**Cumberland
wasn't
a free pass.**

But it was America's first generation gap. Between 1775 and 1880, generation after generation of American settlers plodded through the Cumberland Gap.

A natural pass through the Appalachians that became the gateway to the West.

It was tough going. The cost was great. In money. And lives. But they paid the price. Because they were

building a country. Their country.

You can help build America today by buying U.S. Savings Bonds through the Payroll Savings Plan.

That way, a little is set aside from each paycheck to buy Bonds. Automatically.

It makes saving easy.

And that's something you can't pass up.

Letters to the editor . . .

Seattle, Washington
 June 22, 1981
 To Whom It May Concern:
 I was just in Genesee, to celebrate my 50th class reunion. I truly enjoyed the occasion. The chance to visit with class mates and to renew old acquaintances, was very much appreciated. Would like very much to thank all persons responsible, for making such an occasion possible. It has to take much planning and hard work for many people. The visit to the new school facilities was very interesting. It made me proud to know that my father, John P. Krier a long time resident of Genesee, was part of the planning for the facility as a school board member.
 On my return to Seattle, when I had finished reading the information write-up handed us, entitled "A Century of Formal Education in Genesee" my father's name was not mentioned. Needless to say I was very disappointed. In fact, John H. Broemeling's name is not mentioned as a board member. There may be more names missing, off hand I do not remember. My point is, if a few names are mentioned, why not all the names? I am sure the records are available to make the report complete.

Editor:
 Here we go again! The Latah Co. Commissioners are coming up short \$50,000 to operate the land fill so they are thinking of trying to force everyone to pay whether they use the land fill or not. Also, Ted Stanton of the Idahoian is getting on his hand wagon.

We have some items, which we have held for the past two years, that we do not wish to dump or bury on our place. We have asked the Commissioners several times about how to pay for dumping them at the land fill. Each time we have been told they have no way of collecting the money. Does this make sense? If they could supply coupon books to collect the money when they were trying to ram this down our throats in the first place why can't they do the same thing now for those of us who only have articles to dump once or twice a year?

Are they hoping that those of us who opposed the mandatory fee from the very first have grown older and more mellow, or did so we won't oppose it this time around?

There aren't any of us who opposed the mandatory fee from the first, who will not pay their share for the use of the landfill, however, we will not pay the monthly fee, when we only have a few garbage cans to dump each year.

We can assure them that we will fight just as hard now as ever against anything that is as unfair and unconstitutional as this and we think the other people that opposed it before still have the backbone to fight against it.

Nez Perce National Historical Park Begins Summer Show

"Nez Perce National Historical Park has begun its summer schedule of activities at the Spaulding Site," said Park Superintendent Paul Whitaker.

The Visitor Center will be open daily with a Park Ranger on duty between 8:00 a. m. and 6:00 p. m. Museum displays and a short audio/visual program focus on Nez Perce culture.

Nez Perce Cultural Demonstrators will be working at the Visitor Center Monday through Saturday between 10:00 a. m.-4:00 p. m. They will be demonstrating and explaining a variety of Nez Perce arts and crafts including beadwork and weaving.

Watson's Store, a restored early 1900's trading and general store, will be open Thursday and Friday from 10:00 a. m.-4:00 p. m. and Saturday and Sunday from 10:00 a. m.-5:30 p. m. Visitors are welcome to tour the store and learn about its owners and early-day business in the reservation area.

Nez Perce National Historical Park one of over 300 units in the National Park System, was established in 1905 to preserve, protect, and interpret sites in north-central Idaho which relate to the history and culture of the Nez Perce people and of the various groups which have interacted with them. The park consists of 24 separate historical sites which are scattered throughout a 12,000 square mile area. Of these, four, including the headquarters at Spaulding are managed directly by the National Park Service, while the other 20 are administered through cooperative agreements with private organizations, other federal agencies and state, local and tribal governments. This unique park represents the effort of the Park Service to preserve not only areas of outstanding natural beauty, but also areas which significantly reflect various aspects of the history of North America.

