## Second Graders in Play "Christopher Columbus"

By Ferris Dudunake and Janet Sillow  
Eighth Grade

On Thursday, November 19, the second grade class at Juliaetta Elementary School performed a play, "Christopher Columbus." Christopher Columbus was played by Christopher Dudunake and Christopher Blair. There were ten Indians, six narrators and four sailors. During the play students sang a song about Christopher Columbus and also sang "Ten Little Indians."

They did a great job performing and forgot their lines only a couple of times. In addition to sound effects, there was a bomb that fell, a meteorite, and a storm.

We thought they did a great job of learning and performing the play, and wish that more people could have seen it.

## Manning Onstott, Retired SCS Officer, Passes Nov. 19

Manning A. Onstott, a longtime Kendrick resident and retired Soil Conservation Service employee, died of pneumonia Thursday, Nov. 19, at St. Joseph Regional Medical Center at Lewiston. He was 82.

He was born Dec. 23, 1909, to Adolph and Sarah Howell Onstott on Dry Gulch Ranch, west of Clarkston. The family moved to the old Uniontown on the Lewiston Grade and then in 1914 to Kendrick, where they ranched on Big Bear Ridge. The family moved to a small ranch west of Kendrick in 1917.

After finishing school, Onstott worked at various jobs, including in a warehouse, picking fruit, fighting fires, and as a section hand on the railroad.

Before joining the Soil Conservation Service, Onstott worked for the U. S. Forest Service in blister rust control. He was appointed foreman in the Civilian Conservation Corps and served as a camp boss for several years.

During 1941 and 1942, he worked as a clerk for the N. B. Long and Sons store in Kendrick and in 1942 he was appointed as the first warden for the newly created Kendrick Fire District. He joined the Soil Conservation Service in 1946.

When he retired, Onstott had 33 years of government service.

He was also a bus driver for the Kendrick School District for nine years following his retirement.

He and Elsie M. McCollister were married August 29, 1932, at Asotin. They celebrated their 50th wedding anniversary earlier this year. She survives at their Kendrick home.

He was a past master of the Kendrick Masonic Lodge and past master of the Kendrick Grange. He was an officer of the Grange at the time of his death.

Onstott helped organize the Kendrick Camper Karavan and had served as president and secretary of the group.

He had been an avid hunter and fisherman. He also enjoyed gardening and raising flowers and often shared his crops with others.

Survivors in addition to his wife include a daughter, E. Jeri Miller of Lewiston; a son, Raymond M. Onstott of Williams Lake, B. C.; a brother, Oscar Onstott of Ogden, Utah; a sister, Marjorie Hansen of Opportunity, Wash.; five grandchildren and five great-grandchildren.

The funeral was held at 10 a. m. Saturday at Malcom's Brower-Wann Memorial Chapel at Lewiston. The Rev. Susan Butts of the Kendrick United Methodist Church officiated. Burial was at Normal Hill Cemetery.

The family suggests memorials be contributions to the Kendrick-Juliaetta Ambulance Fund.

## A Good Friend Is Gone—

It was with a shocked and saddened community that received the news of the passing of Manning Onstott last Thursday. All of his friends had known that he had been in poor health the past few months, but one is never prepared for such a loss.

And, the death of Manning Onstott is a loss. He had been so much a part of the community for so many years, that it is almost impossible to imagine him gone. This man gave so much of himself to other people and to the community. When you think of the Grange, the Masonic Lodge, the Camper Klub, the United Methodist Church, you would think of Manning Onstott. His work and accomplishments with these and other groups earned him the respect and admiration of all. His respect by the people he worked with in the Soil Conservation Service was unquestioned, and, in addition to carrying respect in his profession, he also earned the friendship of just about everyone who knew him.

We grieve for Elsie, and Jeri and Ray, for they have lost a loyal husband and a loving father, and we grieve for ourselves because we have lost a good friend and a faithful

worker. Time will ease the sharp pain that is with us now, but time will not dull the memory.

When Larry Sorensen, who was the Soil Conservation man in Genesee heard that I was going to Kendrick twenty-five years ago, he told me, "You be sure you get to know Manny Onstott—he's one of the best men you'll ever meet." He was right.

## AIDS Awareness Week Planned at KHS

By Anna Klatt

Eight K. H. S. students started organizing an AIDS Awareness week last Tuesday. They plan to have it take place in April of '93. This project has been an interest of many students for years. Finally, steps are being made to make the K. H. S. student body aware of AIDS.

