Juliaetta School Enrollment Up

NEW SCIENCE CURRICULUM, BOOKS ADDED TO CLASSES

Enrollment is up at Juliaetta Elementary Grade School. Current enrollment is 155 students. Teacher are glad to see all the happy smiles on student's faces each morning. Juliaetta Elementary has adopted a new science curriculum for all grades. In order to enhance the science curriculum and supplement the new books all the classroom teachers participated in a three-day (two Saturdays and a Friday evening) workshop offered through the University of Idaho. The instructor, Terry Armstrong, provided many motivating and challenging techniques for incorporating "hands on" activities into the science curriculum. Both teachers and students are excited to have the new books and are eager to learn.

The candy sale at the grade school was a tremendous success thanks to lots of support from the community and hard work on the part of the students.

Students Planted Centennial Tree
On Thursday, October 11, 1990, seven students from the Juliaetta Elementary School planted a tree in the Kendrick City Park. The tree was a London Plane Sycamore and was planted in honor of Kendrick's Centennial.

With some help from Mrs. Steve Howerton, the students, one from each grade, planted the tree, watered it, and fertilized it.

Some students at the elementary school had to write an essay on why they wanted to plant this tree. The students who planted the tree were: Lance Hedler from the kindergarten, Alecia Brocke from the first grade, Chelsie Henson from the second grade, Tim Silflow from the third grade, Billy Brown from the fourth grade, Aaron Clemenhagen from the fifth grade and Ferris Gibbs from the sixth grade. All the students were very proud with their accomplishment.

I participated in the planting of the Centennial Tree. I would just like to make sure that people are aware of this great tree and the safety of the tree. This tree is not just any old tree; this tree is a marking of Kendrick's 100th anniversary. I also hope that people do not harm this great tree. We should protect this tree and treat it as if it were our own.

I liked planting a tree because the world is running out of trees, and I love Idaho a lot. Plus Idaho is my favorite place!

Fire Prevention Week Celebrated

Last Friday, October 12, 1990, the Juliaetta grade school celebrated Fire Prevention Week.

Jeff Lohman (the fire chief), Frank Groseclose, Mike Boe, and a clown came to help celebrate with the grade school. The clown presented an assembly and the fire truck came, too. All the grade schoolers were involved and all got to crawl on the fire truck.

A contest was held on who could draw the best poster for Fire Prevention Week. The first place winners won a case of coke. The second place prize winners received a half case of Coke, and the third place winners received a 6-pack of Coke. The winners for the sixth grade were: Carissa Heutis for first, Kristie Flatt for second place, and Angie Gray for third place. In the fourth grade Mercedes Eichner won first place, Billy Brown won second, and Daniel Bunch won third.

The judges included grade school teachers Mrs. Parks, Mrs. Circa, and Mrs. Fredenburg.

The Centennial

To me, the Centennial means that Kendrick has been around for 100 years. It's neat to see all of the old things that were around a long time ago and some of the those we still use today. I'm glad we celebrated Kendrick's anniversary. Even though it was cold and rainy part of the day, I think everybody had fun. I could tell that the people who made floats or people who rode horses were very proud to be a part of this celebration.

The people who sang and played instruments had a lot of fun together and the plays at the high school were fun to watch. I'm glad we had our 100th anniversary when I was around, because I got to see everyone in our town working together to make this a success.

Even though Kendrick is a small town there are a lot of neat people here, and they spent a lot of time and hard work to get ready for this. I hope we can have all these events at Locust Blossom every year so

MIKE MORGAN WINS FOOTBALL FORECAST

For the fourth week now young people continue to dominate Kendrick's weekly football forecast of NFL games. This week the pattern was continued when Mike Morgan, the son of Dave and Shirley Morgan of Kendrick beat out well over a hundred over predictors to claim his prize.

Young Mike missed only three games. Ken Wilson also only missed calling only three of last weekend's football games, but Mike came closer on the tie-breaker game.

Last week's contest was sponsored by Phil's Food City. This week George F. Brocke & Sons is sponsoring the forecast and the winner receives a gift certificate.

Out-on-the-Limb—

Luck finally ran out on Jeff Smith last week. Smith was proudly carrying a 4-1 record on his weekly out-on-the-limb predictions, but when he thought the Vikings were going to beat the Washington Redskins, that was just a little too much.

Still full of confidence, Jeff goes back out on his limb this week to say that the San Diego Chargers are going to defeat the L. A. Raiders at San Diego.