Nutrition for Today—Cooking and Nutrient Content

"Drain the vegetable!" If you're at all concerned with accuracy in language (and nutrition in your diet), that's not the sort of command you should be shouting about your kitchen. Why not "Throw away the vitamins and minerals!" instead?

Because, after all, that's what really happens. Many essential nutrients in the food you eat may end up poured down the drain or tossed in the garbage simply because they're not cooked right. The proteins, carbohydrates and fats (and, thus, calories) will still be there. But the minerals and vitamins may not—particularly those that are water-soluble.

Of the four food groups—milk, meat, fruits and vegetables, grains—foods in the meat and fruits/vegetables groups suffer most when cooked wrong. (Though some grains, like rice, also may lose nutrients when improperly prepared.)

For example let's say you're preparing a dinner consisting in part, of a beef roast, potatoes and string beans (the frozen variety). If you pull the roast from the freezer and place it on a plate to thaw for several hours before cooking, you'll wind up with one beef roast minus the nutrients that dripped out with the meat juices. And where will they have gone? Odds are they went down the drain.

Potatoes now. Peel them and you peel away the nutrients in the skins also. Worse, though, you strip them of the raincoats that keep boiling water out—and essential water-soluble vitamins and minerals in.

And if you cook the string beans in a potful of water, then bring them to the sing to "drain the vegetables"—well, you know what that really means.
 Here are some ways you can keep those vitamins and minerals in the foods you prepare:
 •Place frozen meats in the oven when still frozen—not thawed. Use the juices that drip during cooking for basting and making gravy.
 •Keep trimming and peeling of vegetables to a minimum. Better scrub than to strip. Also, avoid presoaking.
 When cooking frozen vegetables, use just enough water to keep them from burning in the pot. Save the water in which you cook fresh and canned vegetables for soups and gravies. You might also consider buying an inexpensive steamer to slip inside a pot, thereby letting you cook vegetables completely out of the water.

Attend Food Service Conference

Idaho School Food Services personnel from around the state met in Moscow at the University of Idaho last week for the organization's 24th annual conference. Helen Fey, Odette Draper, Beverly Bell, Iona Calkins and Jean Clemenhagen from Kendrick Jt. school district No. 283 were among the more than 300 conference participants.

Following registration on Tuesday delegates visited exhibits, attended workshops and general sessions. The conference theme, "Bright Ideas under the Big Top," was carried out in activities throughout the three-day conference. In addition to an idea exchange from around the state, workshops focused on self-esteem, physical fitness, public relations, nutrition, and national legislation affecting school lunch programs.

American School Food Services Association President Mary Nix of Atlanta, Georgia, presided at the installation of new state officers. Outgoing President Virginia Grosso of the Meridian School District will be succeeded by Maureen Condie of Preston. Vonda Stevens of Newdale will complete a two-year term as secretary during the 1981-82 school year. Shirley Allred, Gooding, School District has been treasurer, and will be succeeded by Betty Stuart of Sandpoint.

One of the things which Idaho School Services Association members pledge to do is to work together to improve school and community health through well-directed programs in their home communities and schools. These annual meetings serve as a means to renew and upgrade professional skills.

Next year's conference will be held in Boise at the Red Lion Riverside Inn.

Outdoor Waterbed Bounce

For an outdoor waterbed bounce, dig hole slightly larger than waterbed mattress. Line sides with 2x12 redwood frame. Place 2 inches of sand in bottom, set in liner and heavy-duty waterbed mattress. Fill. Pad frame and cover entire top with waterproof canvas, securing to frame. Fill in soil against outside frame. Jump to your heart's content, says Sunset Magazine.

DEPT. OF EMPLOYMENT

There were 48 new claims for unemployment insurance filed this week, compared to 31 new claims filed last week, according to Phyllis Dunn, manager of the Moscow Job Service. There were 248 continued claims filed compared to 252 the previous week.

Some of the jobs available in the Moscow area are for: experienced floral designer; stereo equipment salesperson; kitchen manager; jewelry sales person; bank teller; and a training position for police officers.

