As residents, motorists, and elderly pedestrians on lower Main St. are well aware, Kendrick's highway construction zone running from Mill St. to First and referred to as Phase 1 was expanded last week to include the two blocks from First to Third on Main.

And that means adequate access for semi trucks such as that which could

be provided by First St. This newest plan, combining Zone 1 construction with about half of what was to have been Zone 2, has an estimated time frame of three weeks or completion-and that's beginning back on July 29.