Refreshments will be served following the meeting. Anyone wishing more information may call Julie Heimgartner at 289-3261.

everyone in Kendrick and Juliaetta will remember Kendrick's 100th Anniversary Celebration.

—Jami Silflow Eighth Grade The Centennial

I thought the Kendrick Centennial was very fun. I played in the Community Band. The Community Band was what I enjoyed the most. I play the saxophone.

The food was neat. They had Russian food, Polish food, Buffalo Burgers and Fry Bread. I tried all the food there. It was all excellent.

I also enjoyed looking at the old photographs. I found out that Leland, near where I live, was once a large community. You couldn't tell by the way it looks now.

The Centennial was great fun. I enjoyed the parade and all the entertainment. It seems it meant a lot to me even though I have only lived here nine years.

—Paul Rush Eighth Grade The Centennial

The Centennial of Kendrick is very important. One hundred years ago, in 1890, a place called Kendrick was founded.

The Centennial had many things in it. One of the children's favorites was the Teenage Mutant Ninja Turtle, Raphael. Raphael was at the Centennial to help children and parents be happier during the Centennial.

Another activity that was exciting was the fishing pond in the wading pool at the Centennial. C. A. Anderson, Dean Brocke and many other people helped put 200 to 300 fish in the wading pool. The rent for a pole was \$1.00 until you caught a fish.

The Kendrick Centennial is very special to a lot of people. I hope I will be around for the next one.

—Taj Anderson Eighth Grade The Centennial

I think the Centennial celebration was a great idea so every one will always remember Kendrick's birthday.

The Centennial parade also made the celebration even more fun. The Centennial celebration brought people from all over both young and old, to take part in the celebration.

People volunteered to help clean up the town for the event. That shows you that they really care.

People from different states and towns came here to be in the parade and to watch it.

All of the people who donated things and who worked hard on the Centennial parade and celebration should be thanked. They did a great job!

Clothing Store Families on Float

PART OF KENDRICK HISTORY

By Frank Jacobson
Participating in last Saturday's celebration were a number of visitors and local residents whose families had at one time been associated with clothing stores operating in Kendrick during the last 100 years. The group of very special celebrants were brought together by Velda Mae Colbaugh to appear on a float designed to recall and celebrate those early day businesses.

Representing the McGrew Merchandise and Clothing Store, originating in the 1890's and destroyed in the big fire of 1904 and never rebuilt was a granddaughter, Mrs. Nadine Swanson and husband Lowell from Tigard, Oregon. Mrs. Swanson's mother, Veva (McGrew) Ellis is still living at 98.

Other early clothing stores included that operated by Haizelt and Norman Aslo (pre-1905) and the Baker Store, 1905-1920.

The Beckwith Store, which began operation in 1905, was sold by Fred S. Beckwith to E. H. Dammarell and John Florence in 1911. Florence remained a partner until 1922, and the business was called the "Kendrick Store" until it closed in 1929.

Representing the Florence family on the float Saturday was Jack Florence's granddaughter, Joyce Shawley. Before coming to Kendrick, Florence had store at Cloverdale, Washington. Paul Dammarell and wife Midge of Juliaetta represented his father, E. H. Dammarell.

Brothers Marvin and Tom Long joined their father who was already in business and bought the Baker store in 1920. The store then became "N. B. Long & Sons." Kathy Long of Lewiston, a granddaughter of Tom Long, represented the family on the float.

Thurber's which opened in 1928 and became the Olderness Department Store in 1960, was represented by daughter Ida (Thurber) Olderness of Spokane. The Olderness store, which continued to operate until 1972, was represented by Ida and husband Harold Olderness.

The Olderness store was bought by Howard and Glenora Braden in 1972. Daughter Becky (Braden) Deymonaz of Moscow represented her parents on the float.

In 1977 George and Velda Mae Colbaugh purchased the store, and it became Culpepper Clothing Company. Representing their store on float were Velda Mae and daughter Carol (Colbaugh) Dammarell.

And representing the fifth generation of the E. H. Dammarell 'Kendrick Store Company' and the third generation of Culpepper Clothing Company was young Megan E. Dammarell of Kendrick.

Thanks to Velda Mae for having brought this group together to help revive memories of earlier days in the clothing business in Kendrick.

