Genesee Students Are  
New Alpha Phi Officers

Moscow—Cathy Calpouzos has been elected president of the U/I chapter of Alpha Phi social sorority. Other new officers of the sorority include two Emmett students, Janet Fuhrman, sophomore pre-law major and daughter of Mr. and Mrs. Royce Fahrman, 205 Sunny Lane, serving as corresponding secretary and Laura McDougal, junior education major and daughter of Mr. and Mrs. Don McDougal, 225 Sunny Lane, serving as vice president.

Also elected were two Genesee students, Mitzi Jensen, a UI junior and daughter of Mr. and Mrs. Kenneth Jensen, Route 2, serving as treasurer, and Stephanie Kambitsch, sophomore music major and daughter of Mr. and Mrs. Delbert Kambitsch, Route 2, Genesee, serving as scholarship chairman.

"LITTLE STROKES"  
AFTER PERSONALITY  
Strokes Hit Many

An often unsuspected cause of mental and physical incapacity is a series of "little strokes."

A stroke occurs when the blood supply to a part of the brain is reduced or completely cut off. This can be caused by a blood clot or by hemorrhage—bleeding from an artery in the brain. When the nerve cells of a part of the brain are deprived of their blood supply, the part of the body controlled by these nerve centers cannot function normally.

Little strokes may start when a person is in the 30s or 40s, striking silently at night, or passing almost unnoticed as a sudden dizzy spell, a momentary blackout, or just a few comments of confusion. The stroke itself is not severe enough to compel the patient to seek medical aid, but some permanent brain damage remains just the same, the American Medical Association reminds.

A formerly kind, gentle person may become highly impatient and irritable. Judgment often is impaired. A strong man may become weak and prone to tears. Suspiciousness is common. A person with a tendency to emotional instability, held in check heretofore by will power, may suddenly develop a psychosis. Some become sloppy in dress and befuddled in thought, others lose part of their moral sense. Sometimes the sufferer loses inter-

WATCH FOR SNOWPLOWS

What ever is in store for us this winter, highway crews will be on the job the minute it starts to snow to keep our highways maintained in good winter driving conditions. When it snows, the driving public has the obligation to watch out for the plows and sanders and to cooperate with the highway crews. Every winter, drivers who ignore this obligation cause serious accidents. This reminder from the Bureau of Highway Safety.

SORE THROAT NATURE'S  
WARNING OF ILLNESS  
Throat Is Warning

Does your throat hurt? If so, you may console yourself with the knowledge that you have plenty of company.

Sore throat is one of the more common physical discomforts that plague most of us from time to time.

Sore throat is nature's warning system that something in your body is out of order, says the AMA.

Often a sore throat, accompanies a common cold, and the soreness passes in a few days. But, sore throat can also be the symptom of any of a wide range of diseases, from diphtheria to leukemia, that require your physician's skill, not your guessing, to diagnose.

Sometimes tonsils and adenoids are involved in causing a sore throat and when these organs repeatedly cause trouble they frequently are removed.

Tonsil-adenoid removals account for half of all surgery performed on children. Sometimes the removal helps prevent sore throat, sometimes it doesn't.

Allergies can cause sore throats. Cold, dry winter air can trigger it. So can extreme thirst, excessive smoking or mouth breathing. Anything that dries out the throat and cuts off secretions that normally wash dust away.

Virus infections of many types also are a cause of sore throat, and every one who has had the flu knows that this particular virus disease often causes the throat to hurt.

"Strep throat" is a serious infection that occasionally leads to rheumatic fever and possible heart damage. It can be knocked out with penicillin, if it is diagnosed in time.

The crucial diagnostic test in sore throat is the swab test, through which the germs causing the trouble can be identified.

There is little or nothing you can do to cure a sore throat at home. There are medications which bring temporary easing of the discomfort. Most sore throats will clear up in a few days without treatment. If the sore throat persists, the cure must be launched by your physician.

The man who cheapens himself in public is sure to be marked down by his neighbors.

est in family and friends, and lives secretly, constantly hiding things that through forgetfulness he or she cannot find later.

When the symptoms are mild, as they often are, the person may get along fairly well. The problem of small strokes is one of the most difficult ever tackled by medical science. The most hopeful research approach is that of finding ways of preventing stroke. Science seeks to learn more about how to recognize early symptoms so that treatment can be instituted promptly.

COUNCIL TO DISCUSS  
"PHEASANTS TOMORROW"

Pheasant habitat restoration will be one of the topics discussed during the annual meeting of the Idaho Landholder-Sportsman Council in Boise, January 16.

