Kendrick School District Announces Policy for Free, Reduced Price Meals

Kendrick School District No. 283 this week announced its policy for free and reduced price meals for children unable to pay the full price of meals served under the National School Lunch Program. Each school and the office of the Superintendent has a copy of the policy, which may be reviewed by any interested party.

The following household size and income criteria will be used in determining eligibility. Children from households whose income is at or below the levels shown are eligible for free or reduced price meals.

Application forms are being sent to all homes with a letter to parents or guardians. To apply for free or reduced price meals, households should fill out the application and return it to the school. Additional copies are available from the principal's office in each school. The information provided on the application will be used for the purpose of determining eligibility and may be verified at any time during the school year by school or other program officials.

For school officials to determine eligibility, households receiving food stamps or AFDC must list the child's name, their food stamp or AFDC case number and the signature and name of an adult household member. Households not receiving the food stamps or AFDC must list: names of all household members; social security numbers of all adult household members or a statement that the household member does not possess one; total household income and the amount and source of the income received by each household member; and the signature of an adult household member certifying that the information provided is correct.

Applications may be submitted at any time during the year.

Under the provisions of the free

and reduced price policy, Eldon Taylor, Superintendent, will review the applications and determine eligibility. Parents or guardians dissatisfied with the ruling of the official may wish to discuss the decision with the determining official on an informal basis. Parents wishing to make a formal appeal may make a request either orally or in writing to Doug Harris, Board Chairman, Kendrick, Idaho, Phone 289-4622, for a hearing on the decision.

Households that list a food stamp or AFDC case number must report when the household no longer receives these benefits. Other households approved for benefits are required to report increases in household income of over \$50 per month or \$600 per year and decreases in house size. Also, if a household member becomes unemployed or if the household size increases, the household should contact the school. Such changes may make the children of the household eligible for benefits if the household's income falls at or below the levels shown below.

In certain cases, foster children are also eligible for school meal benefits. If a household wished to apply for benefits for foster children living with them, the household should contact the school for more information. The information provided by the household is confidential and will be used only for the purposes of determining eligibility and verifying data.

In the operation of child feeding programs administered by the U. S. Department of Agriculture, no child will be discriminated against because of race, color, sex, national origin, age, or handicap. If any member of a household believes he/she has been discriminated against, he or she should write immediately to the Secretary of Agriculture, Washington, D. C. 20250.

Golden Sunset Group Were Part of Latah Senior Picnic in Moscow

Fifteen Golden Sunset Senior Citizens traveled to Moscow City Park on August 8, via a school bus with Milt Patterson in the driver's seat—the purpose of the trip was to attend the annual Latah County Senior Citizens picnic.

Approximately 150 seniors attended this annual event and there was lots of "hand shaking", "hugs" and happy "Hellos". It always is so good to meet old friends, along with new acquaintances from through the county.

Another good feature of the picnic is the fact that many folks from the local nursing homes are brought in, giving them a chance to visit and enjoy a day in the park.

The picnic dinner is always of the finest caliber—luscious food and, of course, lots of it!

An added feature—and always a popular one—was the presence of the Idaho Old Time Fiddlers, entertaining with their special kind of toe-tapping music!

Those attending from here were: Mildred Johnson, Opal Dickenson, Martha Long, Irene Christensen, Kathryn Morey, Easther Shreffler, Grace Ingle, Bid and Anna Fairfield, Delores and Ray Polumsky, Alberta Turner, Ruth White, and Jim and Edna Bower who came from Deary.

Dolores Polumsky held the lucky tickets for the bus drawing!

Juliaetta Lifts Watering Ban

The City of Juliaetta this week lifted the total outside watering restrictions it imposed last week when the pump on one of the main water wells quit functioning, seriously reducing the water available to keep the reservoir filled.

City Clerk Mary Jo Vallem said the pump (No. 9), had been repaired and residents may now resume outside watering on the same schedule as before, that is on an odd/even day basis.

Residents below (South of) State Streets may water on even days of the month (2, 4, 6, etc.) Residents above (north of) State Street may water on odd days of the month (3, 5, 7, etc.)

The council wishes to thank the citizens of Juliaetta for their cooperation and understanding during this recent crisis.

Traci Anderson Attended U. of I. Science Camp

Traci Anderson, daughter of Cec and C. A. Anderson, recently attended a two-week math, science, and engineering camp at the University of Idaho. The program, "Measurement in Science," was presented by the U. of I. and the National Science Foundation. The program was designed to give 24 of Idaho's young scholars a chance to witness close-up how research is done in different fields. The students chose classes from six of eight modules. The modules included entomology (the study of insects), chemistry, biology, physics, electrical engineering, math, computers and geology. Several of the university's fine professors took time out of their busy schedules to aid the program.

John DeMoura, the project coordinator, did a great job on the program. And, as a special treat at the closing ceremony, Elizabeth Zinser, the new president of the U. of I., was the guest speaker.

Traci found the program to be very worth-while and made a lot of new, life-long friends, she said.
