Halseth-Klette Reunion Held at Halseth Farm August 27-28

A "little bit of Norway" was the theme of the Halseth-Klette reunion held at the Halseth farm August 27, and 28. About 70 relatives gathered for the first big reunion in many years.

For many weeks the big house on the farm had been readied for the event.

The Saturday evening "potluck" was special with several Norwegian dishes, including Lefse, Krum Kakke, Krub, (potato dumplings) and much more.

A Sunday morning "brunch" began by the group singing, "God Bless America", Betty and Margarete sang, "How Great Thou Art," and Ron Jones' guitar and solo was "Lean on Me". There was a time of remembering parents, and the family heritage. A family history had been prepared for each.

Gerald took those who cared to go on a tour of the farm.

Those coming from a distance included Bill and Agnes Stauffer, Morgaga, Calif.; her brother, Ernest Halseth, Santa Ana, Calif.; Everett and Marge Battson and Bob and Karen Hubert, Tacoma, Wash.; Art and Mabel Burig and son Rudy and his son Andy, daughters Jan Roberts and Juanita McDonald of Spokane, Wa.; Carol and Cleo Klette, Marvin and Sally Klette and Loren Klette, Martin and Lecna Llette, all of Conrad, Mont.; Jerry and Gladys Grey, Uln, Mont.; Jim and Chris Mattson and sons Matt, Eric and Travis of Kirkland, Wash.; Ed and Shirley McKinney, Rye Valley, Huntington, Oregon; Don and Betty Cox, Laguna Beach, Calif.; Harold Halseth, Seattle; Stan and Margarete Cox and son Don and Elaine Cox and Kristen, Avon; Ben and Betty Chisholm and daughter Kim and Ray Wessels, Lewiston; Boyd and Helen Leland, Clarkston, and Rick and Lisa Basarabba and Devin and Jonah, Lewiston; Ron and Cathy Jones, Heidi and Justin, Clarkston; Dick and Vicki Witt, Bryan and Jason, Juliaetta; Ervin and Helen Halseth, Kendrick; Gerald and Lee Halseth, Bear Ridge; Mel and Myrtle Halseth and son Ron and Cherrie and Kasse, Bob and Carol Meserve, Dina Peterson and Darcy Proctor, all of Deary; Helen Slocum Mahurin and Karl and Joyce Froeming of Lewiston.

A wonderful time was had by all and hope those who couldn't attend will be with us next time.

Meal Site Tidbits—

By Dorothy Horn

Christmas in August! Meal site seniors celebrated Christmas early again this year with thoughts of cheer, gifts and hopes of cooler weather! As Santa was busy with his yearly projects, he sent his ever-able, happy, smiling helper, Mrs. Santa to distribute gifts to all present. A special thanks to Mabel Glenn—you are a jewel to help us celebrate Christmas early every year. The site council had worked very hard to make the atmosphere one of a Christmas theme with decorations as well as seniors who displayed their enthusiasm in participating in the project.

Friday at the meal site was the beginning of another month with many fun activities planned for all seniors, so please come join with us.

To the people of Kendrick who so generously shared their gift of love and caring for the Iowa and North Dakota farmers who traveled so far to this area to put up hay, we seniors say thanks to all who gave so generously.

Food Scientists Recommend Changes in Canning Rules

New rules for processing home-canned fruits and vegetables are designed to safeguard the health and safety of consumers, according to Marilyn Swanson, extension foods and nutrition specialist at the Uni-

versity of Idaho. She said the U. S. Department of Agriculture acted on the advice of leading food scientists when it recently announced new recommendations for home canning procedures.

"The new USDA recommendations will help home preservers to produce consistently high-quality fruits and vegetables. The new recommendations will be incorporated in guidebooks now being prepared by manufacturers of pressure cookers and canning jars," Swanson said.

Canning information which conforms to the new USDA recommendations is available at county offices of the University of Idaho Cooperative Extension Service, Swanson said. She said Pacific Northwest nutrition specialists collaborated in preparing three publications on home canning.

"We have a brand-new publication—'Canning Tomatoes and Tomato Products', which is No. 300 in the Pacific Northwest Extension Series. We also revised the PNW publications No. 172, 'Canning Vegetables' and No. 199, 'Canning Fruits'. For up-to-date information on home canning, obtain these publications at your county Extension Service office," Swanson said.

Idaho families should discard old home canning reference materials, the UI educator said. "It's good policy to follow the new USDA recommendations. They're based on reliable scientific data," she said.

