KHS Girls' Track Team Doing Well This Year

This year's version of the Kendrick girls' track squad appears to be the most talented group at K. H. S. in the past few years. They are off to a strong start this spring, and a week ago finished their stuff to a third place finish in the Lapwai Invitational held at the Vollmer Bowl in Lewiston. The team card 69 points and finished behind Grangeville and Orofino.

Sophomore Lisa Vallem and freshman Kirsten Jensen led the way. Vallem broke the existing meet record in the 880 run she took first in. Her time was a sparkling 2:28; 5 full seconds faster than the old record. She also took third in the 220 and anchored the first place Medley Relay.

Jensen took first in the long jump with a leap of 15' 2", and second in both the 100 and 220 yard dashes.

The Medley Relay team of Jensen, Melva Gibbons, Carolyn Stonebraker and Vallem took first with a time of 2:00:5.

Other girls who placed were Jean Glenn, 3rd in the shot and Paula Fliger; 3rd in the mile.

LEGAL NOTICE

ORDINANCE NO. 266
CROSS CONNECTION CONTROL ORDINANCE
 AN ORDINANCE OF THE CITY OF GENESSEE, OF LATAH COUNTY, IDAHO, SPECIFYING AND ADOPTING A PLAN PROHIBITING CROSS CONNECTIONS TO THE WATER SYSTEM OF THE CITY, DECLARING SUCH CROSS CONNECTIONS TO BE A NUISANCE, AND PROVIDING FOR THE ELIMINATION THEREOF; PROVIDING A PENALTY FOR THE VIOLATION OF THIS ORDINANCE, AND PROVIDING FOR THE EFFECTIVE DATE OF THIS ORDINANCE.

BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF GENESSEE, of Latah County, Idaho, as follows:

WHEREAS, the City of Genessee, (herein sometimes designated the "City") in the County of Latah, State of Idaho, is a municipal corporation organized and existing under the laws of the State of Idaho;

WHEREAS, the Mayor and Council

of said City, (herein sometimes designated the "Council"), as owner and operator of a public water system, is required by Section 1-8306 of the Idaho Regulations for Public Drinking Water Systems to implement a cross connection control policy;

WHEREAS, the Council has determined that the public health, safety and welfare will be furthered by this policy, as hereinafter defined:

NOW, THEREFORE, IT IS HEREBY FURTHER ORDAINED as follows:

Section 1: DEFINITIONS

As used in this Ordinance, the following words shall have the following meanings:

A. Backflow—The flow, other than the intended direction of flow, of any foreign liquids, gases, or substances into the distribution system of a public water supply.

B. Backflow Prevention Device—A device to counteract back pressure or prevent back siphonage.

C. Contamination—The entry into or presence in a public water supply of any substance which may be deleterious to health and/or quality of the water.

D. Cross-Connection—Any physical arrangement whereby a public water supply is connected, directly or indirectly, with any other water supply system, sewer, drain, conduit, pool, storage, reservoir, plumbing fixture, or other device which contains or may contain contaminated water, sewage, or other waste or liquids of unknown or unsafe quality which may be capable of imparting contamination to the public water supply as a result of backflow.

E. Supervisor—The City Water Department Supervisor.

F. Health Officer—The State of Idaho Department of Health and Welfare, Division of Environment local representative or his authorized

agent.

G. Public Water Supply—Any system or water supply intended or used for human consumption or other domestic uses, including source, treatment, storage, transmission and distribution facilities, where water is furnished by any collection or number of individuals, or is made available to the public for human consumption or domestic use.

H. Engineer—Professional Engineer registered in the State of Idaho, retained to provide Engineering Services to the City.

Section 2: CROSS-CONNECTIONS

No water service connection to any premises shall be installed or continued in use by the City unless the water supply is protected by Backflow Prevention Devices as may be required by this ordinance. The installation or maintenance of a cross-connection which will endanger the water quality of the potable water supply of the City of Genessee shall be unlawful and is prohibited.

Any such cross-connection now existing or hereafter installed is hereby declared to be a public nuisance and the same shall be abated. The control or elimination of cross-connections shall be in accordance with this ordinance and the regulations set forth in Section 1-8306 of the "Idaho Regulations for Public Drinking Water Systems", together with the latest edition of appropriate manuals of standard practice pertaining to cross-connection control approved by the Engineer. Council shall have the authority to establish requirements more stringent than State regulations if he deems that the conditions so dictate. The City shall adopt rules and regulations as necessary to carry out the provisions of this ordinance.