Motorcycles and Snowmobile Owners Should Be Aware Of New State Laws

Owners of off-highway motorcycles and snowmobiles should be aware that a new law, passed by the 1981 Legislature becomes effective July 1. The law provides that 90% of fines and forfeitures for violation of the registration law go to local governments and 10% to the state general fund. With this new distribution formula, stronger efforts are expected on the part of local law enforcement officials to see that a current registration sticker is on the vehicle.

The new law also provides for the same distribution of fines for parking at a designated cross-country ski parking lot without a Park 'N' Ski permit on the vehicle.

The off-highway motorcycle (dirt

bike) registration fee is \$2 a year; snowmobile registration is \$5. Both are available at the County Assessors office. The Park 'N' Ski permit is \$5 and is available at designated vendors selling winter skiing equipment. Those motorcycles licensed for the street can be used off-the-highway without the dirt bike registration.

The Idaho Department of Parks & Recreation, through the State's Off-Road Motor Vehicle Fund provides warning hula, and snowmobile parking lots, restrooms, trail maintenance equipment and the like. The registration fees go towards local maintenance costs of the trails and facilities.

Department officials estimate there are 22,000 "dirt bikes" in Idaho and only 900 registered in 1979.

Less than 50 percent of the snowmobiles in Idaho have been registered in the past.

The fine for not having snowmobile registrations ranges from \$10 to \$100; motorcycles up to \$200; and il-

legal parking in designated Park 'N' Ski lots is \$10; all plus court costs.

Department spokesman Bill Hagdorn noted that all of these registration fees go to benefit the users. Many have conscientiously purchased the registrations, only to see the facilities they help pay for used by others who don't other to purchase the registration stickers.

With the fines and forfeitures going to the local coffers, a more concerted effort is expected on the part of local law enforcement officials to enforce the registration requirements.

Debbie Wieber Promoted At Hawaiian Job

Miss Debbie Wieber, daughter of Mr. and Mrs. Robert Wieber of Sandpoint was recently promoted as Resident Manager of the Royal Kuhio Hotel in Honolulu, Hawaii.

Miss Wieber has been employed with Kingsport Corporation in Honolulu for the past year. She is the granddaughter of Mrs. Ella Herman of Genesee and Mr. and Mrs. Walter Wieber of Uniontown.

New Unemployment Claims Filed

There were 28 new claims for unemployment insurance filed this week, compared to 48 new claims filed last week, according to Phyllis Dunn, manager of the Moscow Job Service. There were 228 continued claims filed compared to 245 the previous week.

Some of the jobs available in the Moscow area are for: experienced floral designer; kitchen manager; jewelry salesperson; training position for police officers; and salesperson for pianos and organs.

Make Lavender Potpourri!

To dry flowers for making lavender potpourri, cut when first blossoms open or when spikes are in full bloom, suggests Sunset Magazine. Hang to dry in cool, shady place or strip flowers from spikes and dry on screen or tray. Great for sachets, too.

Keep Berries Longer

Since July is the peak of blueberry season, pick up several cartons and keep fresh up to two weeks by placing unwashed berries in refrigerator. For longer storage, wrap carton of berries well and freeze; since briefly just before using says Sunset Magazine.

Why?

On Sunday, July 12, General Telephone will begin charging for directory assistance service throughout the State of Idaho. The reason why this is necessary is simple:

Because those who use a service the most should be the ones who pay for it.

It's a fact that a very small percentage of our customers make the majority of calls to directory assistance. (7% of our customers make 50% of the calls). Yet everyone has had to bear the cost one way or another... until now.

Beginning Sunday, July 12, a 20 cent per call charge will be imposed on those customers who make an excess amount of calls to directory assistance. This step was approved by the Idaho Public Utilities Commission as part of our rate improvement request last September.

It's really a matter of balance... placing the burden on those who must use the service. Most

customers, however, probably will never have to pay for calls to directory assistance.

First of all, the initial six calls in any monthly billing period are free. And handicapped or disabled individuals who cannot use the directory are totally exempt. All

they need to do is contact the local business office for an exemption form.

There is also no charge for calls placed from public telephones or from hotel, motel or hospital rooms.

For businesses, the first six calls are free from every trunk line and group of eight lines off a Centrex system.

And there never is a charge for out-of-state numbers.

