings (per chapter) and chairing one of these. The team is evaluated by how well they conduct the meeting when they chair it. When they are one of the floor teams they are graded on the number of motions they know and their general knowledge of parli-mentary procedure.

Parlimentary team members are: David V. Williams, president; Ricci Parsley, Dave J. Williams, Pat May, Dean Johnson and Mike Courtright. The Crops contest includes identifyng 40 plant and seed samples, plus judging crop seed samples for weed