Section 3: USE OF BACKFLOW PREVENTION DEVICES

A. Backflow prevention devices shall be installed at the service connection or within any premises where in the judgment of the City, the nature and extent of activities, or the material stored on the premises, would present an immediate and dangerous hazard to health and/or be deleterious to the quality of the water should a cross-connection occur; even though such cross-connection does not exist at present, the backflow prevention devices shall be installed under circumstances including but not limited to the following:

(1) Premises having an auxiliary water supply, unless the quality of the auxiliary supply is in compliance with the Idaho Drinking Water Regulations and is acceptable to the City.

(2) Premises having internal cross-connections that are not correctible, or intricate plumbing arrangements which make it impracticable to ascertain whether or not cross-connections exist.

(3) Premises where entry is restricted so that inspections for cross-connections cannot be made with sufficient frequency or at sufficiently short notice to assure that cross-connections do not exist.

(4) Premises having a repeated history of cross-connections being established or re-established.

(5) Premises on which any substance is handled under pressure so as to permit entry into the public water supply, or where a cross-connection could reasonably be expected to occur. This shall include the handling of process waters and cooling waters.

(6) Premises where materials of a toxic or hazardous nature are handled in such a way that if back siphonage should occur, a serious health hazard might result.

(7) The following types of facilities will fall into one of the above categories where a backflow prevention device is required to protect the public water supply. A backflow prevention device determines that no hazard exists:

- a. Sewage Treatment Plants.
- b. Chemical or other Industrial Plants.
- c. Agricultural Chemical Storage, formulation and distribution facilities.
- d. Petroleum storage facilities.
- e. Underground Sprinkling Devices or Systems.

(8) Other premises, as specified, by the City, where backflow prevention devices are required to protect the public water supply.

B. The type of protective device required shall depend on the degree of hazard which exists:

(1) An air-gap separation, or a reduced pressure principle backflow prevention device shall be installed where the public water supply may be contaminated with sewage, industrial waste of a toxic nature, or other contaminant which could cause a health or system hazard.

(2) In the case of a substance which may be objectionable but not hazardous to health, a double check valve assembly, air-gap separation, or a reduced pressure principle backflow prevention device shall be installed.

C. Backflow prevention devices required by this ordinance shall be installed at the meter, at the property line of the premises when meters are not used, or at a location designated by the City. The device shall be located so as to be readily accessible for maintenance and testing, and furthermore, where no part of the device will be submerged.

D. Backflow prevention devices required by this Ordinance shall be installed under the supervision of, and with the approval of, the Supervisor.

E. Any protective device required by this ordinance shall be a model approved by the City. A double check valve assembly or a reduced pressure principle backflow prevention device will be approved if it has successfully passed performance tests of the University of Southern California Engineering Center or other testing laboratories satisfactory to the Engineer. These devices shall be furnished and installed by and at the expense of the customer.

F. Backflow prevention devices installed pursuant to this ordinance, except atmospheric vacuum breakers, shall be inspected and tested annually, or more often if necessary. Inspections, tests and maintenance shall be at the customer's expense. Whenever the devices are found to be defective, they shall be repaired, or replaced at the customer's expense. Inspections, tests, repairs and records thereof shall be accomplished under the City's supervision by certified testers.

G. No underground sprinkling device will be installed without adequate backflow prevention devices at the point from which the water for irrigation is taken from the public water supply.

H. Failure of the customer to cooperate in the installation, maintenance, testing or inspection of backflow prevention devices required by this ordinance shall be grounds for the termination of water service to the premises, or, in the alternative, the installation of an air-gap separation at the customer's expense.

Section 4: CROSS CONNECTION INSPECTION

A. No water shall be delivered to any structure hereafter built within the City of Genessee or within areas served by City water until the same shall have been inspected by the City for possible cross-connections and been approved as being free of same.

B. Any construction for industrial or other purposes which is classified as hazardous facilities pursuant to Section 3 or this ordinance, where it is reasonable to anticipate intermittent cross-connections, or as determined by the City, shall be protected by the installation of one or more backflow prevention devices at the point of service from the public water supply or any other location designated by the City.

C. Inspections shall be made periodically of all buildings, structures, or improvements of any nature now receiving water through the City's system, for the purpose of ascertaining whether cross-connections exist. Such inspections shall be made by the City.

Section 5: ADDITIONAL REMEDIES

In the event an improper cross-connection is not corrected within the time limit set by the City, or, in the event the City is refused access to any property for the purpose of determining whether or not cross-connections exist, delivery of water to the property shall cease until the deficiency is corrected to the City's satisfaction. In addition, the City may effect the necessary repairs or modifications at the expense of the property owner and refuse delivery of water to the property until the cost thereof shall have been paid.