Directory assistance will be there when you need it, but remember to check your directory first. It's easier, faster and could save you some money.

Our Mildred Health—

Life goes on nicely on Hubbard Gulch. Mildred feeling pretty well, not quite the "early riser" she's always been. Sunday found a large group of afternoon guests. Son Edgar and wife Ruth from Nezperce brot their daughter, Carol Sue, her husband and two children, who are visiting from Texas. Inez Inghram and daughter Patti also joined the group. During the week new neighbors, the Victor Thulons, came calling. On July 4th, granddaughter Lisa Rugg of Lewiston, with a girl friend, took Mildred Heath "out to dinner" at Juliaetta—a pleasant event!

Hay Hauling—

Happily all baled, now hauling proceeds at the Erma Stevens ranch, as of Sunday. During Sunday afternoon, Erma, with Eldon and Gertrude Heimgartner, drove to Clarkston for cherries and later visited with Everett and Marie Custer. On July 4th evening Erma joined son Lloyd and family at their home for "BBQ" and fire works.

Two days camping and 'trying for fish' Tuesday and Wednesday of last week at Dworshak Dam was enjoyed by Glen and Marj Stevens. A good time, but, poor fishing luck.

American Ridge

By Jo Benscoter

At the Elder Hoisingtons—

A trip to their cattle country, by Cleis and Bea on Saturday, July 4th, was enjoyed. On Sunday, daughter Vivian Blair of Lewiston was their home guest. Haying is accomplished!

As usual, much "going" for Leslie and Delores Heimgartner over the weekend. "Upriver" on July 4th, with a family dinner at son Tim's. All men folk busy, but time off to eat together! On Sunday the afternoon was spent at Walter Zumhofs home, visiting Grandma Zumhofs, who seems well and cheerful.

Swimming lessons at the Kendrick Pool seems to be the "news" for several children from Stony Point, starting Monday July 6.

The Le Heimgartner family enjoyed a barbecue dinner at the Lapwai home of the Steve Boye family on Sunday. Watching the 4th of July fireworks in the Lewiston-Clarkston area was enjoyed by many.

A 4th of July fireworks display, from the Kerby ranch, and Pettit home was enjoyed by other homes in the area.

Ratliff Family Reunion—

Loren and Kathleen Steigers Ratliff arrived at the home of her parents, Ernest and Nellie Steigers on Friday evening from Bothell-Kenmore, Washington and the four attended the Ratliff Family reunion held in Beachview Park at Clarkston the 4th of July. Altho a very warm day, the Park was fairly comfortable. In this group were many from far and near—the great-grandmother, Lily Ratliff from Soap Lake; her daughter Helen and husband Don Couler of Clarkston; the Bert and Adah Ratliff Hix elders of Lewiston—Prairie area; their descendants from Grangeville, etc.; Ratliff cousins from Corvallis, Ore.; others from Georgia, Washington, Louisiana also Dwan Space and wife of Lewiston—you name it! Later in the evening, gathering at the yard swimming pool at the Couler home, about 12 of the group "cooled-off", even to the spry Lily! Ernest & Nellie were the only "chickens" who did not! Nellie did enjoy having her hot feet cooled by a drizzle from the hose, on her "support hose"! Don is a most obliging, kind host!

On Sunday dinner at Uncle Alvin and Aunt Mabel Steigers, and having workers and family, (Ralph's) was a treat for Kathleen! Husband Loren and brother-in-law Dwan Space, spent all day Sunday on a drive to old haunts in the Weippe area.

A Trip to Korea—
Mr. and Mrs. Ray Evans (Evelyn Heath), accompanied by Mr. and Mrs. Buck Batterton, recently returned from a most enjoyable trip to Korea, bringing home an adorable 6-month-old Korean granddaughter for Evelyn and Ray—their 4th adopted child for their daughter Kay and her husband! All are from Korea and are a remarkable group—the first 3, a little girl, then twin boys, all entering pre-school at the same time! Now this new little sister! From different parents. Pictures of the 4 were shown to Kathleen Ratliff and her mother Nellie when a Sunday morning call was made to the nearby Evans trailer home. This was the first time in about 35 years that Evelyn and Kathleen had been together, since school days!

