### Lester A. Wallace, Kendrick Civic Leader Passes July 22

Lester A. Wallace, a former Kendrick mayor and a civic leader in Kendrick for 40 years, died Tuesday morning, July 22, at the Orchards ace had lost ground quickly following an accident on his riding lawn mower that severely mangled his hand and arm. After spending some time in the hospital, he was able to come home, but he failed to respond to treatment and just a few days ago had been admitted to the nurs-

ing home.

He was born near Cheney, Kansas, September 10, 1890 on the farm home of his parents, Andrew J. and Nancy Wallace. At the age of 11/2 his family moved to O'Keene, Kansas, and homesteaded there for 12 years before moving to Mountain Park, Oklahoma. He was educated at Ok-lahoma Southwestern State Normal where his athletic ability earned him the position of captain of the football, basketball and baseball teams. He taught school for three years following graduation and in one instance was the teacher for 72 stu-

dents in 9 grades.

He married Lillie Beck in Twin Falls, Idaho in 1912. The young couple resided in and around Pilot Rock, Oregon starting in 1916, where he purchased a sheep ranch running about 2300 sheep. The depression of the late '20's and early '30's forced relinquishment of their possessions and they moved to Lewiston Or-chards in 1933. Here Lester became a trained sheep shearer and began the sheep shearing travels. Leo Ernst, now a retired Genesee farmer, once recalled that Lester was one of the best and fastest sheep shearers he had ever watched work. Mr. Ernst had a sheep ranch in Montana and contracted Lester to do his

shearing.
Finally arriving in Kendrick in the fall of 1934, the Wallaces found their sheep shearing trips and harvesting work, Lester began his employment with the old Northern Pacific railroad and served for 10 years on the fire and rock patrol between Arrow

Junction and Howell. He was a most civic minded man and served on the Kendrick council for almost 12 years including a term

#### Idaho Women for Agriculture Pacific Intercultural Exchange Urges Fight Against Pesticide Bans

Idaho Women for Agriculture have learned that EPA's "Office of Pesticides and Toxis Substances" has budgeted over \$687,000 for "public participation programs" in fiscal year 1980. Part of these funds are allo-cated for payment of VISTA volun-teers who organize citizen-action groups to oppose the use of chemicals in agriculture: farming, forestry, livestock production, etc. Many of these volunteers are neither trained scientists nor experienced in the use of toxic chemicals yet they are being paid with our tax dollars to restrict and eventually to ban the use of materials essential to the survival of productive agriculture.

We urge everyone interested in retaining the use of chemicals in crop production and, at the same time, in reducing taxes to write their congressmen opposing the funding of 'public participation programs." Fu-

#### Residential Construction Up Slightly, Says Bank Report

Consumer demand is beginning to mprove but remains generally cautious, according to James Hoogland Jr. and Stan Merrill, managers quot-in the June Idaho Construction Re-port a publication of the First Se-curity Bank of Idaho, N. A. The report, edited by Dr. Kelly Matthews, vice-president and economist for First Security Corporation, will be distributed this week.

The level of residential construction in Idaho as measured by building permits, improved somewhat in June relatives to the previous month but remained far below a year ago. Secondary market mortgaging rates were relatively stable during June with conventional rates varying in the 12, 3/4-13 percent range. Addi-tional reduction in these mortgage rates is expected during the second talf of 1980.

Total construction value for authorized building permit construction in 54 major Idaho locations in June was \$34,546,589 or 30.8 percent below 1979. New residential construction for 516 dwelling units totaled \$1,881,416, a decrease of 31.5 percent in number and 32.4 percent in number and 32.4 percent in value compared with a year ago. Nonresidential construction valued at \$9,077,851 was down 40.0 percent below last year, while alterations and repairs totaling \$7,587,322 were down 7.9

At Heaths-Mr. and Mrs. Ray Evans returned from a month's visit at Orem, Utah, their "other" home, on Thursday, July 17th. That same day Mr. and Mrs. Forest Gibbs returned to their Spokane home after spending busy days at the Mildred Heath home. Flora canned many jars of pickles for all, while there, from the wonderful garden at the home place, plus a variety of other early produce. Mildred reported a first 5 tomatoes red! Also son Lee Heath and crew are busy in pea harvest, finishing in the lower fields. Appearances point to good crop, but weight not certain

The Pinecreek "Cobra"!—

Young grandson Michael Prince, riding a motorbike up Pinecreek near "Kenny's Bridge" encountered a huge snake—"So Long"—and reversing his machine, sped back to grandma Helena's home, wide eyed, to report seeing a "cobra". Allen Brown mounted the vehicle, and drove up to investigate. It was a very large rattlesnake! Shovel and hoe were taken up by Merie Cooper, who had arrived meanwhile, and a battle ensued! The "cobra", with an injured back, escaped by falling over the creek bank, and was enable to be located! Close watch now is part of any expedition in that area!

Carol Richardson and daughters Noelle and Rena of Orofino spent Thursday at the home of her mother Helena Brown. On Sunday Merle Cooper of Lewiston was a guest. Don Brown, son Allen and young friend Vic Yates, all of Lewiston, spent the day, also.