Section 6: VIOLATIONS AND PENALTIES

Any person who violates, disobeys, omits, neglects, refuses to comply with, or resists the enforcement of any of the provisions of this ordinance or the rules and regulations as adopted by the City, shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall for each offense be punished by a fine in any sum not exceeding Three Hundred Dollars (\$300.00) or imprisonment for a term not exceeding ninety (90) days, or by both such fine and imprisonment.

Section 7: SEVERABILITY

If any one or more sections, subsections or sentences of this ordinance are for any reason held to be unconstitutional or invalid, such decision shall not effect the validity of the remaining portions of this ordinance and the same shall remain in full force and effect.

Section 8: PUBLICATION AND EFFECTIVE DATE

Upon passage and approval of this Ordinance, it shall be published once in the Kendrick Gazette, a newspaper of the State of Idaho and of general circulation within the City of Genessee, Idaho, and being the official newspaper thereof, and this Ordinance shall take effect immediately upon its publication.

Stony Point

By Nellie Dean Steigers

Mrs. Heath and Families—

On Monday, April 13, last week, Mrs. Bea Hoisington was an afternoon caller of Mildred Heath. On Thursday afternoon, April 16, Mrs. Alice Maguire and Lois Johnston of Lenore stopped, enroute from club.

We have a new lady in our midst, Mrs. Ellen McCauley, who is now living with Mildred Heath as her companion and helper. All will welcome her to the community. She comes from Lewiston.

Fay Heath Scoggins and daughter Deanna returned to their San Bernardino, Calif., home on Sunday after visiting in the home of her mother during the past week. On Thursday, son Gordon and members of his family planted early garden at the home place. Flora Gibbs, Norma Rugg and daughter Lisa were her Sunday callers.

Mr. and Mrs. Forest Gibbs (Flora), assisted by various friends and relatives, have made their Cherrylane mobile home ready for occupancy. Cement was poured on Saturday for the base of a tool shed. For the first time the cheerful gleam of lights shone thru their windows on Saturday night. Mr. and Mrs. Earl Partidge and Mr. and Mrs. Ken Rugg were among working guests. Several of the group spent the "nooning" at the Ray Evans mobile home.

With the Evans, Gibbs, Misners and the new establishment down the track, North Cherrylane looms on the landscape.

Pine Creek—

Don, wife Jan, and children Shannon and Allen Brown, were Easter Sunday dinner guests in the Helena Brown home. Also present was grandson Richard Cooper, all of Lewiston. Helena reports a return of a "flu-

like" ailment during the past week, sore throat, aches and pains, but feelings some improved as of Sunday evening.

Several cases of chicken pox are present in our area. Bekalyn and Brant Steigers and little Anna Marie are all having a rather rough time.

Stonypoint Friendship Club—

The last meeting until next Oct. 1st was held on Thursday, April 16, at the home of Mrs. Glen Stevens. Twelve members and one lady guest, Alice Maguire, attended. Glen, man of the house, was our lone male present. All enjoyed a large and luscious noon meal, and much visiting, plus finishing the large quilt, and continuing on the crib quilt worked on at the last club day. A very pleasant day, as always. We missed our Mildred Heath.

Mrs. Ernie Fliger and three daughters were Easter Sunday dinner guests in the home of her mother Erma Stevens. Ernie had "other fish to fry" with brother Carl that day.

Saturday, April 18, Karen Kirkham and Maxine Halsey, of Lewiston, assisted with the SS Junior Class party, held at the Glen Stevens home. An Easter Egg hunt, with practice for the Sunday program of the Cottonwood Creek Community Church combined, made a most enjoyable time for the youngsters.

On Sunday, after Church Services, guests in the Gifford home of Mr. and Mrs. Neil Williams included Mr. and Mrs. Glen Stevens, Mr. and Mrs. Ralph Williams and the Russell Johnson family.

The "Postum Fairy" left a nearly full jar of Postum in a mail box lately, labeled "Happy drinking, Ernest". He says "Thanks".

The Eldon Heimgartners enjoyed their Sunday dinner at the home of Cecil and Crystal Gruell. On Saturday afternoon Eldon, Gertrude and Erma Stevens took flowers to Mother Mystie in Lewiston. She does nicely.

Pooled Easter Dinner—

C. F. Lindor, the Lee Heimgartner family, and Wayne and Ruth Heimgartner, all gathered at the home of Ardythe and Roy Heimgartner to enjoy a potluck dinner on Easter Sunday.