Members of the advisory board are Anna Kampf, Jessica Bunch, Brian Sillow, Jerimie Chase, Mike Ogle, Stephanie Emmett, Mandy Green and Anna Klatt. They will work with the help of Mrs. Kirkham, K. H. S. counselor, and Mary Pluta, the school nurse.

The board's main goal is to grab the students' attention about the effects of AIDS. They hope to have some great guest speakers join them, as well as show some extremely educational videos.

The advisory board hopes this will be a positive experience for both their fellow students and parents. They plan to invite parents to any assembly or video presentation given that week, as well as to provide a parents' night for both parents and their children to come and learn more about AIDS.

At the meeting last Tuesday the board of eight students were given time to ask any questions they had about AIDS. Most of all they realized what a great need there was to let the rest of the student body in on the facts about AIDS, because until there is a cure found, education is our cure.

## Jerry Bruce Wins Weekly Football Forecast

Jerry Bruce of Kendrick only missed calling the outcome of two games in the NFL last weekend and that was good enough to win Kendrick's weekly football forecast, reported Jeff Smith. Smith added that Jerry was closely followed by Wayne Harris and a "handful of others" with just 3 wrong predictions. Jerry also was only 1 point off on calling the outcome of the tie-breaker game on Monday.

There were a total of 63 entries in the contest last week which was sponsored by Geo. F. Broeke and Sons. This week's contest is being sponsored by Potlatch Telephone.

"Out-on-the Limb"—Without comment or criticism it is reported that all three "Out-on-the-Limb" forecasters missed their predictions last week.

And, without comment or criticism, here is what the three see in the crystal ball this week: Don Chrystal says New England will beat Atlanta at Atlanta; Wally Butler picks Seattle to defeat Denver at Seattle; Jeff Smith expects to see Miami to beat the Saints at New Orleans.

Wilson was introduced and recognized as being the only charter member of the post still living. He had just celebrated his 97th birthday and proudly walked up to the podium to receive his pin. Harry Newman, post adjutant, awarded the pins and Bob Heidenreich presented them to 37 members. There were 56 other members receiving pins who were unable to be present.

Helen Heidenreich, president of the Auxiliary, introduced and gave special recognition to the charter members of the Auxiliary. Those present were: Peggy Bateman, Rose Ann Holt, Dorothy Medall, and Zada Woodruff. Others not able to attend were: Jesse Erlewine, Doris Israel, Bertha McCall, Mary Beth McCall, Gerri Miller, and Vera Souders.

The Auxiliary has taken in, by transfer, reinstatement or new, 26 members in the past 5 years.

Next on the program, Gerald Halseth presented a very interesting history of the organization of Baker-Lind Post 3913 and the building was obtained. He then introduced honored guests Tom Long and his daughters Jennifer Long and Kathy Armstrong, and at the same time presenting them with a beautiful plaque in honor of Tom's father, and the girls' grandfather, Tom Long, Sr., who was responsible for the post acquiring the "old high school gym" for their hall. Gerald told of the many years of volunteer labor and hard work that have made the building what it is today.

The program concluded with the unveiling of an engraved sign made by Dick Bigham and placed above the door of the men's meeting room this is inscribed with the words, "Tom Long Meeting Room", dedicating the room to the memory of the late Tom Long, a pioneer of Kendrick. Maurice Long and Patricia Odberg, the other two children of Tom were not able to attend because of the snow storm and treacherous road conditions.

Bob and Helen were presented gifts of appreciation by the members and the rest of the evening was spent dancing to the music of the band "More Country".

Bob and Helen say "Thanks"—We would like to extend a big "Thank You" to everyone who helped make the Awards Banquet a success. Those who set up tables and chairs and did the decorating, the ladies who made the table arrangements, those who ordered pins and helped with the program, the men who carried the colors, the ladies who brought food for the dinner and the ladies who served the dinner and did the cleanup afterwards are most deeply appreciated.

Also we want to thank the Post and Auxiliary for the lovely gifts presented us, a big thank you to everyone who braved the weather to attend that evening.