KENDRICK CENTENNIAL CELEBRATED LARGE CROWDS ATTENDED EVENT

Governor Andrus at Saturday Night Ball

Kendrick's Largest Crowd Ever

Ignoring the cool, damp weather, a chilling wind, and a brief shower of rain a crowd estimated to be in excess of 2,000 gathered Saturday, October 13, to observe the 100th anniversary of the incorporation of Kendrick, Idaho as a city. A day of activity and entertainment, punctuated with prayer, pride and remembrance, was a fitting tribute to a grand old community that had reached its centennial year.

People from many parts of the United States, whose roots run deep in the community's history, returned to Kendrick for the centennial and joined with hundreds of local and nearby relatives and friends. These, in turn, were joined by numerous state and county dignitaries including Idaho Governor Cecil D. Andrus, who was present at the Centennial Ball that evening.

It was a cold, blustery wind that whipped the large crowd gathered on main street near the park at 10 o'clock to witness the opening ceremonies. Dana Magnuson, a local businessman and a member of the Latah County Board of Commissioners, served as master of ceremonies. A color guard from Baker-Lind Post 3913, Veterans of Foreign Wars, representing the four branches of military service, presented the flag of the United States and of the state of Idaho. The guard was composed of Robt Rollins, USAF; Richard Witt, US Army; Keith Ford, US Navy, and Frank Dammarell, US Marine Corps.

Following the raising of the flags, Mr. Magnuson led the crowd in the Pledge of Allegiance. The invocation of blessings on the day was made by Pastor Doug Littleton of the Kendrick Assembly of God Church.

Next, Kendrick Mayor Jerry Brown made the official welcoming remarks and read the text of the original grant by the Latah County Commission of the petition for the incorporation of the Town of Kendrick. Mr. Brown is a native of this city and his grandfather, George F. Brown was mayor in 1914.

Harry F. Magnuson of Wallace, Idaho, chairman of the Idaho Centennial Commission, accompanied by his wife, Colleen, was introduced by Dana Magnuson.

Harry Magnuson told the crowd that "You have a double reason to celebrate on this day." He went on to say that, "You look forward to the second century, and you celebrate the preservation of the quality of life this community represents." Following his remarks, Mr. Magnuson was represented with a Kendrick Centennial Commemorative Medallion.

Introduced as very special guests were descendants of Thomas Kirby, the founder of the town. A number of Kirby's descendants still live in nearby towns. Also present for the day were Al and Lucille Kendrick of Toppenish, Washington, who are descendants of James P. Kendrick, the railroad engineer for whom the town was named.

Mary Reed, director of the Latah County Historical Society and chairman of the parade, introduced as very special guests were descendants of Thomas Kirby, the founder of the town. A number of Kirby's descendants still live in nearby towns. Also present for the day were Al and Lucille Kendrick of Toppenish, Washington, who are descendants of James P. Kendrick, the railroad engineer for whom the town was named.

The "55 Alive" driving course for senior citizens is scheduled for Tuesday, Oct. 30 and Thursday, Nov. 1, at the Kendrick Senior Center, reminding Center Coordinator Ruth. Al. White.

The class is conducted four hours each of the two days beginning at 10 in the morning.

Arnie and Linda Zumhove

person of the Latah County Local Celebrations Committee of the Idaho Centennial Commission, was introduced and she made the presentation of Kendrick's centennial bench and the Centennial Tree.

The dedication of the Centennial Time Capsule, fabricated by Chas. Dammarell of Lewiston, a descendant of a pioneer family. The capsule will be encased at a later date and will hold items of interest from this point in the town's history.

Also dedicated Saturday was the Rochdale Centennial Park and a newly created horseshoe pit, made possible through the generosity and spirit of the Kendrick Rochdale Farmer's Cooperative with financial assistance from the Juliaetta-Kendrick Recreational District.

Charles Bower, who was born and raised on Big Bear Ridge, the son of area pioneers, and his cousin Harold Larsen, presented a new "Liars Bench" to the community in the name of Alex and Katie Galloway, who were among the earliest settlers on Big Bear Ridge.

Dana Magnuson then made official recognition of the efforts of two individuals. George F. Brocke, Jr. the chairman of the Centennial Committee was given the appreciation of the community for his untiring labor in organizing and supervising the day's celebration. Two years of planning and work went into the presentation of Saturday's event.

Also singled out for special recognition was James Hoogland, Jr., the man who designed, constructed and helped erect the booths used on Saturday and which will be utilized for many years to come.