The session, starting at 4 p. m. is to be held in the Department of Fish and Game headquarters building.

John Gahl, regional conservation educator with the department, will show a slide series that centers on Pheasants Tomorrow, the habitat restoration program proposed as one result of the Wildlife Tomorrow Conference called by Gov. John V. Evans in 1977.

The project calls for improvement of as many as 240,000 acres of habitat over a period of five years, with most of the funding provided by the sale of \$3 pheasant stamp. The proposal would require legislative approval.

Rick Gilchrist, council secretary, said other agenda items include presentation of Landholder-Sportsman of the Year awards, a review of 1978 hunting seasons and election of officers.

The council was organized in 1954 "to preserve the American tradition of hunting and fishing by promoting good relations among landholders and sportsmen and respect for the rights of landholders."

Organizations, agencies and individuals concerned with hunting and fishing, agriculture and land and water management participate in Council activities.

**IT HAPPENED WAY BACK WHEN**

Genesee News      Feb. 8, 1929

Mr. Groundhog did not see his shadow at Genesee and were he able to see it, how could he have gotten through our 30-inch blanket of snow.

Jr. High—Sunday afternoon the 7th grade made up a sleighing party and went to the home of Eva Jones. All the class seemed to have a good time. Ralph Broemeling drove the sled for the 8th graders and Ormand Hickman and the Aherin brothers for the 7th graders.

Donald Springer has received a paper exhibit from the Hammermill Paper Company.

Last Saturday evening, a sleigh ride party consisting of Mr. and Mrs. Fred Hove, and Sam Lange and children, Mr. and Mrs. Nels Lande and Mr. and Mrs. A. Peterson and son were guests in the A. Tegland home.

Frank Jones and companion, returned recently from a cougar hunt in the Priest Lake Country. They killed four. Frank is a successful hunter and usually gets what he goes after.

Mr. and Mrs. Fred Perkins were host and hostess at a waffle supper Wednesday evening. Later the guests enjoyed progressive bunco.

Miss Gertrude Sampson was hostess to the Monday evening bridge club this week when members and guests enjoyed a pickup dinner at 7 o'clock.

Kenneth Platt, Genesee junior, is on the Idaho ROTC rifle team for the 2nd year and fired his 1st match for 1929 against WSC this week. Ed Wahl has been named assistant manager of the 1929 year book to be issued by Winged Helmet honorary literary group on the UI campus.

Nels Liberg left last week for Boise where he will enter the Veterans hospital for treatment.

H. A. Manderfeld who lives a mile from Genesee, suffered a stroke last Friday night.

Miss Lorraine Platt left Monday for Spokane where she will enter St. Luke's hospital to take up training.

At the regular meeting Monday night, 4 new members were initiated into the Neighbors of Woodcraft: Mrs. Charles Schooler, Mrs. Dick Nebelsieck, Mrs. John Flomer and Mrs. Dick Green.

Kendrick Gazette February 3, '49

**What Happened here 20 Years Ago? Feb 1929**

Last Monday rural mail carriers out of Kendrick were unable to complete their routes because of deep snow. Everett Fraser, on route two, had to have assistance to get his mail around this week as his route is too long for one team of horses to make the round trip in a day.

The Kendrick Dray and Ice Company finished filling its ice house this week—some of it being 18 inches thick—the best in many years.

Considering the weather conditions of last Saturday, a large crowd was here in the afternoon for Market Day. It was necessary to come to town in sleds as the snow was too deep for travel by autos. It looked like old times to see the feed lot by the Rochdale filled up with horses and bob-sleds.

The Joint PTA presentation of the musical comedy "Sweet Adaline" directed by LeRoy Templeman at the H. S. gymnasium last Wednesday evening was enjoyed by a large crowd. Those acting in the comedy were Eugene Taylor, Elsie Onstott, Floy McCreary, Manning Onstott, Teddy Peters, Adrian Johns, Don Miller, Ralph Magnuson, Loyd Ware, John Davis, Bill White and Lois Turner. The orchestra: Lucille Magnuson, accordion; Don Miller, violin; Teddy Peters, guitar; John Davis, harmonica; L. Templeman, bass. Chorus: Irene Christensen, Ruth White, Ailene Johnson; Marjorie Eldridge, Irene Millard and Leasel Abrams. Following the presentation, those taking part, plus their wives and husbands, enjoyed a pot luck supper and jam session in the home ec room at the school house.

A big part in any man's religion consists of getting along with other people.

**BITTER WINTER—HARD ON BIG GAME**

Bitter cold and a persistent snow cover have brought on harsh wintering conditions for hundreds of deer and elk along Idaho's eastern border and in an area where Interstate 80 enters Utah.