The USDA is making explicit recommendations about the kinds of jars and lids which should be used. A few processing times have been changed. In regard to pressure canners, the USDA now lists different processing recommendations for the weighted and dial gauge canners.

Pressure saucepans are no longer recommended by the USDA for home canning. In the making of jams and jellies, paraffin is no longer recommended as a sealer. When paraffin is used, toxic mold may be a problem.

Haying Done—Finally!

Haying is finally done including a relatively new crop—pearl barley—hay raised on Park Ranch and Cattle Co. land.

Harvest Progresses—

The wheat has been combined and the barley is well on its way to completion. The dry weather has curtailed many outside activities, as area folks have stuck fairly close to home to guard against fire.

Pastures have dried to the extent that the range cows are welcoming a few bales of hay now and then.

Mrs. Dan Willis made a brief business trip to Colfax on Tuesday.

Sunday Mr. and Mrs. Clinton Smith and Leah and Jody Smith attended the annual Labor Day picnic at Lewiston. The party for the entire family was organized by Ethel's uncle and aunt, Mr. and Mrs. Lloyd Slatter. About 40 attended and enjoyed a potluck picnic followed by seven innings of red-hot soft ball. The ice cream wagon that happened by at the close of the game was welcomed with open arms and wallets!

Clearwater Fair, Lumberjack Days in Orofino Sept. 16-18

September 16, 17, 18 will bring excitement and thrills as Terry Selby of Philomath, Oregon performs a high pole comedy act to climax the 1988 Clearwater County Fair and Lumberjack Days in Orofino.

This big weekend begins with 4-H activities Wednesday and Thursday with 4-H exhibits open to the public on Friday. A kiddies parade takes place at 12 noon on Friday with the 4-H livestock events following the parade. The theme "Sing a Country Song" leads the way for a very interesting and thrilling parade on Saturday with Grand Marshals Norm and Barbara Fitzsimmons leading the way.

An auction of loads of logs, firewood and something for everyone fills Saturday afternoon along with the livestock auction all taking place in the Orofino City Park Arena. The preliminaries for the six finalists for the Sunday Show are also taking place Saturday afternoon and at 4 p.m. the truck driving and skidding contest will be held to see who's the best.

Sunday brings the horse pulling contest at 9:30 a.m. at the City Park Arena with teams of horses and ponies from Idaho, Oregon and Montana. The free logging show consists of birling, power sawing, chopping, spring board chop, single bucking, speed climbing, championship Jack-Jill sawing, axe throw, vertical chop, 2-jill saw, 2-jack saw and local relay and tug-of-war events.

Other activities during the four-day event includes a carnival with over 20 rides, specialty food booths, Museum Open House Saturday afternoon and a logger's breakfast in the wee hours and much more entertainment.

For additional information call 476-3412 at Orofino Celebrations, Inc. Admission is free to all except rides and carnival related activities.

Disabled May Work While Receiving Social Security

There are special provisions in the Social Security law designed to encourage blind and disabled supplemental security income (SSI) recipients to try to work. These provisions allow recipients to work without fear of losing all their SSI checks or Medicaid coverage. Also, recipients whose checks were stopped because their earnings made their income too high to receive checks may be able to receive checks again if they find they no longer are able to work.

Recognizing that a disabled recipient's return to work may not follow a steady progression, the law allows the recipient to use SSI as a stepping stone to employment. Recipients may continue to receive some money from SSI while testing their ability to work. The amount received depends on the amount of earnings—as earnings increase, the SSI payments decrease or stop. A recipient who finds his or her work attempt is unsuccessful, however, may have payments started again—often without filing a new SSI application.

In addition, many blind and disabled recipients can keep their eligibility for Medicaid coverage even when their checks stop because their earnings make their income too high to continue receiving checks. To keep Medicaid coverage, a recipient must continue to be blind or disabled, meet all other non-earnings SSI eligibility requirements, depend on Medicaid coverage to continue working, and be unable to purchase sim-

ilar medical care.

Blind or disabled recipients who work also are encouraged to develop a "plan for achieving self-support." This plan allows them to set aside income and/or resources for a work goal and can mean an increased SSI payment. Some examples of work goals include education, vocational training, starting a business, or purchasing work-related equipment. SSI is a low income and resources, financial need program administered by the Social Security Administration for the aged and disabled. More information about the SSI work incentive provisions can be obtained by contacting the Social Security office at S. E. 1205 Professional Mall Blvd., P. O. Box 459, Pullman, Washington 99163.