Mr. and Mrs. David Steigers were Sunday late callers to see sister Kathleen at the home of the parents, Diane Pettit was a drop-in guest. The visitors were guests in the Lewiston home of brother Bill and wife Mary on Saturday evening. The Ratliffs departed homeward on Monday morning, July 6, after overnight with Loren's sister, Helen Couler, and family in Clarkston.

Pine Creek People—
Carol Richardson and daughter Rena of Orofino on Thursday "collected" Helena Brown and all spent the day in Lewiston, shopping and visiting. Saturday, July 4, was enjoyed at Pinecreek with Helena, Don, Jan and Allen Brown, and young friend, all of Lewiston, finishing off with fireworks!
Recently the Don Hoisington family spent several days "camping" at Dworshak.
Monday morning, July 6, "mists" River recedes, but "up and down" with water release.

Monday evening Lawrence and Nell Heimgartner joined other area Grangers at Ferdinand for a Pomona Grange dinner meeting and 5th degree initiation. Latah County degree team had charge of the initiation ceremony. Nell Heimgartner was acting Lecturer and Lawrence on the sould effects team.

Walt and Babe Benscoter called on the Jack Benscoters at Pullman Saturday morning and from there they all went to Johnson to see the 4th of July parade. From there Walt and Babe continued their trip down the hill to Lewiston where they called on Wilma and Tom Greene before crossing the river to attend the Woody family reunion in the Clarkston park.

Mark and Julie Heimgartner accompanied Dick and Vicky Benscoter to Grandview Lodge on Priest Lake to spend the 4th with the Bob Benscoters. They had a most enjoyable trip, the weather was nice so they were able to take a boat trip around the lake and also Bob took them by plane over the lake and surrounding country. They returned home on Sunday evening.

Vicky Benscoter was in Lewiston Wednesday afternoon to visit Karen Gold and family.
Sunday evening Lawrence, Nell and Ray Heimgartner visited the Dick Grosecloses in Juliaetta and enjoyed Marilou and her fireworks.

On Thursday evening the Heimgartners visited the Harlan Feys and their houseguests Mr. and Mrs. Ken Sloan who are visiting here from their home in Arkansas. Ken entertained them with his fiddle.

Frankie and Jo Benscoter were in Lewiston Thursday and enjoyed lunch with son Don. They were accompanied by Clint Johnson who drove the car to help them avoid the concentration of extra-heavy traffic.
Callers in the Benscoter home included Vicky and Walt Benscoter and on Sunday Wayne and Phoebe Davis and Wayne's mother, Mrs. Zaidie Davis.
Ray and Fran Benscoter were Sunday guests of their parents, Frankie and Jo. On Friday Frankie and Jo called on the George Hayens. He and Elizabeth were just returning from a car ride around the neighborhood. We are all happy to see this much improvement in George's health. Other callers during the week, in addition to Ira and Vickie were Dr. Eric and Loreca Stauber and their son Eimer. Eimer's sister, Anya, is visiting in California.

Edwin and Joe Forest were Spocaine visitors July 1 for medical checkups.
Monday Joe and Edwin Forest visited with Ole Kleih in Lewiston.
Guests at the home of Gerald and Dorothy Halseh for a steak barbecue the evening of July 5th were Ed and Arnold Halseh, Edwin and Joe Forest of Bear Ridge; Jake and Connie Schaper and girls from Moscow; Mike and Chris McLaughlin and boys from Troy. Stan and Margarette Cox from Avon. Jim and Carroll Hicks and their 3 children and Kim Mingel, all from Alexandria, Virginia. Ervin and Helen Halseh from Kendrick. The group had a good visit with family and friends. A salad bar prepared by the ladies and steak cooked by Mike and Jake, Dorothy's sons-in-law.