Mrs. Wayne Heimgartner spent Wednesday, April 15, in Clarkston with Carlene Heimgartner and little daughter Haley.

Mr. and Mrs. Ernest Steigers accompanied Mr. and Mrs. Alvin Steigers to funeral services for old friend Sol Jones, and to the family dinner following. Ralph Steigers, Bill Steigers and Lee Heath were among the pall bearers.

Teresa Hoisington, 14 Yrs. Young— Celebrating her Special Birthday, 14 years on April 14, Teresa had as her overnight guest, Denise Corkill!

The Don Hoisington family enjoyed their Easter Sunday dinner as guests in the home of her parents, Mr. and Mrs. Ted Weyen. Other guests present were the Dean Weyen family and Mrs. Rosemary Reidhart of St. Maries.

Big Bear Ridge

Happy Home Club

The Happy Home Club will meet at the Community Hall, April 28 at 10 o'clock. A quilt will be tied, so please bring your big needles and thimbles. Members are to bring a salad and the hostesses will furnish dessert. Anyone interested in the "Blue Jeans" workshop please contact Grace Ingle 289-5385 for more information.

Mr. and Mrs. Terry Colwell, of Peck were Saturday evening supper guests of Mr. and Mrs. Jerry Ingle and Keith Mrs. Olga Nelson of Deary was a Sunday dinner guest of the Ingles. Kraig and Kari Galloway spent the weekend with Grandma Eula and Jerry.

Charles Bower attended Search & Rescue maneuvers at Palouse last Saturday.

Charles and Erma Bower enjoyed Easter dinner with the Harry Schwartz family in Troy.

Easter dinner guests of Eula and Jerry Galloway were Mr. and Mrs. Steve Young of Kendrick and Mr. and Mrs. Gerry Bender of Moscow.

Tuesday morning Mr. and Mrs. A. C. Wilson and Leona drove to Walla Walla on business and returned home Wednesday afternoon.

Ruthie Wilson visited Ruth and Leona Wilson Friday morning. Glenda Wilson visited Saturday afternoon and Bill Adams was a Sunday evening caller.

Margaret Huffman of Grants Pass, Oregon and Gladys Whiting were Tuesday dinner guests of Eula Galloway.

Jerry, Kay, Randy and Susan Chamberlain were Easter dinner guests of Cecil and Elsie Chamberlain at the Kings Table in Moscow.

Gerald and Grace Ingle went to Boise Sunday on business and returned Tuesday.

Wednesday and Friday Gerald Ingle attended Health and Welfare meetings, one in Moscow, the other in Lewiston.

Weekend visitors of Mr. and Mrs. Gerald Ingle were Mr. and Mrs. Norman Nethken of Lewiston. Sunday, Kelle McBride and Kerry Martin, students at the U of I visited at the Ingle home.

Easter dinner guests at the Eddie Galloway home were: Mr. and Mrs. Ed Galloway, Mr. and Mrs. Dan Keckler, Mr. and Mrs. Roger Keckler and Darby, Mr. and Mrs. Jim Sturman, Mr. and Mrs. Harley Perryman and Gene, Mr. and Mrs. Mike Morey and sons, Mr. and Mrs. Harold Larson, Clarence Morey, Ada Fairfield, Anna Bower and Dewey Galloway.

Gertrude Sneve called on Anna Bower Friday, bringing some very delicious doughnuts.

Mr. and Mrs. Bill Adams and Brent met a group at Spalding Park for a picnic. Those attending were Mr. and Mrs. Donald Williams and children, Joyce Whitlock, Lon Hammon, Mr. and Mrs. Kevin Whitlock, Steven Whitlock and friend, Susan, all of Lewiston.

At Leslie Heimgartner Home— Sunday dinner guests of Leslie and Delores Heimgartner were Walter Zumhofs and Betty Cowger. Later in the afternoon the Arne Zumhofe family of Leland, with Linda Zumhofe's mother, Anne Hampton, joined the group.

Joining the Ken Steigers family briefly for turkey dinner on Sunday were grandma and grandpa Steigers. The very "poxy" grandchildren at least have retained their appetite, tho the inside of Brant's mouth was very sore! Ice cream, with strawberries, angel food cake, fresh rhubarb cream pie, etc.—who could resist eating!

Additional Beauty— About 8 acres, surrounding the lovely Cherrylane home of the Steve Kirkham family, has recently been seeded to lawn turf! Any rain now welcome there!
