Ryan Heier Completes **Navy Recruit Training**

Navy Airman Recruit Ryan D. S. Navy basic training at Recruit Training Command, Great Lakes, Illinois.

During the eight-week program, Heier completed a variety of trainining which included classroom study, of safety skills required for working around ships and aircraft.

Heier and other recruits also received instruction on the Navy's core values-honor, courage and commitment-and what the words mean in guiding personal and professional conduct. Heier joins 55,000 men and women who will enter the Navy year from all over the country.

Men and women train together from the first day in the Navy just as they do aboard ships and at shore commands around the world. To reinforce the team concept, Heier and other recruits also were trained preventing sexual harrassment and ensuring equal opportunity.

Even as the naval service gets smaller over the next few years, highly motivated young people like Heier are still finding an opportu-

nity to improve their knowledge and education as they become part of the most highly technical navel force in history. This year alone the Navy will have more than 57,000 job Heier, son Maury and Ellen Heier openings and opportunities, most of of Kendrick, recently completed U. which include guaranteed training.