Weekend guests of Mr. and Mrs. A. C. Wilson and Miss Leona were Mr. and Mrs. John Lewis and Mrs. Myrtle James of Hayward, Calif., also Gilbert Lutz, who will be staying on for a longer visit.
Edwin and Joe Forest were Spocaine visitors Thursday afternoon.
Sunday evening Mr. and Mrs. Cecil Chamberlain called on Mr. and Mrs. Oscar Slind.
Visitors Thursday in the Oscar Slind home were Pastor Jack Lewis and wife Rosemarie and three daughters from Tibvion, Calif., also Mrs. Margaret Ellis, Mrs. Alma (Aas) Plumber of Spokane, Mr. and Mrs. Worthan Rawson of Juliaetta were Sunday evening callers.

All were given to Engineer C. Morey who will check on each.
Visitors included Don Jain, who asked that W. Ash be improved by removal of weeds and leveling of the fill dirt that has been placed. Street Commissioner Moden will be contacted upon his return.
Bill Shirley feels he lacks water pressure at his home and Engineer Morey will make arrangements to bring up a recorder to determine pressure or lack of it. Shirley also discussed the need for a permit to re-roof a building when no structural changes were made. He was advised to contact our Building Inspector Del Owens.

Ray Revord attended and reports that while the city employees were spraying, a strip of his lawn was damaged. Supervisor Luedke will check on this and make an effort to correct the problem.
Bills in the amount of \$12,164 were reviewed and approved for payment. Mayor Wilson and Councilmen Johnson and Herman will meet with the Latah County Commissioners on July 13th at the request of the commissioners to discuss county-wide problems, mainly animal control and solid waste.

The office of the city clerk will be closed on July 23.

July 3, 1981

In regard to Estate Inheritance and Gift Taxes

Anyone owning property pays taxes on it, and the income from that property. At death, the estate is taxed again. In many cases the property must be sold or mortgaged to pay the tax. This happens to each succeeding heir (s) thus putting small business and farms out of existence. The strength of the nation was built on the family business. Let's keep it that way!

U. S. Senator Steve Symms is co-sponsor of S. 395 9th Congress Features of the bill are:

- Allowing gross value up to \$600,000 to be transferred tax free. Cutting estate tax rate 10% across the board. Eliminating the so-called widow's tax. Presently requiring spouse to pay tax on anything over \$250,000 or 1/2 of decedent's adjusted gross estate.

Increasing gift tax exemptions which haven't been raised in 35 yrs. from \$10,000 to \$10,000.

The sole purpose of estate taxes is to prevent excessive accumulation of wealth. They are actually interfering with the transfer of small business and farms from one generation to the next and discouraging any improvements on capital investment.

Mr. Symms is co-sponsor of S. No. 404 97th congress which repeals all federal estate and gift tax laws.

This is our chance to rid ourselves and future generations of an unfair tax burden. Write your Legislators to support Mr. Symms. The people still control our Legislators if we stand united and let our stand be known.

Hon. James McClure
U. S. Senate Senate Building,
Washington, D. C. 20510

Hon. Steve Symms,

Love Is a Luxury

Money can buy many things. Mansions, cars, boats, and vacations. But if your heart is broken, you need a special feeling. Why you can't buy love. It is necessary for the family. You can travel east or west to find love, but it is not in your heart, it is in yours.

Money can buy the best of education. But you have nothing without desire or determination. So money cannot buy the true business of life. We need love and a future for our future state. Thus if we haven't love, we have no real incentive.

And none can be truly happy if they have no love to live.
Michelle Pike

Spring Rains Helped Hydroelectric Situation

Above normal water conditions presently prevail on The Washington Water Power Company hydroelectric system in eastern Washington and northern Idaho. Harold W. Harding, vice president of supply for WWP, said the favorable water situation results from recent amounts of precipitation in April, May and June.

"The inflow of water to Lake Coeur d'Alene, which feeds the Spokane River system, is dropping approximately 1,000 cubic feet per second per day since the warm weather arrived in late June, but the river is flowing at twice its normal rate for this time of year," Harding said.

The WWP official said all nine dams are operating at full capacity, and surplus energy is being sold or traded to utilities outside the region. "Most of the sales contain buy-back provisions which means that WWP can get the power back when it's needed, usually in the winter months when peak loads are recorded. Excess water which can't be utilized for generation is being spilled over the dams, but this condition should cease