THE FINEST PARADE

It may be, in coming years, that Kendrick will have a better parade than that which was viewed last Saturday. Under the chairmanship of Emil Silflow, Eldon Taylor and Wally Butler, the parade committee had assembled 22 entries, 57 horse and mule entries and many individual entries. The magnificent team of draft horses enter and driven by Don Nagel of Potlatch, and a string of pack mules led by Bud Adamson were parade standouts. Entries ranged from individuals walking to fine riders on beautiful horses and many auto and truck entries added to the color. Floats of much interest and originality were viewed by an appreciative crowd.

The parade was announced by Wayne Harris, himself dressed in appropriate costume for the occasion, including a "stove pipe" hat.

Following the parade the crowd dispersed in many directions about the town as all activities and attractions opened. Entertainment ranging from young tap dancers to Old Time Fiddlers kept visitors amused and entertained in the park during the rest of the afternoon, while a variety of foods at the food fair were consumed and enjoyed. The quilt and flower show, bingo, horseshoe games, volleyball tournaments and races for children were held. A real fish pond had been set up in the wading part of the swimming pool. Over 200 rainbow trout, supplied free by the Idaho Fish and Game Dept. were caught by eager and excited youngsters.

In the afternoon the skies cleared, and although the weather was still chilly, bright sunshine helped warm the visitors.

The Mini Country Fair and Antique display wasn't even thought of until late in the planning of the Centennial. But, under the chairman ship of Elaine Galloway and Debbie Ackerman, an energetic committee put together one of the most popular attractions of the day. It was estimated that well over 500 people filed through the old variety store building.

A word must be said for the men and women who composed the clean-up crew. Most of the activities began to wind down about 4 o'clock and by 6:30 that evening, the workers had removed almost all evidence of the busy day. A truly tremendous and well-done accomplishment.

THE CENTENNIAL BALL

A fitting climax for Kendrick's Birthday Party was the gift of a truly fine Centennial Ball given by the members of Baker-Lind Post 3913 and Auxiliary Unit. Splendid in every way, the Ball was the work of Baker-Lind Post 3913 member and Auxiliary almost exclusively. Governor Cecil D. Andrus was the special and honored visitor and he appeared to enjoy himself as he visited and danced that evening.

The crowd was large but orderly, and the Ball was a great ending for one of Kendrick's finest hours.

Golf Play Sunday Was Success

AT SITE OF PLANNED GREEN

In spite of the rainy conditions on Sunday, October 14, there was a good turn-out for the "Golf-in-the-Rough" tournament and the barbecue which followed on the River Crossing, Inc.'s proposed golf course site two miles east of Kendrick.

A good time was enjoyed by all who participated in the six-hole, best ball competition.

Playing "golf in the rough" was a challenge for all degrees of skill in the game and good form could easily be overlooked if the results meet head-on with an obstacle that detoured the direction of the ball.

Of the five teams that participated, there were only four strokes difference between the first and last place squads. With scores ranging from 3 under par to 1 over par there was a good many laughs.

The players enjoyed the day so much, that after the barbecue and awards were made, a number of the golfers teamed up and played another round on the course.

First place winner that day was a team composed of Aaron Heinen, Jason Butler, Jim Woods and Shad Blewett. In second place was the team of Scott Heinen, Greg Cameron, Bill Blewett, and third place was taken by the team of Rich Hitchcock, Doug Silflow, Clark Woods and Darrel Brocke.

The closest to the pin on No. 2 hole was achieved by Bill Blewett, and the longest drive on No. 4 tee-off was done by Jason Butler.

A special thanks has been extended to the following. Without their assistance and support the tournament could not have been held:

John Snyder for all his work on ground preparation as well as equipment usage. Harlan Fey for raking the fairway with his equipment; Donna Heinen, Bonny Butler and Alvin Howerton for their help with the barbecue, and to Farm Bureau Insurance Co., First Security Bank, for sponsorship, and to Gem State Lumber Co for supplying the bridge bases.

The board of directors of River Crossing, Inc., would like to thank all individuals who have expressed support for the golf course and invite them to become involved in the project by attending board meetings that are held the second Monday of every month at 7:00 p. m. in the Farm Bureau Insurance office at Kendrick.

HOME SPUN DREAMS RAFFLE

The winners of the raffle held by "Home Spun Dreams" (a new Kendrick business firm), on Centennial Day were Donna Heinen, who won the bunny and Kathy Owens, who was awarded the cow. Congratulations to both ladies!