Thanks again,  
Bob and Helen Heidenreich  
Commander and President

to flourish in the region, said David Ponce, Nez Perce NF wildlife biologist.  
 Elk may be a prime beneficiary of fire and its ability to transform dense forests into mosaics of brushlands and semi-open forest savannah types, said Blair, but many other species also depend on the effects of fire.  
 After several decades when, as Ponce said, "suppression was the name of the game, forests in the area have changed considerably. Under pristine conditions, fires used to roll through some habitats as often as every decade or so. In many places, the created semi open stands of Douglas fir and ponderosa pine, with plenty of intermingled "edge" habitat critical to a wide variety of species. But today, these habitats are becoming more scarce as forest stands grow increasingly dense.  
 The Nez Perce in particular has long had a reputation for one of the most progressive, wildlife-oriented prescribed burning programs in the country. Many people don't realize that historically, fire was extremely common and western skies were often hazy with smoke, the biologist said, and in the absence of regular prescribed burning, not only will many species decline or even vanish, but the potential for truly catastrophic fires looms just over the horizon.

RMEF Conservation Programs Director Kevin Lackey said the Foundation contributed \$5,000 for the Raekliff Creek burn, and has funded a total of \$16,000 worth of prescribed burns on the Nez Perce NF alone.  
 "Prescribed burning constitutes one of the most cost-efficient and valuable methods of enhancing wildlife habitat for wildlife populations," said Lackey. "We also understand that many people have concerns about prescribed fire, threats to

property and the effects of smoke on and their habitat. More than 68,000 members strong, the Foundation has generated \$25 million to conserve and enhance more than 1 million acres of wildlife habitat.

**Battling Against Overeating During The Holiday Season**

For many people, the period from November 1 through January 1 is the time to indulge in rich food and drink and not worry about a few extra pounds. But for people who are recovering from eating disorders such as bulimia or compulsive overeating, holiday mealtimes can be anything but festive.

If you view the approaching holidays with fear and loathing, you can take steps to lessen your anxiety and face this food-laden season with a sense of confidence and control. The first step, said Dr. Richard Stuart, psychologist at the University of Washington Medical Center's Outpatient Psychiatry Clinic, is to focus on the emotional issues that trigger eating disorders.

"Most people believe that food is the problem," he said, "but actually people use food as the solution to an emotional problem. And for many people, there's a huge amount of emotional decay between Thanksgiving and Christmas."

According to Stuart, food is the most universally abused mood-controlling substance. In addition to being "street-legal" and easy to obtain, many people find that food is a reliable comfort. Stuart, with his wife, Barbara Jacobson, has written, "Weight, Sex and Marriage", a book that examines the connection between relationships and eating. He

believes that relationship problems often revolve around food. "Find non-food alternatives for distractions and write them down so you have a list to refer to when you sense a familiar emotional trigger for overeating," said Stuart. "I recommend that people just before the holiday season start reading three different books. If you want to use reading as a distraction, you're more likely to pick up a book that you've already started reading."

"Making phone calls, writing letters, doing crafts or volunteering are all great ways to distract you from using food as short cut to mood enhancement," he said. "Physical activity, like walking, is an exceptionally good distraction because exercise has a beneficial effect on emotions."

"Having a reasonable breakfast every morning is one of the best things you can do to prevent overeating later in the day," said Stuart. "It has a proven limiting effect on binging."

"But if you do slip up, don't beat yourself up. Forgive yourself and start over. One of the prime reasons for problem eating today is guilt about problem eating yesterday."

The diamond fields of South Africa were discovered in 1868 when farm children found "a pretty pebble" that turned out to be worth \$2,500.

Not all seasonal activities have to

**HAPPY THANKSGIVING**

When the Pilgrims celebrated the first Thanksgiving almost four hundred years ago, they had, by our standards of today, little to be thankful for. The small group had endured and survived a year of hardship in a strange, hostile land. Food was not plentiful and conditions were still grim. But these early settlers were still grateful: they had survived, they had enough to sustain them, and above all, they had their faith and beliefs. For these blessings they were grateful.

As we gather with our family and loved ones this Thanksgiving Day of 1992, we have a life those early Pilgrims could not have imagined—a strong nation at peace, a secure society, comforts and privileges that are the envy of the world, and bountiful quantities of food for all.

If our forefathers wanted to thank God for those first few meager blessings, we should most assuredly be grateful for all we have today.

We at Phil's Food City are very grateful for the support and patronage by this good community. We hope that each of you have a wonderful Thanksgiving.
