The Meaning of Success

By Anna Klatt
 With the K. H. S. volleyball team returning home from state tournaments and the 8-man football championships sneaking up on us, Kendrick High School students discuss their meaning of success.
 Last year's football team was one of the greatest success stories in K. H. S. history. After two years in a row of making it to the state playoffs, the Tigers finally walked away with the state championship. But what does that mean for the '92 team? Mike Morgan says "Nothing less than a state championship. Anything less would make us a good team, not a great team." John Wagner commented that his success was making it to the state playoffs.
 "There are several meanings of success, but has our team lost the old-fashioned feeling of 'win or lose, you're still a winner?'" Coach Driscoll says, "I don't think so, the team is so use to having success that its standards are really high. The primary goal this year was to qualify for the playoffs, and now their making higher goals. Now that they have achieved that first goal, the next goal is to repeat as state champions."
 "The K. H. S. volleyball team has a story all its own. Even though the season remained a bumpy road for the lady Tigers, they kept their priorities straight. After beating the Troy Trojans during homecoming week they all knew they had a shot at districts. With great pride the team took success to its fullest length and came home Whitepine League Champions. After all the hard work and state in sight, what was success for the lady Tigers? Jennifer Hudson said, "Our success was winning districts in A-4 Whitepine League. State was just the icing on the cake!"