We would like to thank all those who stopped by to see our display at the mini-fair on Centennial Day, to enter the raffle and express kind words of encouragement for our new business. We will do our best to offer a high quality of workmanship and service in the field of sewing and craft items.

A sincere "Thank You."
 Laina Silflow and Lora Schmidt.

APPRECIATED THE CENTENNIAL

I would like to thank the Centennial committee, the Baker-Lind Post 3913 and its Auxiliary, and everyone else who made the Centennial Celebration of Kendrick's 100th birthday such a huge success.

I have watched the community celebrations from the 4th of July celebrating to Community Sales Day, and then most recently, the Locust Blossom Day Festivals and truly enjoyed them, but this was the most super, or granddaddy of all, and it was enjoyed by so many.

I will cherish this day forever. Thanks again. What a super place to raise a family!
 Sincerely,
 Ada Westendahl

WINNERS OF CENTENNIAL ESSAY CONTESTS

For the past several weeks Phil's Food City has been conducting an essay and poster coloring contest in conjunction with the Centennial celebration.

Here are winning essays on the theme "What the Centennial Means to Me."

First Place Winner

What the Centennial Means to Me
By Toby Foster
The Kendrick Centennial means alot to be because my Great Grandpa was a homesteader to the land and I still live on his old land with my family.

The people that live in Kendrick are very nice and I like living here. I know many people that have always lived here and they like the land too.

It means alot to me to live in such a wonderful town like Kendrick. If my ancestors lived here I'm going to stay here and live and have my kids and grandchildren here, because it is such a beautiful place I don't see why anybody wouldn't want to live in Kendrick, or even in our community.

Second Place Winner

What the Centennial Means to Me
By Pat Rush

My family has no history in Kendrick. By centennial standards, we are just babes. But Kendrick's Centennial still has meaning for us. It celebrates many of the reasons we chose Kendrick for our family home.

The Centennial is a celebration of the natural beauty of the area, majestic hills, proud forests, beautiful sunsets, and incredibly blue skies. It is mainly a celebration of people: friendly, loving, giving people. People dedicated to their work, their families and each other.

This centennial is an acknowledgment of what was, what is, and what may be. Although my family and I have no ties to Kendrick's past, we are proud to play a role in its present and its future.

Third Place Winner

What the Centennial Means to Me
By Frank Jacobson

Although I am not a native here, having lived here for only the past fourteen years, I have come to feel like an adopted son of this city during its centennial year. Kendrick's celebration of its first 100 years has provided me opportunities to be come more involved in the life of the community. And as I have, I have grown in my appreciation of the people and places associated with that history.

The centennial year and its activities have served to enlarge my family and my sense of allegiance to its traditions. Even familiar buildings that I once took for granted have now taken on new and deeper meanings. They and family names now link me to the past.

Yes, Kendrick's centennial has helped put me in place in time. It has given me perspective, which I lacked before. And because I now

BBuurr . . . ! the frost was on the pumpkin and everything else Saturday morning, bringing thoughts of "long johns" and flannel sheets to mind. Traffic at the opening of the hunting season was about the same as usual.

Confirmation that there were 3 bull elk bagged, made it a better than usual opening.

Eighteen-month-old Kayla McMillan will be dividing her time between her grandparents, the Grahams of Bovill and the Willis' of Park while her mother Rhonda (Mrs. Shannon McMillan) of Colfax attends classes in secretarial work for the next 10 weeks.

CHRYSTALS RETURN FROM TRIP
Gone "forty days and forty nights" Don and Esther Chrystal returned Saturday afternoon from a traveling vacation that took them into 19 states and gave them an unforgettable vacation and many good memories.

Keeping mostly in the northern and eastern part of the country, the retired Kendrick postmaster and his wife, also a retired postal employee, went as far to the north as the upper part of Maine and saw the Maine potatoes being harvested. The farthest south they traveled was to Gettysburg, Penn., where they toured that city's famous Civil War battlefield.

Don said he was impressed and amazed at the amount of corn he saw growing from the plains of the Dakotas on through Iowa, Illinois and Indiana and Ohio. He said he grew these states raised a lot of corn, but never realized the extent of the crop.

The couple got to see 4 or the 5 Great Lakes, Devil's Tower in Wyoming (very impressive, said Don), Custer's Battlefield, Mt. Rushmore, the Crazy Horse Monument and many other interesting and historical sites and places.

The ancient Egyptians cultivated the wild watermelon. Pictures of the fruit have been found in the older of the pyramids
