Kendrick School District Sets Policies For Free, Reduced Prices on Lunches

Kendrick School District No. 283 this week announced its policy for free and reduced price meals for children unable to pay the full price for meals served under the National School Lunch program. Each school and the office of the Superintendent has a copy of the policy, which may be reviewed by any interested party. The following household size and income criteria will be used in determining eligibility: Children from households whose income is at or below the levels shown are eligible for free and reduced price meals.

Application forms are being sent to all homes with a letter to parents or guardians. To apply for free or reduced price meals, households should fill out the application and return it to the school. Additional copies are available from the principal's office in each school. The information provided on the application will be used for the purpose of determining eligibility and may be verified at any time during the school year by school or other program officials.

For school officials to determine eligibility, households receiving food stamps or AFDC must list the child's name, their food stamp or AFDC case number and the signature and name of an adult household member. Households not receiving food stamps or AFDC must list: Names of all household members; the name and Social Security number of the primary wage earner of the household member who signs the application, and the entire household income with the amount and source of the income received by each household member. The signature of the adult household member who signs the application certifies that the information provided is correct.

Applications may be submitted at any time during the year. Under the provisions of the free and reduced price policy Eldon Taylor, Superintendent, will review the applications and determine eligibility. Parents or guardians dissatisfied with the ruling of the official may wish to discuss the decision with determining official on an informal basis. Parents wishing to make a formal appeal may make a request either orally or in writing to Doug Harris, Board Chairman, Kendrick, Idaho (289-4622) for a hearing on the decision.

Households that list a food stamp or AFDC case number must report when the household no longer receives these benefits. Other households approved for benefits are required to report increases in household income of over \$50 per month or \$600 per year and decreases in household size. Also, if a household member becomes unemployed or if the household size increases, the household must contact the school. Such changes may make the children of the household eligible for benefits if the household's income falls at or below the levels shown below.

In certain cases, foster children are also eligible for school meal benefits. If a household wished to apply for benefits for foster children living with them, the household should contact the school for more information. The information provided by the household is confidential and will be used only for the purposes of determining eligibility and verifying data.

In the operation of child feeding programs administered by the U. S. Department of Agriculture, no child will be discriminated against because of race, color, sex, national origin, age, or handicap. If any member of a household believes he/she has been discriminated against, he/she should write immediately to the Secretary of Agriculture, Washington, D. C. 20250.