The Fish and Game Commission was told during its January meeting that snow has covered the ground in the trouble spots for more days than any time since 1940.

"The worst may be yet to come," according to Jerry Theissen state big game manager. "Historically, we can expect winter weather in those areas to continue through February or early March. Prolonged snow and cold sap the animals' strength and become a critical problem for fawns and old bucks. Pregnant females are also affected in late winter.

As many as 400 elk in search of food have raided haystacks in Swan Valley and Department of Fish and Game personnel have been building panels around the stacks and feeding hay to cut down on depredation and maintain the condition of the elk.

About 80 deer are being fed north of Snowville, where I-80 enters Utah. The highway diverts them from former winter range and causes them to move south and bunch up near the Idaho-Utah line where forage is scarce.

Other areas with feeding and depredation problems extend from Ashton in the north to Bear Lake where about 1,000 deer are being fed on winter ranges around the lake.

Fortunately says Theissen, most of the animals were fat and in excellent condition at the onset of winter, thanks to a summer and fall that produced good feed.

**ARE YOU USING ALL THE CONVENIENCES WE HAVE TO OFFER?**

We here at First Bank of Troy value our old patrons just as highly as we do our new ones. And, when we gain a new customer, we want them know of all the services our bank can offer. But sometimes even our long established and cherished accounts aren't aware that we keep improving and providing our customer services.

So if you are new friend or an old friend, we want to remind you of conveniences such as our drive-in banking window, bank-by-mail service, our handy secure safety deposit boxes and all the other services First Bank of Troy provides to make certain that we are the only bank you'll ever need.

**Campbell Soup Labels**  
We're almost there! We have 5,500 labels. Only 200 more to go! If you have any labels to contribute, please send them to school with one of the children or bring them to the grocery stores in Kendrick and Juliaetta.

**letters to the editor . . .**

**Editor:**  
Having read the Idahonian of Feb. 3, it seems Idaho Legislature is business as usual including a salary increase for themselves.

Now they can bet to the important issues, such as clipping fingernails, (Ed's note—Charlie enclosed a photo of a State Representative clipping his fingernails), as demonstrated by Rep. John Reardon, Boise. They should be clipping fat. There is plenty to clip!  
I don't think they intend to cut spending! Instead they are pushing local option taxes, sales taxes, excise taxes and more taxes. Hell!! I thought the purpose of the 1% was to cut taxes—not just readjust the load!

As for alternatives and tax relief consider increasing the tax base. It has been estimated that if tax exempt property paid its fair share taxes could be cut in half.  
So get busy Legislature, earn your salary increase and leave a little something for the hand that feeds you!!

**Latah Pioneers Will Meet In Moscow Feb. 15**

Latah County Pioneers will meet with the Senior Citizens for dinner Thursday, February 15 at the Moscow Moose Hall, 12:00 noon. Dinner will be prepared and served by directors of the Meal Site Program. Do not bring food or table service.

Following dinner a program is planned and there will be a short business meeting of the Pioneers when a vice president and secretary-treasurer will be elected.

Pictures and scrap books from the Clifford Ott collection will be displayed. All county pioneers and senior citizens are welcome.

Get ready for winter driving by checking your car's thermostat. If it sticks open, the engine will not be operating at its best efficiency resulting in fouled plugs and less gas mileage. This reminder from the Bureau of Highway Safety.

**SCHOOLS GET HELP TO BOOST FOOD QUALITY, CUT COSTS**

Washington.—Schools that contract for food services will get help from new regulations to hold down costs and maintain food quality, according to Assistant Secretary of Agriculture Carol Tucker Foreman. The rules are needed because a growing number of schools participating in the national school lunch program receive food and services under contract from food service management companies, Foreman said.

The regulations announced today will protect such schools by setting new controls over the terms and performance of contracts. In addition, Foreman said, the rules require such contracts, as well as all local food service procurement, to comply with federal standards now in effect for state agencies.

Because local school boards expressed a strong desire to continue to write and approve their own contracts, the regulations give minimum standards school boards are to meet. Under the new rules, bids will be

based on a 21-day menu cycle. Payment will be made only for food that meets specifications listed in the contract. Other contract provisions will detail record keeping and health certification requirements. The new rules will limit the duration of food service contracts to one year. Because of concerns ex-

pressed after the regulations were proposed last January, the final version permits two yearly renewals and cancellations upon notice by either party.

States are responsible for assuring that local contracts comply with the new regulations and for providing assistance on request to local schools.
